NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

RE: transfer of No. 2042-2

COMMENTS:

I called the county assessor's office regarding the current owner of land covered by Water Right No. 2042-2.

Erma with the assessor's office indicated the land in question in Sections 15 and 14 was owned by John V Miller. The land in the SE ¼, E ½ SW ¼ Section 22 was owned by Weinreis Brothers.

A Notice of Transfer was prepared by our office regarding the portion of land now owned by Weinreis Brothers. It appears that the land located in the SE ¼ Section 22 was inadvertently left off the form and should be included.

The transfer form should be as follows: E ½ SW ¼, SE ¼ Section 22-T11S-R4E.

Also information regarding who the permit was to be transferred to was not completed. It should read: **Weinreis Brothers, PO Box 367, Minatare NE 69356 Phone 308-783-1000.**

Dear Sirs:

Enclosed is Reissued Vested Right License No. 2042-2. Based on transfers of ownership, Vested Right License No. 2042-2 is being divided and reissued to reflect separate ownership as follows:

As long as the water is used beneficially as stated in the Water License No. 2042B-2, South Dakota Water Laws provide that you have a continuing right to the use of the water.

Our records also show Weinreis Brothers as the owner of land covered by Vested Water Right No. 1974-2 which is land located in the E $\frac{1}{2}$ Section 33 and W $\frac{1}{2}$ Section 34; all in T11S-R3E.

SUBJECT: Shutoff Order for Junior Priority Date Water Rights Upstream of
Angostura Dam

Shutoff Order for Water Right Nos. 1019-2, 718-2, 2042B-2

To protect the US Bureau of Reclamation's Water Right No. US579-2 for Angostura Reservoir with a senior priority date of April 11, 1941, the Bureau of Reclamation has asked that we issue shutoff orders for junior water right holders. Effective immediately no diversions of water from the Cheyenne River and tributaries by holders of junior water rights upstream of Angostura Dam will be allowed. On April 30, 2004, the water elevation in Angostura Reservoir was 3179.1 feet, a little over 8 feet below the full elevation of 3187.2 feet. Current storage is at 96,912 acre-feet, about 33,850 acre-feet below full and inflows are only about 38 acre-feet per day.

The Angostura Reservoir storage level will be closely monitored and if the Cheyenne River flows upstream of dam increase such that the reservoir will fill, this shutoff order will be rescinded at that time. If conditions do not improve, this order will remain in effect until December 31, 2004.

I am asking for your cooperation in complying with this shutoff order. If you have any questions, please contact Mark Rath or Don Stroup with the Water Rights Program at (605) 773-3352. Thank you.

Subject: Request for Junior Water Rights Shut Off Order - Angostura Reservoir, South Dakota

Dear Mr. Erbele:

We request that the State of South Dakota's Department of Environment and Natural Resources Water Rights Division issue shut off orders to junior water right holders on the Cheyenne River above Angostura Reservoir.

Angostura Reservoir is presently at elevation 3169.90, which is a little over 17 feet down from full (top of conservation or full is at elevation 3187.2). On February 24, 2005, the storage in Angostura Reservoir is about 60,000 acre-feet, which is 63,000 acre-feet from full. If the spring weather continues to be dry, the water right at Angostura will not be satisfied.

If you have questions, please contact Curt Anderson or me at 605-394-9757.
