

WATER PERMIT NO. 2382-2

Name of Applicant: Edward Hill

Address: PO Box 24, Kilgore NE 69216

Phone: 402 966-2104

Amount of Water Claimed: 2.28 Total Acres: 160

Source of Water Supply: groundwater (one well)

Water to be used for: irrigation County: Todd

Type of Waste Disposal System: NA

Location: 15 miles south of Mission

PRIORITY Date Received: 3-17-97

Fee: \$250

Corrected Application Received:

Period of Annual Use: April 1 - October 31

Remarks:

Diversion Point: SW 1/4 NE 1/4

Sec 11-T36N-R29W

Land to be Irrigated: NE 1/4

Section 11-T36N-R29W

Depth of Well: 240 feet

Well Driller:

Remarks: well not driller yet

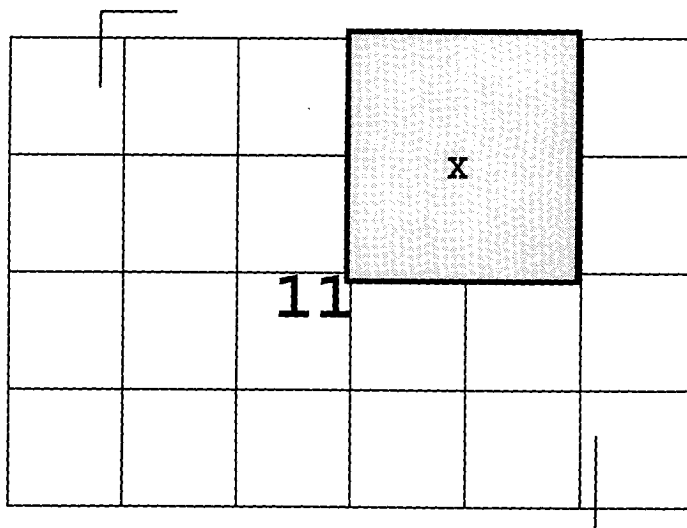

Type of Map: aerial

Notice of Hearing - date to intervene: _____

SOUTH DAKOTA
WATER PERMIT NO. 2382-2

Date of first receipt of application March 17, 1997.

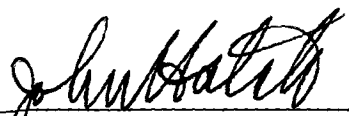

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 2382-2 to Edward Hill, PO Box 24, Kilgore NE 69216 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 2382-2 appropriates 2.28 cubic feet of water per second from one well (Ogallala Formation) 240 feet deep located in the SW 1/4 NE 1/4 Section 11 to irrigate 160 acres located in the NE 1/4 Section 11; all in T36N-R29W.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: April 1- October 31.
3. The date from which applicant may claim right is March 17, 1997.
4. The date of approval of Permit No. 2382-2 is May 12, 1997.
5. One-fifth of the construction is to be completed on or before November 12, 1999.
6. All construction is to be completed on or before May 12, 2002.
7. Water is to be put to beneficial use on or before May 12, 2006.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 2382-2 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This permit is approved subject to the irrigation water use questionnaire being submitted each year.

WATER PERMIT APPLICATIONS NO. 2381-2 & NO. 2382-2

EDWARD HILL

APRIL 3, 1997

Water Permit Application No. 2381-2 proposes to appropriate 2.28 cubic feet of water per second from one well (Ogallala Formation) 240 feet deep located in the SW¼ NE Section 10 to irrigate 160 acres located in the NE¼ Section 10; all in T36N-R29W.

Water Permit Application No. 2382-2 proposes to appropriate 2.28 cubic feet of water per second from one well (Ogallala Formation) 240 feet deep located in the SW¼ NE Section 11 to irrigate 160 acres located in the NE¼ Section 11; all in T36N-R29W.

AQUIFER: Ogallala (OGLL)

GENERAL:

The High Plains Aquifer consists of the upper sandstone units of the Arikaree Formation, the Ogallala Formation, and the Sand Hills Formation, and any terrace or alluvial deposits, all of which are hydraulically connected (Kolm, 1983). The High Plains Aquifer underlies 4,750 square miles of South Dakota and contains an estimated 700 million acre feet of water in the state (Gutentag, 1984). The Ogallala Formation, which consists of clays, silts, sands and surface gravel deposits makes up a major part of the High Plains Aquifer. The Ogallala Formation underlies approximately 412,800 acres of Todd County and contains an estimated 12,384,000 acre-feet of recoverable water in storage in the county (Allen, 1984). The saturated thickness of the aquifer is estimated to be 200-400 feet in this area. (Kolm, 1983). The aquifer is under unconfined conditions with the water table controlled locally by topography. Precipitation is the principal source of recharge to the aquifer. The annual recharge rate has been estimated to be 8 percent of the precipitation rate, or about 1.3 in./yr to 1.8 in./yr (Kolm, 1983). Natural discharge occurs to streams and springs, and directly to the atmosphere by evapotranspiration.

WATER AVAILABILITY:

Water Rights Program monitors 84 observation wells completed into the Ogallala Formation, of which 22 are located in Todd County. Water Rights' Observation Wells TD-76F and TD-76G are located within two miles of the wells proposed by these applications. These observation wells are read monthly and show only slight fluctuations due to existing pumping and changes in climatic conditions (Water Rights, 1997).

There are 140 permits/rights which appropriate water from the Ogallala aquifer in South Dakota. There are 49 permits/rights from the Ogallala in Todd County. Irrigation is the major water use from the aquifer. Reported pumpage from the Ogallala for irrigation use can be seen in figure 1.

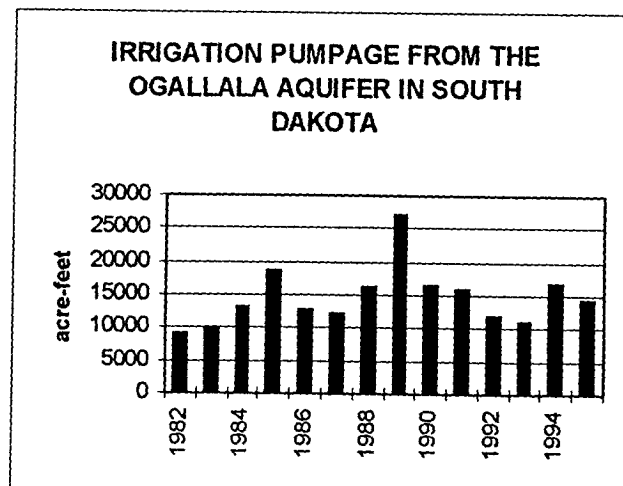

figure 1

AFFECTS ON EXISTING RIGHTS:

Since the Ogallala Aquifer is under unconfined conditions, drawdown from pumping an individual well is not expected be significant very far from the well. There are four irrigation permits/rights within one mile of the well sites proposed by these applications. They include:

PERMIT No.	OWNER
1289-2	Irvin Jackson
1763-2	Robert Hill
1720-2	Robert Hill
1681-2	Gunnink Farm Inc.

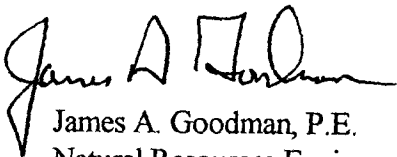

CONCLUSIONS:

1. The Ogallala Aquifer is a viable aquifer in this area, and water is available for these appropriations.
2. Well interference should not be a problem in this area.

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 2382-2, Edward Hill**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 2382-2, Edward Hill, PO Box 24, Kilgore, NE 69216.

The Chief Engineer is recommending APPROVAL of Application No. 2382-2 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 2382-2 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This permit is approved subject to the irrigation water use questionnaire being submitted each year.

See report on application for additional information.

Kilgore, NE 69216

Dear Mr. Hill:

Water Permit Application Nos. 2381-2 and 2382-2 for irrigation use have been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Todd Co. Tribune printed at Mission, SD (Ph # (605) 856-4469). For your information, a copy of the notice, the recommendations of the Chief Engineer and a report on the applications are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the applications.

Sincerely,

Eric Gronlund
Natural Resources Engineer
605 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendations, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the applications.

ATTENTION: Legal Department

Enclosed is a Notice of Hearing on Application Nos. 2381-2 and 2382-2 to be published twice. Please publish the first notice on April 23, 1997, with the second publication 7 days later.

The APPLICANT MUST VERIFY TO YOU THAT THE NOTICE IS TO BE PUBLISHED, before you make the first publication. Please BILL the APPLICANT for the cost of publication. The APPLICANT is Edward Hill, P.O. Box 24, Kilgore, NE 69216 (Ph # (402) 966-2104).

A copy of BOTH publications must be SENT to the WATER RIGHTS PROGRAM. IMMEDIATELY return the FIRST publication with the FIRST Transmittal form on the bottom of this page. The first copy is needed to check the publication for errors so any corrections can be made in the second publication. Publication errors can invalidate the public notice and cause the applicant costly delays.

Please be sure the SECOND publication is returned IMMEDIATELY with the enclosed Proof of Publication form. DO NOT WAIT until the end of the month or the billing cycle. No action may be taken on the permit applications until proof of publication has been received.

Sincerely,

Eric Gronlund
Natural Resources Engineer

Nos. 2381-2 + 2382-2

Date _____

We are in receipt of your letter of _____ enclosing Notice of Hearing to Appropriate Water by Application Nos. 2381-2 + 2382-2 which was first published in our issue of _____. ENCLOSED IS A COPY OF THIS FIRST PUBLICATION.

Name

Newspaper

Instruction to Newspaper - Publish first Notice on April 23, 1997, with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NOS. 2381-2 and 2382-2 to Appropriate Water

Notice is given that Edward Hill, PO Box 24, Kilgore NE 69216 has filed two applications for water permits.

Application No. 2381-2 is appropriate 2.28 cubic feet of water per second (cfs) from one well (Ogallala Formation) 240 feet deep located in the SW 1/4 NE 1/4 Section 10 to irrigate 160 acres located in the NE 1/4 Section 10; all in T36N-R29W.

Application No. 2382-2 is to appropriate 2.28 cfs from one well (Ogallala Formation) 240 feet deep located in the SW 1/4 NE 1/4 Section 11 to irrigate 160 acres located in the NE 1/4 Section 11; all in T36N-R29W.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application Nos. 2381-2 and 2382-2 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the chief engineer will act on the applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the chief engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the applications. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and chief engineer. The applicant must file a petition if contesting the chief engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by May 12, 1997.

The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to these applications. Nettie H. Myers, Secretary, Department of Environment and Natural Resources.

Edward Hill
P.O. Box 24
Kilgore, NE 69216

Dear Mr. Hill:

Enclosed are Water Permit Nos. 2381-2 and 2382-2 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permits.

Also enclosed are two Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water Licenses may be issued, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Program
605 773-3352

enclosures

PLEASE NOTE: Certain changes may be made to your water permits usually without affecting the priority date. The location of a point of diversion may be changed or additional points of diversion may be approved if the water source remains unchanged; no additional water is appropriated; and, if irrigating, no additional land is irrigated. The change may be allowed without application or publication, if the Water Rights Program is contacted and the chief engineer makes a finding that the change does not increase the potential for interference with existing diversions.

A new water permit application is required to change water sources, increase the permitted diversion rate, or increase the irrigated acreage. If the application is approved, the water permit will receive a new priority date.

2382-2

Edward Hill
PO Box 24
Kilgore, NE 69216

Dear Mr. Hill:

On November 14, 2001, the investigation of your water use systems, including the extent of application of water to beneficial use, as developed under Water Permit Nos. 2381-2 and 2382-2, were completed by Tim Schaal, a staff engineer with our program. Your final water right document, the water license, can now be issued for each water permit.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$100.00 fee (\$50.00 each) from you, we will complete processing your water licenses. The check or money order for the fee should be made payable to the "Water Rights Program".

Your licensed water rights will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permits, investigation of your water use systems or payment of the fees, please contact me.

Sincerely,

Genny McMath
Environmental Scientist

RELATIONSHIP TO PERMIT HOLDER, IF APPLICABLE: owner

NAME & ADDRESS OF PERMIT HOLDER: Edward Hill, PO Box 24, Kilgore, NE 69216

DIVERSION POINT LEGAL LOCATION: 1300 ft. south & 1350 ft. west of the NE corner of Section 11-T36N-R29W (NW 1/4 NE 1/4).

WELL INFORMATION:

1) Well Drilling Firm: Grosch Irrigation Co.

2) No. of Wells 1

3) Depth(s) 260 feet

4) Well log is available yes

Casing:

1) Diameter 16 inches

2) Length 85 feet

3) Type PVC

Screen:

1) Type slotted PVC

2) Length 95 feet

3) Static water level 76 feet

Pump:

1) Make Western Land Roller

2) Model KB7474

3) Size 6 inch

4) Capacity 700 gpm

Motor:

1) Make US Electric

2) Model No. P-1998-01-169

3) Horsepower rating 75 hp

SYSTEM TYPE:

Center pivot:

- 1) Make Valley
- 2) Overall length 1320 feet
- 3) Number of towers 8
- 4) Distance between towers XXX feet
- 5) End gun yes
- 6) High or low pressure low
- 7) Capacity 700 GPM

CHEMIGATION EQUIPMENT:

- 1) Does chemigate yes
- 2) Main line check valve yes
- 3) Inspection port/air relief yes
- 4) Low pressure drain yes
- 5) Discharge is 20 ft. from source yes
- 6) Interlock type electric
- 7) Injection pump type piston
- 8) Injection check valve yes
- 9) Injection line check valve or positive displacement pump pos. displacement pump
- 10) All chemigation equipment appears to be installed in the proper position and complies with chemigation laws and rules yes

PERMIT QUALIFICATIONS AND REGULATIONS:

- 1) Soil and water permit lands agree with lands being irrigated and lands listed on permit N/A
- 2) Special qualifications to permit being abided by yes
- 3) All structures, wells and lands on map yes
- 4) Irrigation Questionnaires checked to determine if permit owner started irrigation by the end of construction period yes

Permit No. 2382-2
Niobrara Trib. - Water District

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, November 14, 2001, made a thorough examination of the water use system constructed by Edward Hill of PO Box 24, Kilgore, NE 69216 holder of Permit No. 2382-2, bearing the priority of March 17, 1997 authorizing the diversion of 2.28 cu. ft. per second of the waters of groundwater for irrigation purposes, in Todd County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

Western Land Roller 6 inch turbine pump, Serial No. KB7474 with a 75 Hp US Electric motor, Serial No. P-1998-01-169, capacity 700 gpm

B. Works used to transport water to place of use:

Pipeline

C. Works used to apply water to beneficial use:

8 tower Valley Center Pivot

The system is in the following condition Good. The point of diversion is located 1300 ft. south & 1350 ft. west of the NE corner of Sec. 11-T36N-R29W (NW 1/4 NE 1/4). The works are capable of diverting and conveying to the place of use 1.56 (700 gpm) cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

NE 1/4 NE 1/4	Sec. 11-T36N-R29W--	33 Ac.
NW 1/4 NE 1/4	" "	-- 33 Ac.
SW 1/4 NE 1/4	" "	-- 33 Ac.
SE 1/4 NE 1/4	" "	-- 33 Ac.

comprising a total of 132 acres of land and the license should be issued for 1.56 (700 gpm) cfs.

Applicable permit qualifications have been complied with: Yes X

Exceptions to compliance are: none Date Report Completed: November 29, 2001

DENR, Water Rights Program

Approval of Location Change and/or Additional Diversion Point(s)

NAME: Edward Hill

ADDRESS: PO Box 24, Kilgore, NE 69216

DATE: November 29, 2001 COUNTY: Todd TELEPHONE: (402) 966-2104

AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased:

- **Developed water source same as permitted source and no additional water appropriated**

Water Permit Application No. 2382-2 described the diversion point located in the SW 1/4 NE 1/4 of Sec. 11-T36N-R29W and the well was developed in the NW 1/4 NE 1/4 of Sec. 11-T36N-R29W only a few feet from the center of the NE 1/4.

- **If irrigation, no new land is irrigated**

yes

- **Review of Existing Diversions**

yes

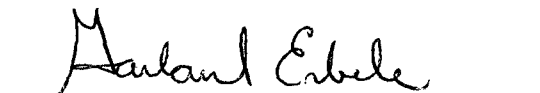

RECOMMENDED ACTION

Based on the above criteria, it is recommended that the diversion point(s) be licensed as developed.

Timothy G. Schaal, P.E.
Natural Resources Engineer Specialist
Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

This change in location and/or additional diversion point(s) does not increase the potential for adverse effects to existing diversions.

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 2382-2

(1) Edward Hill, PO Box 24, Kilgore, NE 69216-0024 made Application No. 2382-2, March 17, 1997 for a water permit to divert 2.28 cubic feet of water per second from ground water (one well), Todd County, South Dakota for irrigation purposes. Permit No. 2382-2, with a priority date of March 17, 1997 was approved May 12, 1997 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before May 12, 2002 and for the application to beneficial use of said water on or before May 12, 2006.

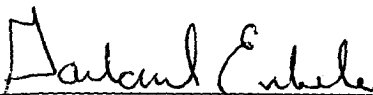

The investigation of the water use system found the location of the well authorized by Water Permit No. 2382-2 was not in the permitted or advertised area. Pursuant to SDCL 46-5-13.1, the Chief Engineer makes a finding that the change in location of the diversion point does not increase the potential for adverse effects to existing diversions.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.56 cubic feet of water per second for beneficial use. The location of the diversion point is 1,300'S and 1,350'W of the NE corner of Section 11, T36N, R29W (NW ¼ NE ¼).

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 11, T36N, R29W	
NE ¼ NE ¼	33 acres
NW ¼ NE ¼	33 acres
SW ¼ NE ¼	33 acres
SE ¼ NE ¼	33 acres
Total 132 acres	

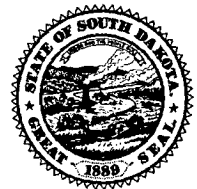

(4) Pursuant to South Dakota Water Law 46-5-30.1 Edward Hill, PO Box 24, Kilgore, NE 69216-0024 the holder and/or owner of Water Right No. 2382-2 is issued a license to appropriate water, the right to use 1.56 cubic feet of water per second from ground water (one well) with a priority date of March 17, 1997 from the location specified in (2) of this license. The water is to be conducted to and upon lands specified in (3) of this license for the purpose of irrigation. This license is subject to any limitations or qualifications listed in Water Right No. 2382-2 and subject to South Dakota State Law.

Edward Hill
PO Box 24
Kilgore, NE 69216-0024

Dear Mr. Hill:

Enclosed are Water License Nos. 2381-2 and 2382-2. This is the final water right document completing your process of obtaining a Water Right. Enclosed are Receipt Nos. 417041 and 417042 each in the amount of \$50.00 which you paid for the investigation and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the wells authorized by Water Right Nos. 2381-2 and 2382-2, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program
