INVESTIGATION OF WATER RIGHTS 183-2 and 200-2

On July 28, 1967, Mr. Joel Soderquist of Wasta, the present owner of the lands covered by Water Licenses 183-2 and 200-2 was contacted. He stated that the water granted under these two licenses has been in use whenever it was available since the licenses were issued in 1915.

Mr. Soderquist agreed to submit form 24's and notices of transfer for these two licenses as soon as he could get them signed and notarized.

I looked at the ditches and dikes for carrying the water to the fields. All these were in very good condition. The diversion dam has been badly damaged by flood waters, however Mr. Soderquist stated that this damage was caused this spring and that he was diverting water for irrigation prior to the heavy run off in June. He intends to repair the dam later this summer for fall irrigation and stated that he has replaced this dam at least four times in the past when flood waters have destroyed it.

This investigation indicated that the system has been kept in good repair generally and no evidence of possible forfeiture was found.
