

WATER PERMIT NO. 2431-2

Name of Applicant: City of Hot Springs

Address: 303 N River Rd, Hot Springs SD 57747

Phone: 605 745-3135

Amount of Water Claimed: no additional

Total Acres: NA

Source of Water Supply: groundwater

Water to be used for: municipal use

County: Fall River

Type of Waste Disposal System:

Location:

PRIORITY

Date Received: 11-17-1999

Fee: \$150.00

Corrected Application Received:

Period of Annual Use: January 1 – December 31

Remarks: To add Fall River Rural Water System and Valley View Addition connections to the City of Hot Springs

Diversion Point: SE ¼ NE ¼ Sec 14 and
SW ¼ SE ¼ Sec 10; all in T7S-R5E

Land to be Irrigated: NA

Depth of Well: 24 & 80 feet deep

Well Driller:

Remarks:

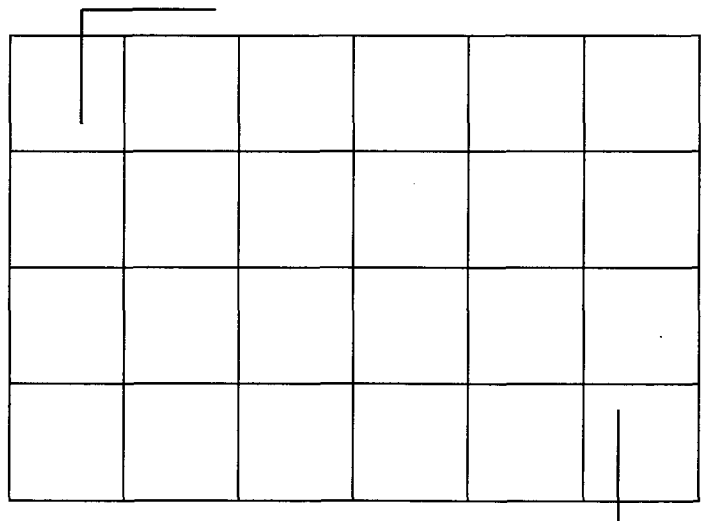

Type of Map: existing map

**SOUTH DAKOTA
WATER PERMIT NO. 2431-2**

Date of first receipt of application November 17, 1999.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 2431-2 to the City of Hot Springs, 303 N River Rd, Hot Springs SD 57747 authorizing connection of separate water distribution systems to the municipal water supply system as required by ARSD 74:02:01:03.01

1. Water Permit No. 2431-2 authorizes connection of the Fall River Rural Water System and Valley View Addition to the City of Hot Springs municipal water supply system. Hot Springs holds Water Right No. 511-2 appropriating 3.77 cubic feet of water per second (cfs) from four wells and Water Right No. 1878-2 appropriating 4.83 cfs from two collection galleries located in the SW ¼ SE ¼ Section 10 and SE ¼ NE ¼ Section 14; all in T7S-R5E.
2. The water appropriated shall be used for the purpose of supplying water to the Fall River Rural Water System and Valley View Addition and may not exceed the amount of water needed for beneficial use.
3. The water is to be used during the following described annual period: January 1 – December 31.
4. The date of approval of Permit No. 2431-2 is January 14, 2000.
5. The date from which applicant may claim right is November 17, 1999.
6. One-fifth of the construction is to be completed on or before July 14, 2002.
7. All construction is to be completed on or before January 14, 2005.
8. Water is to be put to beneficial use on or before January 14, 2009.
9. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

John P. Scheltens, City Engineer
City of Hot Springs
303 North River Road
Hot Springs SD 57747

Dear Mr. Scheltens:

Over the past few months I have had a number of telephone conversations with Leonard Benson regarding water right permitting issues for the proposed Fall River Rural Water System. During our last few conversations we discussed permitting requirements for the City of Hot Springs to serve the rural water system. I thought now would be a good time to contact you regarding possible water right permitting for the City of Hot Springs to serve the rural water system.

It is my understanding that Hot Springs may serve as a bulk supplier to the rural water system. Administrative Rules of South Dakota requires a new water right permit be obtained by a water distribution system that connects a separate water distribution system, located within or outside the system area. I believe a water right permit is necessary for Hot Springs to connect a separate water distribution system even if the city does not intend to divert at a rate greater than its permitted diversion rate. Attached is a copy of Board Rule ARSD 74:02:01:03:01.

Certainly, if the city increases its peak diversion rate above the quantities authorized by their existing water rights, a new water right permit will also be necessary for any additional appropriation of water. The city holds a future use permit which reserves water for future development. However, the city will need to obtain a water right permit to construct and place to use water that has been reserved under the future use permit. Attached is a table showing (in highlights) the city's three water rights.

Please feel free to contact if you have any questions on potential water right permitting issues involved in the City of Hot Springs serving water to the Fall River Rural Water System.

Sincerely,

Eric Gronlund

Dear Mr. Scheltens:

Enclosed is a partially completed water right permit application for amending Hot Springs existing water rights to connect separate water distribution systems. I have also enclosed a blank form in case you have substantial changes.

The following additional items are needed to complete the application.

- ◆ Sign the application and have notarized
- ◆ Submit \$100 for application filing fee and licensing fee
- ◆ Complete on Item No. 7 of the application the other separate water distribution system that is connected to Hot Springs' system
- ◆ Are any of the citizens will be served by the Fall River rural water system located outside of Fall River County? If so, what county?

Please do not hesitate to contact me if you have any questions.

Sincerely,

Eric Gronlund

Ref: Water Right Permit No. 511-2, 1878-2

Dear Eric:

Enclosed is the application to amend our water rights permit so that we can provide water service to the Fall River Water Users District. You ask the question if any one will be served outside of Fall River County? I'm not entirely sure. I know the boundary of the District is within Fall River County, however I believe that some of their members own ranches that cross county and maybe even state lines. Leonard Benson should be able to answer your question more definitively.

The Valley View Addition is adjacent to the City Limits along the southeast boundary. This small subdivision has been connected to city water for a very long time; I believe since the early to mid seventies. We supply the subdivision through a bulk meter at the City Limits. They run their own homeowners association to collect payment and manage their system. They serve about 15-20 households.

No additional water is being requested at this time for supplying either user. Our current water demand will be able to handle their needs for the near future.

Sincerely:

John P. Scheltens
City Engineer

WATER PERMIT APPLICATION NO. 2431-2
CITY OF HOT SPRINGS
DECEMBER 15, 1999

Water Permit Application 2431-2 requests authorization to connect The Fall River Rural Water System and the Valley View Addition to the City of Hot Springs municipal water supply system. Pursuant to ARSD 74:02:01:03.01, a new water permit is required to connect these systems to the Hot Springs' water distribution system. The City of Hot Springs currently holds Water Right No. 511-2 which authorizes 3.77 cubic feet of water per second (cfs) from four wells, and Water Right No. 1787-2 which authorizes 4.83 cfs from two collection galleries located in the SW¼ SE¼ Section 10, and the SE¼ NE¼ Section 14; all in T7S-R5E.

Information provided with Water Permit No. 2418-2, Fall River Water User District, projects an annual demand for the rural water system (including the Town of Oelrichs), of approximately 220 ac-ft/yr. The Water User District provided information with their Permit Application that the future peak daily water use of the system requires a water supply capable of furnishing 212 gpm (0.47 cfs).

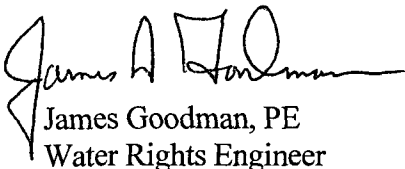

The City of Hot Springs has supplied the Valley View Addition for approximately 25 years (John Scheltens, City of Hot Springs, telephone communication, December 1999), without a Water Permit. The 15-20 homes in the Addition only use approximately 6 ac-ft/yr (John Scheltens, City of Hot Springs, telephone communication December 1999).

Approval of this permit will result in the city of Hot Springs diverting more water. However, because of the structure of the City's Water Rights, (e.g. the Water Rights are quantified only by diversion rate), this additional water can be supplied under existing authorized diversion rates. Since this application does not change the City's authorized diversion rate, and the increase in the amount increase in the amount of water diverted will be small, approval of this permit will not increase the potential for adverse impacts to existing water rights and does not affect water availability.

Ken Buhler
Water Rights Engineer

James Goodman, PE
Water Rights Engineer

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 2431-2, City of Hot Springs**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 2431-2, City of Hot Springs, c/o John Scheltens, City Engineer, 303 N. River Road, Hot Springs SD 57747..

The Chief Engineer is recommending APPROVAL of Application No. 2431-2 because 1) the proposed connection of two separate water distribution systems will not unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest.

See report on application for additional information.

Dear Mr. Scheltens:

Water Permit Application No. 2431-2 for municipal use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Hot Springs Star printed at Hot Springs, SD (Ph # (605) 745-4170). For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer

NOTICE OF APPLICATION NO. 2431-2 to Appropriate Water
and to Amend Water Right Nos. 511-2 and 1878-2

Notice is given that the City of Hot Springs, 303 N River Rd, Hot Springs SD 57747 has filed an application for a water permit to connect separate water distribution systems to the municipal water supply system as required by ARSD 74:02:01:03.01. Hot Springs holds Water Right No. 511-2 appropriating 3.77 cubic feet of water per second (cfs) from four wells and Water Right No. (1787-2) appropriating 4.83 cfs from two collection galleries located in the SW ¼ SE ¼ Section 10 and SE ¼ NE ¼ Section 14; all in T7S-R5E. This application requests authorization to connect the Fall River Rural Water System and Valley View Addition to the City of Hot Springs municipal water supply system.

1878-2

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 2431-2 because 1) existing rights will not be unlawfully impaired, 2) it is a beneficial use of water, and 3) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the Chief Engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by January 14, 2000.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application. Nettie H. Dec. 28, Jan. 4

Permit No. 2431-2
Upper Cheyenne River - Water District

Report of Examination of Works and/or Application of Water to Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, **September 28, 2010**, made a thorough examination of the water use system constructed by **City of Hot Springs** of **303 N River Rd, Hot Springs, SD 57747** holder of Permit No. **2431-2**, bearing the priority of **November 17, 1999** authorizing the **connection of Fall River Rural Water System and Valley View Addition to the City of Hot Springs' municipal water system.**

Inspection contact & relationship **Tracey Bastin, City Engineer**
to permit holder, if applicable:

A. Works used to divert the water:

Water is supplied from the City of Hot Springs' distribution system. Source of water to the distribution system is authorized by Water Right Nos. 511-2 and 1878-2

B. Works used to transport water to place of use:

Fall River Water User District (FRWUD) distribution system.

C. Works used to apply water to beneficial use:

Fall River Water User District (FRWUD) distribution system.

D. Compliance with Permit Requirements:

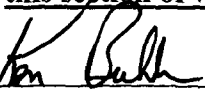

Permit qualifications being abided by? **Yes**

The system is in **good** condition with the point where FRWUD connects to the City of Hot Springs Distribution system located as follows: **425 feet north and 375 feet east of the SW corner of Section 19, T7S-R6E, (SW¼SW¼SW¼NE¼ Section 19, T7S-R6E) (Latitude: 43.42034821, Longitude: -103.46003515)gal description (feet from section corner).** Water has been put to beneficial use to the maximum extent as follows: **Water service to Fall River Water User District's users, including the Valley View addition.**

The license should be issued to authorize this connection.

All structures, wells and lands on map? **Yes**

Comments or other permit(s) associated with the project: **There is a short section (less than 100 yards) of 8-inch diameter water line between the tee where FRWUD is connected to the City's distribution system and the FRWUD meter box. In the past there has been some dispute as to which system owns or is responsible for this section of water line and apparently it still is not clear.**
