REPORT ON VESTED RIGHT APPLICATION NO. 2012-2
Baptist Camp Judson
January 12, 1987

Vested Water Right Application No. 2012-2 proposes to validate a vested right claim for the appropriation of 0.044 cubic feet of water per second from one well 82 feet deep located in the NW 1/4 SE 1/4 Section 1, T2S, R5E. A priority date of April 1, 1954 has been claimed for the water use. Water is used as a institutional water supply for Camp Judson.

Conclusions:

1. According to the affidavit of water use, the works were constructed during 1954 and water has been put to beneficial use.
2. A priority date of April 1, 1954 should be assigned since the exact date for start of construction during the spring of 1954 is unknown.
3. The amount of water appropriated seems reasonable for the claimed use.
4. It is recommended that the vested right claim be validated.
