7. Give a brief description of proposed project. When available include any preliminary engineering report or other reports or information that will help explain the project. (Attach sheet if more space is needed)

This is an existing home, with mobile park (8 mobile homes) and small campground (used 3 months year) formerly called HITCHING POST, now COUNTRY CAMPGROUND USA. We have a good well, testing results are excellent, and supply meets our demand well. Our pump is relatively new, as are the pressure tanks etc. Proper maintenance performed to keep all in good repair and operating well.

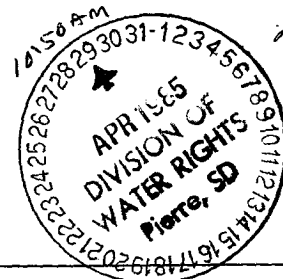

Attachments: Attach Form 2A if diversion from a well or dugout, or if storage of water, is proposed. Attach map (see instruction)

WATER PERMIT

The Water Management Board hereby approves Water Permit Application No. _____

(Applicant)

(Post Office Address)

(State)

(Zip Code)

With the following qualifications.

Date of first receipt of application _____, 19____.

Date of return to applicant for correction, amendments or changes required _____, 19____.

Date of receipt of corrected application _____, 19____. Approved _____, 19____.

The Water Management Board hereby approves this Water Permit No. _____ authorizing the construction of the water use system and the placing of water to beneficial use as stated in the Application and as qualified in the Water Permit approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is _____, 19____.
2. The equivalent of at least one-fifth of the specified work is to be completed on or before _____, 19____.
3. The whole of said work is to be completed on or before _____, 19____.
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is _____, 19____.
5. The water appropriated shall be used for the purpose of _____

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be unlawfully impaired by this appropriation.
7. The amount of the appropriation herein granted shall not exceed _____ cubic feet per second; neither shall it exceed the capacity of the above described water supply system nor shall it exceed the amount of water needed for beneficial uses served and to which water is actually and beneficially applied for _____ on or before _____, 19____; said water to be used during the following described annual period: _____

VESTED WATER RIGHT NO. 2000-2

Date of Receipt of Claim April 29, 1985.

Date of Validation May 28, 1991.

The Chief Engineer, on behalf of the Water Management Board validated Vested Water Right Claim No. 2000-2 for Robert O & Patricia A Moore, Rt 1, Box 53, Custer SD 57730 with the following limitations, conditions and qualifications:

1. Vested Water Right No. 2000-2 appropriates 0.034 cubic feet of water per second from one well (Precambrian Rock) 90 feet deep, located in the S 1/2 NE 1/4 Section 33-T3S-R4E.
2. The appropriated water is used for supplying water to mobile homes at the campground and may not exceed the amount of water needed for beneficial use for commercial purposes.
3. The water is to be used during the following annual period: January 1 - December 31.
4. The priority date of the Vested Water Right is: January 1, 1953.
5. The water use system has been constructed and water has been applied to beneficial use.
6. Water Rights obtained in compliance with the laws of the State of South Dakota must not be unlawfully impaired by this appropriation.

STATE OF SOUTH DAKOTA

VESTED RIGHT WATER LICENSE NO. 2000-2

(1) Robert O and Patricia A Moore of RR 1 Box 53, Custer, SD 57730 made Application No. 2000-2, April 29, 1985 for validation of a vested right claim to appropriate 0.034 cubic feet of water per second from groundwater (one well), Custer County, South Dakota for commercial purposes. Vested Water Right No. 2000-2 was validated May 28, 1991 with a priority date of January 1, 1953. Construction of the described water supply system and application of water to beneficial use has been completed and complies with applicable provisions of South Dakota State Law.

(2) The applicant is entitled to divert 0.034 cubic feet of water per second for beneficial use. The location of the diversion point is in the S 1/2 NE 1/4 Section 33, T3S, R4E.

(3) Pursuant to Section 46-5-30.1 Robert O and Patricia A Moore of RR 1 Box 53, Custer, SD 57730 the holder(s) and/or owner(s) of Vested Water Right No. 2000-2 is issued a license to appropriate 0.034 cubic feet of water per second from groundwater (one well) with a priority date of January 1, 1953 from the location specified in (2) of this license. The water is to be used for the purpose of commercial use. This license is subject to any limitations, conditions or qualifications listed in Vested Water Right No. 2000-2 and subject to South Dakota State Law.

Dear Mr. & Mrs. Moore:

We are contacting all campground owners to advise them of the requirement and reasons for obtaining a water permit to use water from a well or surface supply for a commercial campground. If you obtain your water from a municipality, rural water system or other community system that already has water rights, you do not need a permit and this letter does not apply to your operation.

Enclosed are the application forms and instructions to apply for a water permit. Although State Law does require anyone using water for other than individual household domestic use or livestock watering to have a water permit, there are also several advantages to having a permit.

1. A water permit becomes a water right that entitles you to appropriate water for your commercial operation. The water right is also a property right that cannot be lost unless the water is not used.
2. In the event a large capacity well were to be authorized by a permit and pumped near your campground, you would have no protection if there were any adverse affects on your water supply. In fact, without a permit, the large capacity well owner would have seniority and you would have no rights to any water.
3. The State water rights system operates on the first in time is first in right basis. This means the senior water right has first call on the water except for domestic use. The non-domestic water user without a water right has no rights or protection in the event of water shortage conditions.

There are several commercial operations such as yours that have not established water rights. Normally there has been no problem even though the water user is operating without a permit. The reason being, the amount of water pumped is not large enough to adversely interfere with nearby domestic wells or existing rights. The difficulty occurs when we receive a legitimate complaint and it is necessary to shut down the water use operations that do not have permits. Since water use in South Dakota is increasing, the possibility of complaints or water

Country Campground USA

Page 2

July 22, 1981

supplies being fully appropriated is also increasing. The Water Management Board approves or denies all water permit applications. At almost each meeting, someone appears to protest an application. Upon questioning it has been determined in several cases that the person protesting is a non-domestic water user and thus he has no rights or legal standing even though he may have been using water for several years.

I would certainly suggest that you establish your water rights at this time. Such rights would provide future protection for continuing your operation and give you legal rights in the event of future large capacity well development in your area.

I believe you can get by for the one time minimum filing fee of \$150.00. Other costs will be for preparation of a map, advertising twice in the newspaper, and a one time \$50.00 final inspection fee.

If you have any questions or need any assistance, please let us know.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

Pierre, South Dakota 57501-3181

August 28, 1984

Country Campground USA
RR1, Box 53
Custer, South Dakota 57730

Dear Sirs:

The Division of Environmental Quality of this Department is conducting a survey of non-community public water supply systems. As a part of the survey, we have reviewed our records and we can not find any water rights on file for Country Campground USA.

A water permit is required pursuant to SDCL 46-1-15 to use water from a private source for commercial use. Any use of water, except for private domestic use, requires a water permit. Examples of commercial use are: truckstops, motels, restaurants, tourist attractions, commercial campgrounds and any other business operation. Examples of non-commercial use that require permits for private supplies are: churches, hospitals and nursing homes (any amount of water) and schools that pump more than 18 gallons per minute.

If you have a water permit that has been issued under another name or if you believe a permit has been issued under another name, please contact us. We are enclosing the necessary permit application forms and instructions, if you need a permit. Please complete and submit with a \$50.00 filing fee.

An existing business without a water right has no right to the use of water. Except for private domestic use, any water user without a water right is not entitled to receive protection in the event of well interference by a new or future user who has a water right. The new user with a water right will have the senior priority over an existing user without a water right. In South Dakota, the first in time (senior priority) is the first in right, except for individual domestic use. Individual household, farm or ranch use does not require a permit and has preference over all other users of water.

If you have any questions or need assistance with completion of the forms, please feel free to contact us.

Sincerely,

Kevin C. Larson
Water Resources Engineer

MESSAGE

We received sometime ago, the enclosed form, which we have completed, hopefully to your satisfaction. We purchased this property, which includes our home etc., some 8 years ago; the well was already producing, and is a good well that we have maintained well.

We do not fully understand having to have a permit to appropriate water from our own land, but want to be in compliance with whatever should be done. we were not advised of this when we purchased the property.

There have been a couple studies done regarding rural water outlets, and ours was one that they used as an example with all testing completed as very satisfactory.

NOTICE

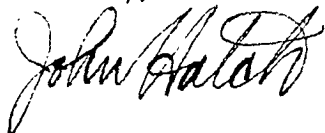

Country Campground USA
RR 1, Box 53
Custer, South Dakota 57730

Dear Sirs:

August 28, 1984 we notified you that State Law requires that a water permit be obtained for any use of water from a private source for use in a campground. We have not heard from you on this. Failure to comply with State Laws--SDCL 46-1-6(6), 46-1-15, 46-5-8.2, 46-5-9, and 46-5-10 and Water Management Board Rule ARSD 74:02:01:03--can result in an order to stop water use until an application for a water permit has been submitted and approved.

If you have questions or need another set of permit applications forms or if you believe you already have the required water permit or need assistance in completing the forms, feel free to contact us. Please submit the completed application forms prior to June 25, 1985.

Sincerely,

John Hatch, Chief Engineer
Water Rights Division

Dear Mrs. Moore:

Thank you for your permit application. I am returning it for the following information:

1. Both copies of form 2 must be signed and notarized. Also complete form 2A (top) to the best of your knowledge.
2. An amount of water claimed must be filled in. Our information indicated 35 gpm. If this is correct please enter.
3. For diversion of up to 45 gpm the filing fee is \$50.00
4. I am enclosing a map, please mark the location of the well on it and sign it.

Once we receive the above information, the filing fee and the map we can continue processing your application.

If you have any further questions please contact this office.

Thank You,

Dear Mrs. Moore:

This letter is in response to the Affidavit of Water Use received from you on April 11, 1986. Enclosed is a copy of a letter sent to you on May 14, 1985, by Kevin Larson. I have no record of any of the items in Nos. 1-4 being returned to the Division of Water Rights. On April 11, 1986, a single form (Affidavit of Water Use) was received from you. The remaining forms included in items No. 1-4 were not returned. Enclosed is a second set of forms to replace the originals if the forms have been misplaced.

1. Two copies each of Form 2 and 2A. ✓
 2. Instruction sheet ✓
 3. A map on which to mark the location of the well. The map must also be signed. ✓
 4. A filing fee of \$10.50 is needed for a Vested Right application.
 5. The driller of the well and a well log are also needed if available (not available)
- Complete all the information you can on Form 2A regarding well construction.

Please contact us if you have any questions.

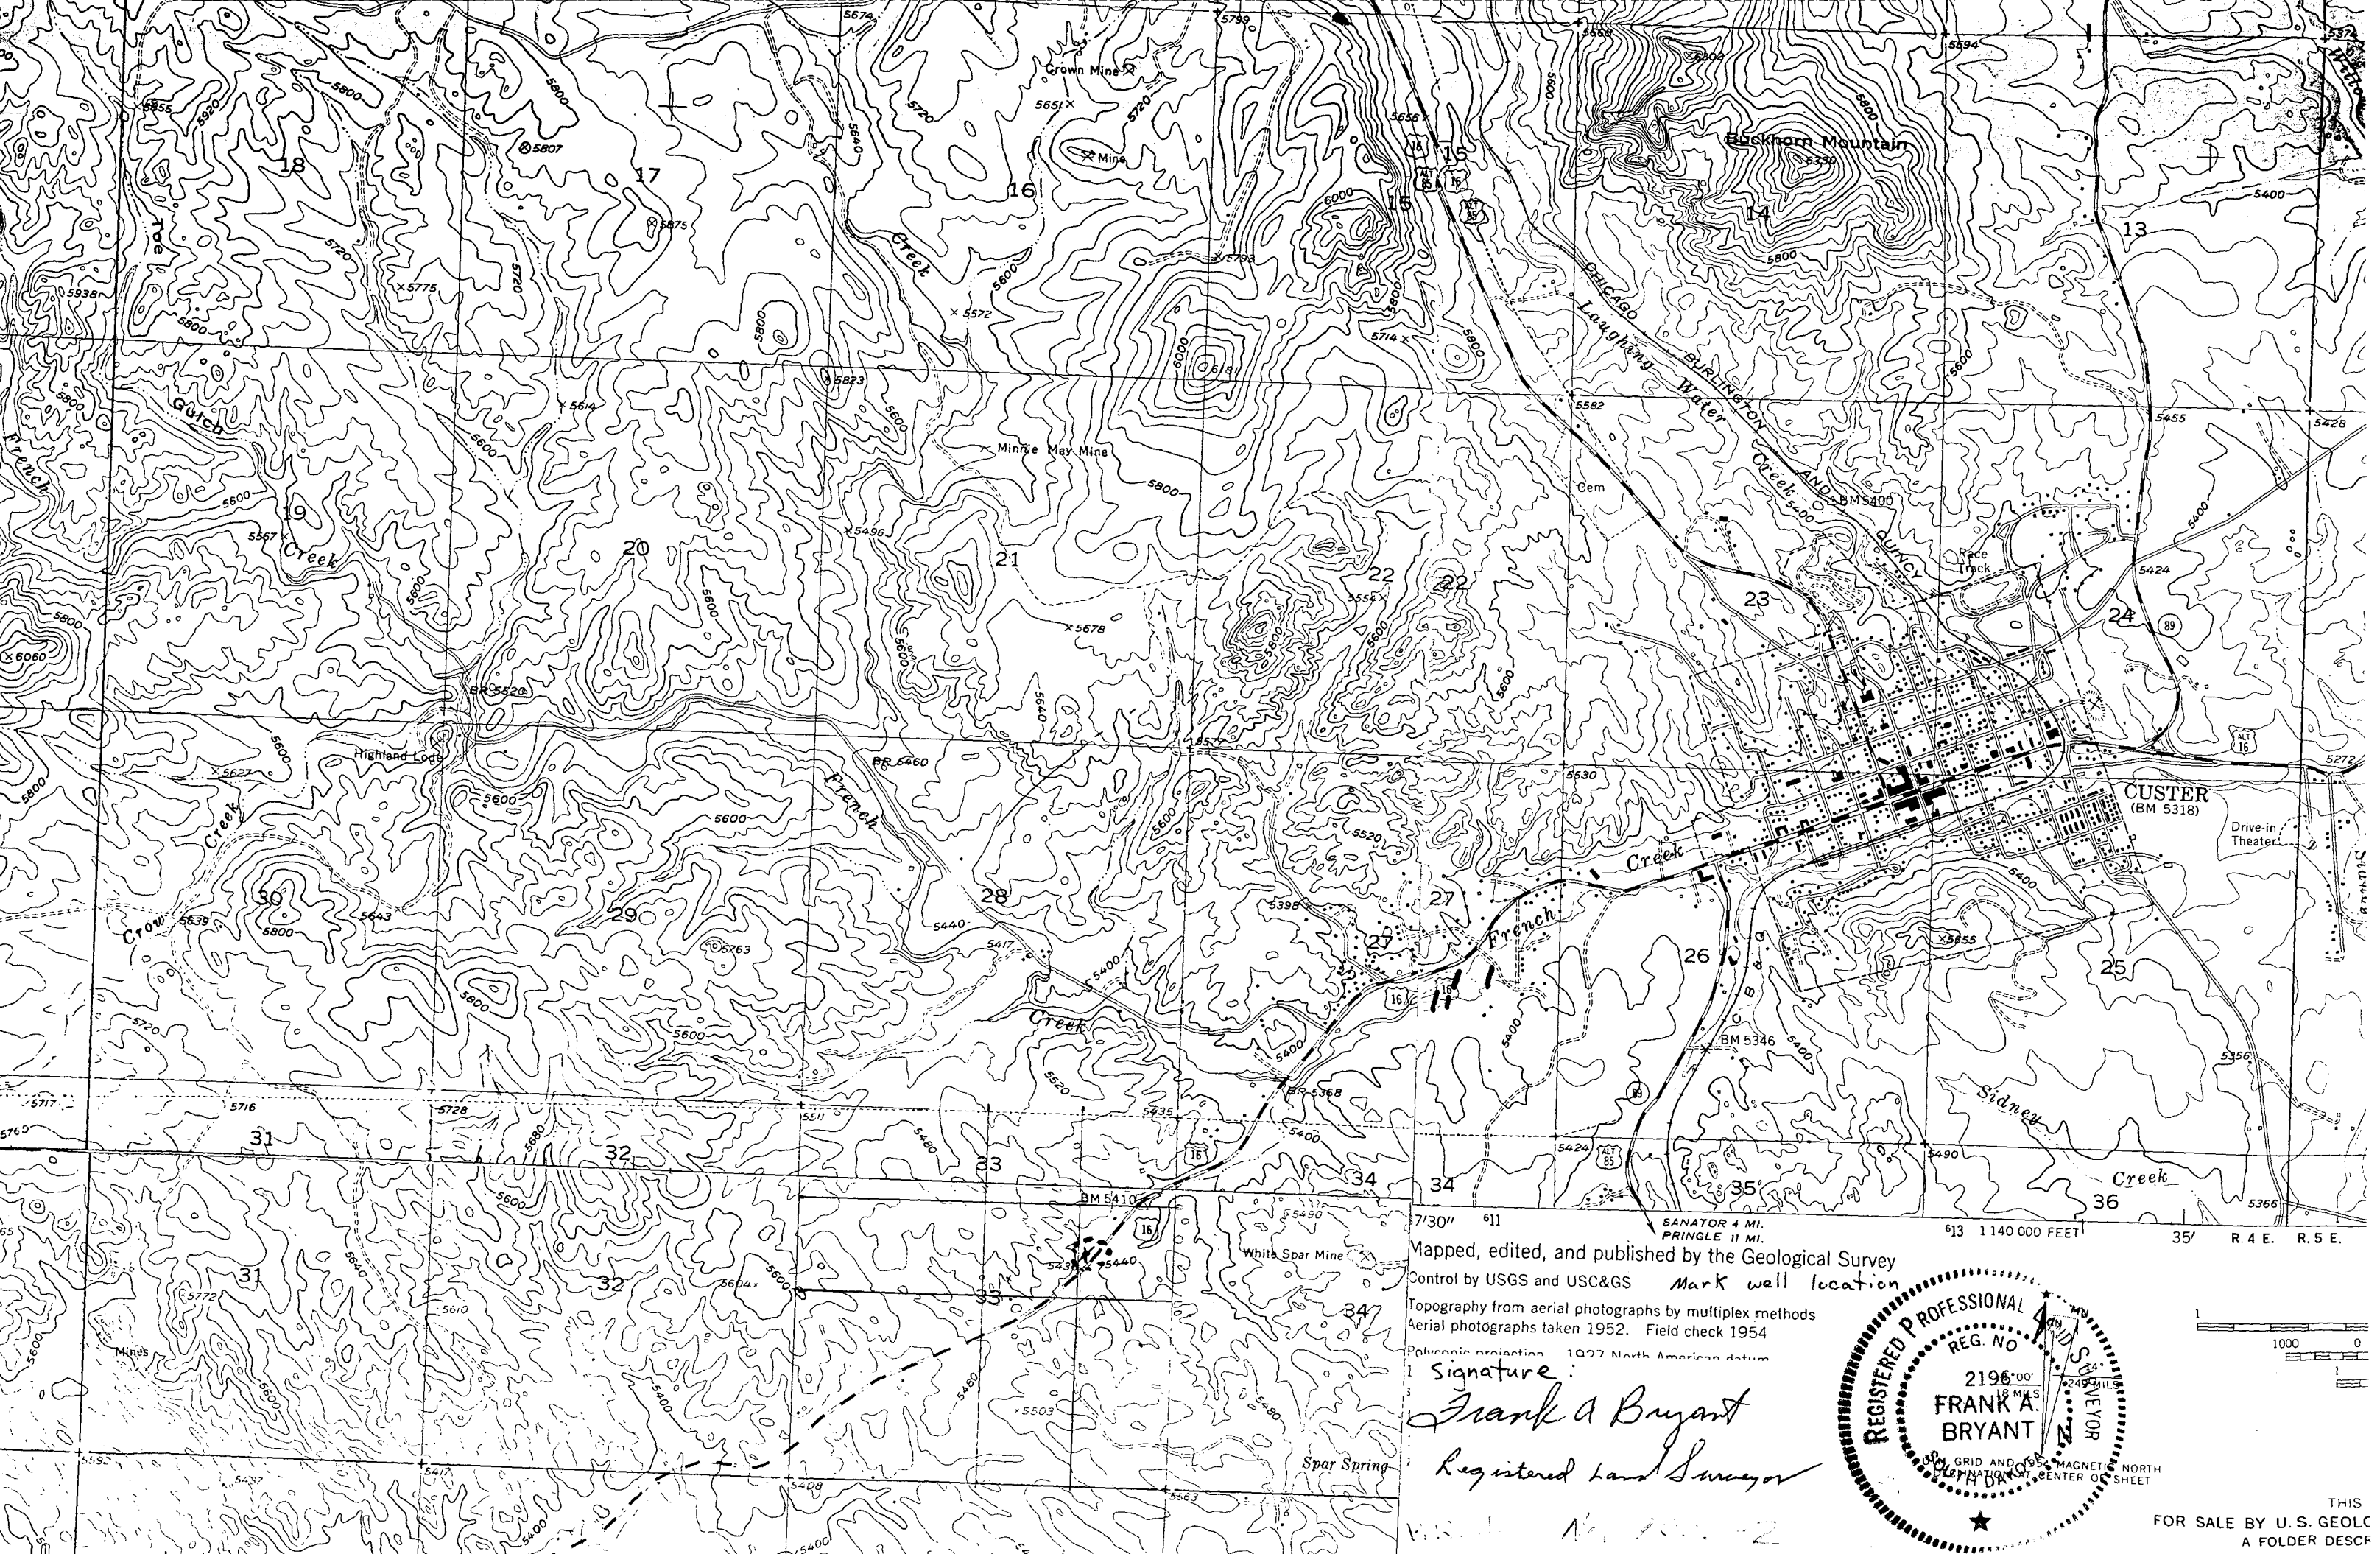

Sincerely,

Ron Duvall

Dear Mr. and Mrs. Moore:

I am writing in response to your permit application received on August 13, 1986. The following information is needed before the permit application can be processed:

1. The amount of water claimed (gallons per minute) needs to be specified in Question No. 2 on the enclosed Form 2 and in Question E and F on the enclosed Affidavit of Water Use. If the number of gallons per minute is not known then an estimate needs to be given.
2. I also believe the type of water use does not include the box checked "Rural Water System". Please erase this use of water unless this use can be explained.

Pierre, SD 57501-3181

RE: Application for a vested right claim

Dear Regan:

Thank you for so promptly following up on the tele/con when you said you'd be sending forms.

I tore my house apart looking for what I thought was the same forms filed in 1986. I found them (copies) which I am taking photo-copies of to send to you. My husband remembered we hired a surveyor to lay out just exactly where the well is in relation to the forest service property that outlines our place. We cannot find that or a copy of that map; we did find a thank you letter from Kevin C. Larson, Natural Resources Engineer, thanking us for our permit application. He stated that the form 2 must be signed and notarized, which I beleive we did and sent back.

As for the amount of water per minute that we are using, I have a local plumber figuring that for us, as we have one and two person households, many of which are gone winters, and some are gone summers...and most of the remaining ones work, so he is taking that into consideration as he figures what is an approximate usage.

As for the map, I remember hiring the surveyor to locate on the map the location of the well etc. We wonder if it is filed perhaps under: Hitching Post (old name of this property) or Country Campground USA (name of when we operated a small campground, but have since converted to mobile homes or Beulah Willey (former owner of this property) or Pat and Bob Moore (present owners of this property).

I hope this is of some help to you in locating the original (by us) permit application and subsequent correspondence. If not, please let us know and I guess we start from scratch again.

Sincerely,

Mrs. Patricia A. Moore

RE: Tele/con re: vested water rights, Country Camp USA
(Robert and Pat Moore)

Dear Mr. DeWall:

You asked that I write you a letter after talking with our plumber regarding the output of our well that services our place. He estimated, knowing the well, and our circumstances that the output is around 15 gal per minute, maximum.

We have a rather unique situation here. We did have a small mobile home park and a campstrip. We did away with the campstrip and put sites that would accomodate mobile homes there. However one of the mobile homes is transient...they just leave their unit here to come to when they desire. They haven't been here since Christmas. The other mobile home sites on our place are one or two person households; some without washers and dryers....some are in the south in the winter....some are in the traveling mode during the nice weather so a good many times there is noone in many of the units.

We have 9 sites with units on them; One unit's occupants are now in California, one unit's occupants are in Phoenix, one unit's occupant only is here about 2½ months a year! The remaining units are people who work outside the home and are not here much.

Regardless that the 15 gpm falls under the 18, we want to go ahead and get vested water rights; in fact we thought this had been done long ago.

If I can be of further help to you, do let me know; meanwhile we will assume that we are in process of obtaining vested rights.

Thank you.

Sincerely,

Mrs. Patricia A. Moore

VESTED WATER RIGHT CLAIM NO. 2000-2

April 16, 1991

Vested Water Right Claim No. 2000-2 is to appropriate 0.034 cubic feet of water per second from one well (Precambrian Rocks), 90 feet deep, located in the S1/2 NE1/4 section 33-T3S-R4E with a claimed priority date of 1953. Water is used for domestic purposes by mobile homes located at Country Camp USA.

Conclusions:

- 1) Pursuant to SDCL 46-5-8.2 no permit is needed for water distribution systems diverting 18 gallons per minute or less; however, the applicant wants to proceed with this claim.
- 2) According to the Affidavit of Water Use the works were constructed in approximately 1953 and water has been put to beneficial use for commercial and domestic purposes. The campground (commercial use) no longer exists.
- 3) The Division of Water Rights has not received any water use complaints pertaining to this claim.
- 4) The amount of water appropriated seems reasonable for the claimed use.
- 5) It is recommended that the vested right claim be validated for domestic use with a priority date of January 1, 1953, since the exact date of construction in 1953 is unknown.

Ron Duvall, Natural Resources Engineer

RECOMMENDATION OF CHIEF ENGINEER FOR VALIDATION OF VESTED WATER

RIGHT APPLICATION NO. 2000-2, Robert & Patricia Moore

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Validation of Vested Water Right Application No. 2000-2, Robert & Patricia Moore, Route 1, Box 53, Custer, SD 57730.

The Chief Engineer is recommending VALIDATION of Application No. 2000-2 for 0.034 cfs because 1) water has been appropriated as described for domestic water supply use with a priority date of January 1, 1953, 2) the use has been developed without unlawful impairment of existing rights, 3) the use is a beneficial use and 4) it is in the public interest.

See report on application for additional information.

Custer, SD 57730

Dear Mr. & Mrs. Moore:

Your Application No. 2000-2 for a vested water right claim has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of your claim has been sent to the Publisher of the Custer County Chronicle printed at Custer, SD. For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice and notify this office, if you have any corrections or questions.

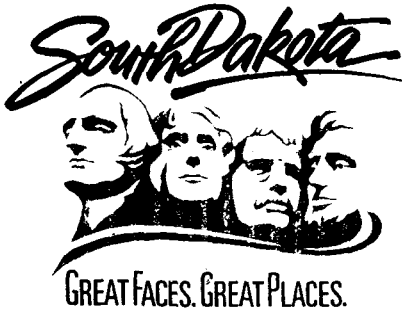

Be sure to contact the above newspaper to authorize publication of your notice of hearing to validate a vested right and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. We must receive Proof of Publication before the application can be considered.

Sincerely,

Eric Gronlund
Eric Gronlund
Natural Resources Engineer
605 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

ATTN: Legal Publications:

Enclosed is a Notice of Hearing to Validate Vested Right Application No. 2000-2 to be published twice. Please publish the notice on or before May 1, 1991, with the second publication 7 days later.

The APPLICANT MUST VERIFY TO YOU THAT THE NOTICE IS TO BE PUBLISHED, before you make the first publication. Please BILL the APPLICANT for the cost of publication. The APPLICANT is Robert O. and Patricia A. Moore, Rt 1 Box 53, Custer, SD 57730.

A copy of BOTH publications must be SENT to the WATER RIGHTS DIVISION. IMMEDIATELY return the FIRST publication with the FIRST Transmittal form on the bottom of this page. The first copy is needed to check the publication for errors so any corrections can be made in the second publication. Publication errors can invalidate the public notice and cause the applicant costly delays.

Please be sure the SECOND publication is returned IMMEDIATELY with the enclosed Proof of Publication form. DO NOT WAIT until the end of the month or the billing cycle. The permit application cannot be considered until proof of publication has been received.

Sincerely,

Eric Gronlund

NOTICE OF HEARING To Validate
Vested Water Right Application No. 2000-2 to Appropriate Water

Notice is given that Robert O. and Patricia A. Moore, Rt 1, Box 53, Custer, SD 57730 has filed an application to validate a vested water right claim to appropriate 0.034 cubic feet of water per second from one well (Precambrian Rock), 90 feet deep, located in the S 1/2 NE 1/4 Section 33-T3S-R4E with a claimed priority date of 1953. Water is used for domestic purposes by mobile homes located at County Camp USA.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends VALIDATION of Vested Water Right Application No. 2000-2 because 1) water has been appropriated as described for domestic use with a priority date of January 1, 1953, 2) the use has been developed without unlawful impairment of existing rights, 3) it is a beneficial use of water, and 4) it is in the public interest. Unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation, the Water Management Board will NOT CONDUCT a HEARING to consider this application and the chief engineer will issue the vested water right application as recommended. Petitions filed in support of the application will NOT require the Board to hear the application.

Any person interested in opposing or supporting this application must file a written petition with BOTH the applicant and Chief Engineer. The applicant must also file a petition if opposed to the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by May 20, 1991. The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

For purposes of publishing 1) the notice of hearing on Application No. 2000-2 and 2) the chief engineer's recommendation, a special Board meeting is scheduled for May 28, 1991, at 9:00 a.m. in Room 413, Joe Foss Building, 523 E Capitol, Pierre, SD. If this application is opposed or the recommendation is contested, the May 28, 1991 hearing date may be rescheduled for another Board meeting. If the hearing is rescheduled, notice of the time and place will be given by First Class Mail to the applicant and persons filing petitions. Anyone not filing a petition, but interested in attending the hearing, may contact the Division of Water Rights to confirm a hearing date and location. The May 28, 1991 hearing date will be automatically delayed for at least 20 days upon written request to the Chief Engineer from the applicant or any interested person opposing the application. The request for an automatic delay must be filed by May 20, 1991.

If a hearing is held, the Chief Engineer's recommendation is not final or binding upon the Board. The Board is authorized to 1) approve the validation, 2) approve the validation with qualifications, 3) defer, or 4) deny validation of the application based on the facts presented at the public hearing. Any hearing will be an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer and may present evidence or cross-examine witnesses according to SDCL 1-26. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. Contact the Water Rights Division to request copies of information pertaining to this application or to assure access to the hearing by the handicapped.

This application is made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-16; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15, 46-2A-18; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30.2, 46-5-30.4, 46-5-31, 46-5-49; 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14, 46-6-26; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15; 74:02:01:19 thru 74:02:01:22.

One questionnaire is being provided for each permitted water source. The following information is based on Water Permit\Right No. 2000-2. If you have other permits\rights in the same water source, also include water use under those permits\rights on this questionnaire.

Water Source: GROUNDWATER
Aquifer: PRECAMBRIAN ROCK
Management Unit: NOT APPLICABLE

County: CUSTER
Pumping Pt. Legal: SEC 33-T003S-R04E
Type of Water Use: COMMERCIAL

- 1) Please estimate your year 2000 water use from the above water source: 800,000 gallons
2) If no water use in 2000, please list the reason(s) why in the comments section.

Larry Mathis
Box 6062
Custer SD 57703

Dear Mr. Mathis:

Thank you for returning the 2000 SD Water Use Questionnaire. The form indicates a change of ownership has occurred. Enclosed is a partially completed "Notice of Transfer" form for use in filing an ownership change on Water Right No. 2000-2. The water right is currently listed in the name of Robert/Patricia Moore.

The transfer form should be checked over for accuracy and **signed by the new owner** in the presence of a notary public. Upon completion, return the form to our office with a required filing fee of \$2.50.

South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a water permit or water right to appropriate water to be filed with this office within ninety days.

If you have any questions, please contact me.

Sincerely,

Karen Schlaak

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
