

WATER PERMIT NO. 2348-2

Name of Applicant: BCI Inc. - Spokane Creek Resort

Address: PO Box 927, Keystone SD

Phone: 605 6664609

Amount of Water Claimed: 32 gpm (0.07 ^{cfs} gpm)

Total Acres: NA

Source of Water Supply: groundwater

Water to be used for: commercial County: Custer

Type of Waste Disposal System: septic tanks w/drain fields

Location: 15 miles northeast of Custer

PRIORITY Date Received: 10-11-95 Fee: \$50

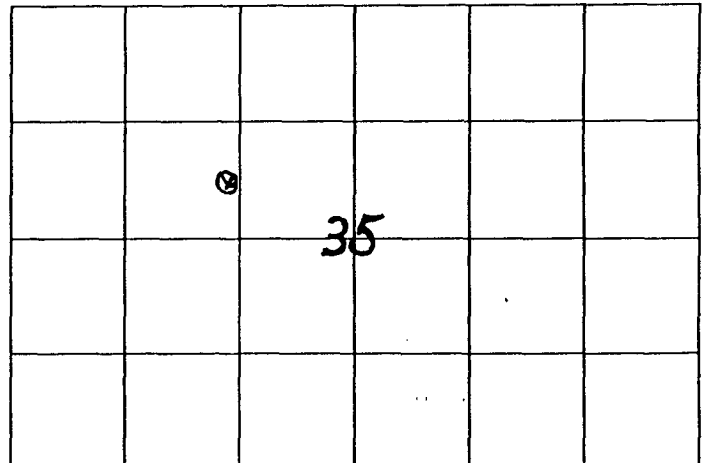

Corrected Application Received: Period of Annual Use: January 1 - December 31

Remarks: For use at the Spokane Creek Resort, RV & tent sites, cabins, shower house, restrooms store, cafe and residence.

Diversion Point: SW 1/4 NW 1/4

Sec 35-T2S-R6E

Land to be Irrigated: NA

Depth of Well: 20 feet

Well Driller: unknown

Remarks: well drilled at least 30 years ago

Type of Map: aerial

Prepared by: DelRon Peters

Reviewed and the Number Assigned on: 10-23-95 By: Karen Schlaak

REPORT ON PERMIT APPLICATION No. 2348-2
BCI Inc. - SPOKANE CREEK RESORT
NOVEMBER 1, 1995

Water Right Application No. 2348-2 proposes to appropriate 32 gallons per minute (0.07 cubic feet of water per second) from one well 20 feet deep located in the SW ¼ NW ¼ Sec. 32, T2S-R6E. The water is for commercial use at the Spokane Creek Resort and facilities.

AQUIFER: Crystalline Rock (CRSL)

GEOLOGY AND AQUIFER CHARACTERISTICS:

A completion report is not available for this well, however, review of the location, reported depth, and areal geology, suggests that this well is supplied by Precambrian aged Crystalline Rock (Darton, 1921). The crystalline rock in this area consists primarily of mica schist and metamorphosed conglomeritic strata that has been intruded with the Harney Peak Granite (DeWitt, 1989). Groundwater is derived from voids in the rock which occur either as small intergranular openings (primary porosity); or bedding planes, joints, and fractures (secondary porosity). The distribution, orientation and interconnection of these zones of secondary porosity and permeability are unpredictable, and the aquifer characteristics are site specific and highly variable. Groundwater occurs under unconfined conditions in the aquifer.

Well Completion Reports for a nearby wells suggest that in places the crystalline rock is mantled with fairly significant thicknesses of alluvium, colluvium, or weathered schist. A well only twenty feet deep such as this one, may not actually penetrate the crystalline rock but could be completed into the alluvium/ colluvium. Since a direct hydrologic connection probably exists between any overlying unconsolidated material and the crystalline rock, it can be considered a single aquifer.

The amount of recoverable water in storage in this aquifer has not been quantified. Considering the number of wells that are supplied from this aquifer, the crystalline rock is obviously a viable aquifer with water available for appropriation. Recharge to the aquifer which is through infiltration of precipitation and from seepage from streams has not been estimated. The Water Rights Program does not monitor any observation wells completed into the crystalline rock in this area. Very little water level information is available. The only observation well completed into the Crystalline rock in the Black Hills is located in Custer approximately 12 miles southwest of this well. The observation well is responsive to climatic conditions, that is the water levels rise during wet years and gradually decline during dry years. The water levels are expected to behave similarly in this area.

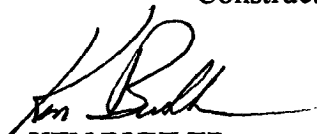

Effects on Existing Water Rights:

A number of domestic wells are completed into the crystalline rock in this area. Water Permit No. 2236-2, Elk Haven, appropriates 0.033 cfs from a spring located in the SE ¼ NW ¼ Section 35, T2S-R6E. It is not likely that this appropriation will have an adverse impact on water rights in the area since the requested diversion rate is relatively low and the distance to existing wells is sufficient to minimize any interference. The well used to supply water for this application has been in use for at least 30 years according to the information provided by the applicant. The Water Rights Program has attempted to obtain applications for this water use since 1981. There has been not controversy reported regarding this water use.

This is a Transient Non-community Public Water System as defined by ARSD 74:04:05. The system has routinely submitted samples for the bacteriological safety and the nitrate concentration of the water since 1986 (Office of Drinking Water, 1995). Barbara Friedeman, DENR, Office of Drinking Water, has advised that 51 water samples were submitted in 1994 and 1995 of which 5 were bacteriologically unsafe at the time of testing.

CONCLUSIONS:

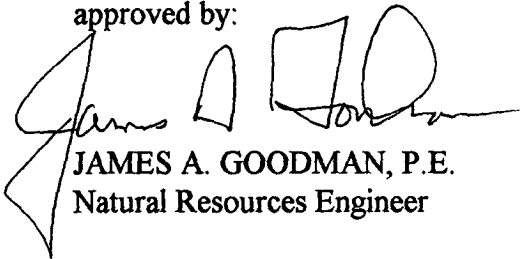

1. The Crystalline Rock is a viable source of groundwater in this area.
2. Recharge to the Crystalline Rock which is through direct infiltration of precipitation and streamflow loss, has not been quantified.
3. There is a reasonable probability that unappropriated groundwater is available from the Crystalline Rock in this area.
4. This proposed appropriation should have no adverse affect on existing water rights/permits due to the small diversion rate requested from the well.
5. A SD Water Well Completion Report is not available for this well and it is not possible to determine if the well was constructed in accordance with the SD Well Construction Standards.

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 2348-2, BCI, Inc. - Spokane Creek Resort

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 2348-2, BCI, Inc. - Spokane Creek Resort, %Clayton Blankenship, P.O. Box 927, Keystone, SD 57751.

The Chief Engineer is recommending APPROVAL of Application No. 2348-2 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion has been developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

See report on application for additional information.

Dear Mr. Blankenship:

Water Permit Application No. 2348-2 for commercial use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Custer County Chronicle printed at Custer, SD (Ph # (605) 673-2217). For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
605 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Custer, SD 57730-0551

ATTENTION: Legal Department

Enclosed is a Notice of Hearing on Application No. 2348-2 to be published twice. Please publish the first notice on November 30, 1995, with the second publication 7 days later.

The APPLICANT MUST VERIFY TO YOU THAT THE NOTICE IS TO BE PUBLISHED, before you make the first publication. Please BILL the APPLICANT for the cost of publication. The APPLICANT is Clayton Blankenship, President, BCI, Inc. - Spokane Creek Resort, P.O. Box 927, Keystone, SD 57751 (Ph # (605) 666-4609).

A copy of BOTH publications must be SENT to the WATER RIGHTS PROGRAM. IMMEDIATELY return the FIRST publication with the FIRST Transmittal form on the bottom of this page. The first copy is needed to check the publication for errors so any corrections can be made in the second publication. Publication errors can invalidate the public notice and cause the applicant costly delays.

Please be sure the SECOND publication is returned IMMEDIATELY with the enclosed Proof of Publication form. DO NOT WAIT until the end of the month or the billing cycle. No action may be taken on the permit application until proof of publication has been received.

Sincerely,

Eric Gronlund
Natural Resources Engineer

NOTICE OF APPLICATION NO. 2348-2 to Appropriate Water

Notice is given that BCI, Inc. - Spokane Creek Resort, P.O. Box 927, Keystone, SD 57751 has filed an application for a water permit to appropriate 0.07 cubic feet of water per second (32 gallons per minute) from one well 20 feet deep (Crystalline Rock) located in the SW 1/4 NW 1/4 Section 35-T2S-R6E. The water is for commercial use at the Spokane Creek Resort and facilities.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 2348-2 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the chief engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and chief engineer. The applicant must file a petition if contesting the chief engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by December 18, 1995.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application. Nettie H. Myers, Secretary, Department of Environment and Natural Resources.

Permit No. 2348-2
Upper Cheyenne - Water District

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, September 19, 1995, made a thorough examination of the water use system owned by Clayton Blankenship (Spokane Creek Resort) holder of Permit No. 2348-2, bearing the priority of October 11, 1995 authorizing the diversion of 0.07 cu. ft. per second of the waters of alluvium for commercial and domestic purposes, in Custer County.

I have to report on the conditions of the same as follows:

- A. Works used to divert the water:
1.5", 1hp Water Ace pump @ 65 psi with a backup 1/2hp Water Ace pump
- B. Works used to transport water to place of use:
Approximately 1500 ft. of 1.5" pvc pipe.
- C. Works used to apply water to beneficial use:
Main office/store, cabins and camping spots.

The system is in the following condition good. The point of diversion is located 1890 feet south and 1300 feet east from the NW corner of Section 35-T2S-R6E in the SW 1/4 NW 1/4 Section 35 T2S-R6E. The works are capable of diverting and conveying to the place of use 0.07 cu. ft. per second of water. Water has been put to beneficial use to the maximum extent as follows:

Water is used for domestic purposes and for the main office/store, cabins and camping areas. The license should be issued for 0.07 cfs.

Applicable permit qualifications have been complied with: Yes

Exceptions to compliance are: none Date Report Completed: October 11, 1995

DelRon Peters
Natural Resources Engineer
DENR, Water Rights Program

STATE OF SOUTH DAKOTA

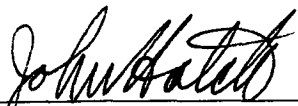

WATER LICENSE NO. 2348-2

(1) BCI, Inc. - Spokane Creek Resort, PO Box 927, Keystone SD 57751-0927 made Application No. 2348-2, October 11, 1995 for a water permit to divert 0.07 cubic feet of water per second from groundwater (one well), Custer County, South Dakota for commercial use purposes. Permit No. 2348-2, with a priority date of October 11, 1995 was approved December 18, 1995 and issued to the applicant for diversion of water with construction of the described water supply system completed and the application to beneficial use of said water completed.

(2) It is certified that the applicant has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 0.07 cubic feet of water per second for beneficial use. The location of the diversion point is 1890 feet south and 1300 feet east from the northwest corner of Section 35-T2S-R6E (SW 1/4 NW 1/4).

(3) The applicant has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use at the resort for domestic purposes and in the main office/store, cabins and camping area.

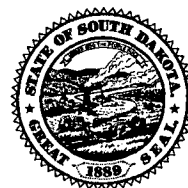

(4) Pursuant to South Dakota Water Law 46-5-30.1 BCI, Inc. - Spokane Creek Resort, PO Box 927, Keystone SD 57751-0927 the holder and/or owner of Water Permit No. 2348-2 is issued a license to appropriate water, the right to use 0.07 cubic feet of water per second from groundwater (one well) with a priority date of October 11, 1995 from the location specified in (2) of this license. The water issued for the purpose of commercial use. This license is subject to any limitations or qualifications listed in Water Permit No. 2348-2 and subject to South Dakota State Law.

Dear Mr. Blankenship:

Enclosed is Water License No. 2348-2. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 414897 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 2348-2, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer

PROGRAM

Mail to: PMB 2020
DENR - Water Rights Program
523 E Capitol Ave
Pierre, SD 57501-3182

Water Right/Permit No. 2348-2Date: 9-10-10

I/We request that Water Right/Permit No. 2348-2 formerly owned by:
Clayton Blankenship, BCI, Inc - Spokane Creek Resort be transferred to:

New Owner Name: Savoy Entertainment Group Inc dba Spokane Creek Cabins
Address: 24631 Iron Mountain Rd + Campground
City, State, Zip Keystone SD 57751 Telephone No. 605-666-4609

Title to the following described land(s)/property has been transferred as described above:

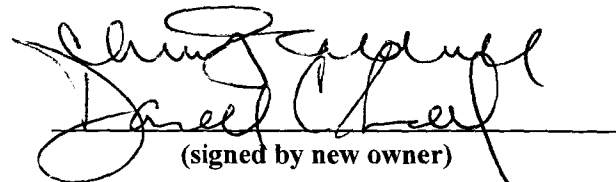

Spokane Creek Cabins + Campground, 24631 Iron Mountain Rd
Keystone SD 57751, located in the SW 1/4 NW 1/4 Section
35-T2S-R6E.

☒ I understand that the validity of Water Right/Permit No. 2348-2 has not been determined by this transfer action. If I have any questions on validity, I understand that only the Water Management Board has the authority to determine if a water right/permit is valid (see note below.)

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is included to cover the filing fee as required by SDCL 46-2-13.

I, Darrell + Christy Caldwell, the new owner, certify that the above information is true and correct.

(signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

RECEIPT

WATER RIGHTS PROGRAM

South Dakota Department of Environment and Natural Resources

Date 9/13, 2010

RECEIVED OF Spokane Creek Cabins & Campground 24631 Iron Mountain Rd Keystone SD 57751

Dear Mr. & Mrs. Caldwell:

I am writing to acknowledge receipt of the "Notice of Transfer of Ownership" form and filing fee you submitted for changing ownership on Water Right No. 2348-2.

The ownership change has been completed. The water right formerly held by BCI Inc is now listed in the name of Savoy Entertainment Group Inc dba Spokane Creek Cabins and Campground.

Enclosed for your records is Receipt No. 04610 in the amount of \$50.00 which you paid for filing the ownership change.

Sincerely,

A handwritten signature in cursive script that reads 'Genny McMath'.

CAMPGROUND RULES

Please forgive us these rules, as we forgive those who make them necessary.

Enjoy your stay, but please read these rules carefully, as violating these rules could result in your being asked to leave.

GENERAL RULES - Please be respectful of the facilities and your fellow campers

- **Facilities are for the use of registered guests only.**
- **Speed limit is 10 mph, we have children at play.**
- **Quiet hours are from 10:30 pm until 7:00 am.**
- No smoking permitted inside ANY building or cabin. Dispose of your butts in appropriate receptacles.
- No glass containers in or around the shower house or pool area.
- Please do not disturb rocks in or around the creek area (NO building of dams allowed).
- We are in the Norbeck Wildlife Preserve. It is illegal to gather firewood or to disturb the terrain. Please enjoy, but respect, the wildlife. Firewood is for sale in the general store.
- Open fires are permitted only in designated fire rings. **FIRE RINGS OR OPEN FIRES ARE NOT PERMITTED IN SITES #32 THROUGH #53** due to the close proximity of the forest service land. Completely extinguish all fires before retiring or leaving your site. Do not leave any fire unattended. Do not burn trash in the fire rings.
- Do not place glass, aluminum, plastic, or trash of any kind in the fire rings.
- No fireworks of any type are allowed.
- To help us conserve water, washing of vehicles and RV's is prohibited.
- Help us keep the campground clean.
- Please do not flush anything except toilet paper into our septic tanks.
- Mini-golf – it's mini-golf not a driving range. Please help us take care of it.

PETS - Owners are responsible for their pets at all times

- All pets must be kept on a leash and under the owner's control.
- Pets may not be left unattended in cabins or in the campground.
- Pets are not permitted in the store, swimming pool area or shower house.
- Owners **MUST** clean up after their pet. Plastic poopie bags are available in the store.
- Owners are responsible for any damages to campground or cabins caused by their pet.

SWIMMING POOL - No lifeguard on duty, swim at your own risk

- An adult (age 18 or over) must accompany children under the age of 14 and be present at all times.
- No diving allowed!
- No glass containers in the pool area.
- No horseplay, running or rocks allowed in or around the pool.
- Pool is open when the gate is unlocked – Do not climb the fence.

CABINS - Check out time is 10:00 am

- Before checking out, all cookware should be cleaned and all trash placed in dumpsters.
- Cabin towels are not to be used at the swimming pool – pool towels are available for sale in the store.
- No smoking allowed – a \$250.00 fee will be charged if violated.
- Limit 2 pets per cabin – additional fees apply for each pet.
- Any damages and/or missing items are the responsibility of the guests and will be charged to your credit card.

TENT AND RV SITES - Check out time is 11:00 am

- Generators are not to be run in the campground.
- All gray water must be disposed of in the dump station, not on the ground (State Law).
- Septic line hookups must have elbows with end fittings, NO hoses without fittings into the line. Elbows with end fittings are for sale in the store.

WE HOPE YOU HAVE A WONDERFUL STAY.

Please think Green – help us conserve energy, water & protect our beautiful surrounding!

Thank You! - Darrell & Christy Caldwell

June 20, 2013

Darrell Caldwell
Savoy Entertainment Group Inc
24631 Iron Mountain Road
Keystone SD 57751

Mr. Caldwell:

Water Right No. 2348-2 appropriates 0.07 cubic feet of water per second (cfs) from one well completed into the Crystalline Rock (20 feet deep) located in the SW ¼ NW ¼ Section 35, T2S, R6E for commercial use at Spokane Creek Cabins and Campground.

You requested authorization to complete an additional well located about 50 – 100 feet south of the existing well in the SW ¼ NW ¼ Section 35, T2S, R6E. The basis for the request to drill an additional well is for a back-up source in the event the existing well is out of service.

Upon review of the request and pursuant to SDCL 46-5-13.1, the additional well is authorized without application or publication of a notice of hearing pursuant to SDCL 46-2A-4. No increase in the authorized diversion rate of 0.07 cfs (32 gpm) from the Crystalline Rock is authorized. If the total diversion rate increases above 0.07 cfs, a new water right permit will need to be obtained.

If you have any questions, please contact Eric Gronlund at (605) 773-3352.

Sincerely,

Jeanne Goodman, Chief Engineer
Water Rights Program

Approval of Additional Diversion Point

NAME: Water Right No. 2348-2, Savoy Entertainment Group Inc

ADDRESS: 24631 Iron Mountain Road, Keystone SD 57751

DATE: June 19, 2013 **COUNTY:** Custer **TELEPHONE:**

BACKGROUND:

Water Right No. 2348-2 appropriates 0.07 cubic feet of water per second (cfs) from one well completed into the Crystalline Rock (20 feet deep) located in the SW ¼ NW ¼ Section 35, T2S, R6E for commercial use at Spokane Creek Cabins and Campground.

Mr. Darrell Caldwell on behalf of the Savoy Entertainment Group filed a request for second well to be used for backup purposes. The current well almost went dry last year and he wants to drill a 30 foot well 50 – 100 feet south of the current well.

AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased.

Developed water source same as permitted source and no additional water appropriated

The water source authorized by Water Right No. 2348-2 is Crystalline Rock. The proposed well is to be 30 feet deep. The report prepared on the original application in November 1995 indicates that the existing well may not actually penetrate the crystalline rock but could be completed into the alluvium / colluvium. However since a direct hydrological connection probably exists between overlying unconsolidated material and the crystalline rock, it can be considered a single aquifer. Therefore, the water source of a 30 foot well at this location remains Crystalline Rock.

No additional appropriation of water is requested. The water right is limited to a diversion rate of 0.07 cfs which equates to 32 gallons per minute. The request is clear that the additional well is intended to a back-up well for use if the current well is out of service.

Review of Existing Diversions

The well completion report and water rights databases were reviewed for the nearest domestic wells and water rights on file.

There are a number of domestic wells completed in the Crystalline Rock in the area. There are five domestic wells from Crystalline Rock as listed on the well completion report database on file in this section. Aquifer characteristics are site specific and highly variable due to the fact that groundwater is derived from voids in the rock which occur as small openings, or planes, joints or fractures. It is not likely that diversion from this back-up well would increase the potential for impairment to area wells. In addition, the water right has the standard condition that the well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

There is only one other water right within a mile radius of this water right. The neighboring well supplies water for commercial use at Elk Haven. The Elk Haven well is located about 950 feet north east of Spokane Creek's proposed additional well. The Elk Haven water right was originally for a spring box diversion but a change of diversion point to a 120 foot well was granted in 2002. The completion report for Elk Haven's well indicates it was drilled in July of 2000. These diversions have been in place in their current configuration for 13 years without controversy. This additional well will be 50 – 100 feet farther away from Elk Haven's well than Spokane Creek's existing well.

See map for location of existing domestic and permitted wells.

The only observation well completed in the Crystalline Rock is located at Custer approximately 12 miles southwest of this well. Water levels in the observation well show the Crystalline Rock is responsive to climatic conditions.

CONCLUSION

- The additional well does not seek to appropriate additional water.
- The well will be completed into the Crystalline Rock.
- Given the distance from domestic and existing water rights, interference is not expected to be a concern.
- The authorization of the additional well shall include that the total diversion rate shall not exceed 0.07 cfs.

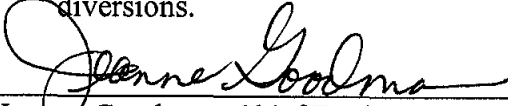

RECOMMENDED ACTION

Based on the above criteria, it is recommended that the additional diversion point location be authorized under Water Permit No. 2348-2.

Eric Gronlund
Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

The additional diversion point does not increase the potential for adverse effects to existing diversions.

Jeanne Goodman, Chief Engineer
Water Rights Program

SOUTH DAKOTA
WATER PERMIT NO. 2348-2

Date of first receipt of application October 11, 1995.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 2348-2 to BCI Inc. - Spokane Creek Resort, PO Box 927, Keystone SD 57751 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 2348-2 appropriates 0.07 cubic feet of water per second (32 gallons per minute) from one well 20 feet deep (Crystalline Rock) located in the SW 1/4 NW 1/4 Section 35-T2S-R6E.
2. The water appropriated shall be used for the purpose of supplying water at the Spokane Creek Resort and facilities and may not exceed the amount of water needed for beneficial use for commercial purposes.
3. The water is to be used during the following described annual period: January 1 - December 31.
4. The date of approval of Permit No. 2348-2 is December 18, 1995.
5. The date from which applicant may claim right is October 11, 1995.
6. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

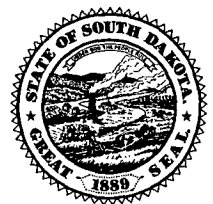

QUALIFICATION

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
