Dear Sir, I am regarding my Permit No 25 for the use of water for irrigation and domestic use out of North Creek Creek, and Dry Run Reservoirs. The work is now completed on same. And would like some information on some September 24th 1909 you sent me blank No. 17 or form (Notice of Completion of work).

Form No. 18. (Notice of Application of water to Beneficial use).

Form No. 23. (Certificate of Examination of work).

Form No. 24. (Certificate of Application of Water to Beneficial use).

Are these blanks to be filled out by some Engineer or not, and if so have you any one in this part of the country that can do this work for me, or is Mr. Robert Wallace capable of doing it if I would get him.

Yours truly,
Eddie Barker.

Mr. Samuel H. Lea, State Engineer,
Pierre, South Dakota,

Dear Sir; I am writing you to-day in regard to my
Application on water right No. 25, Water Division
No. 2 So. Cheyenne Water District.

North Duck Creek Extension, and Dry Draw Reservoir.
On account of a terrible storm the 8th day of August 1909
which did much damage to ^{North Duck Creek Extension} any Dam, in fact it took out
a good share of the work which had been done and even
tore a large hole in the solid earth which took a good
lot of work to replace it, and therefore I have been
unable to finish it up to this date. I have the ditch
finished that leads from the North Duck Creek Extension
but the Dam is not quite finished which is now full of
water. The Dry Draw Reservoir is finished and full
of water, but the ditch that leads from it is only about
halfway through. On account of the water in North
Duck Creek Reservoir, I have been unable to work on
it. And on account of this terrible storm with its water

Hurrying my work I have ^{been} unable to finish
up as per permit.

And therefore ask of you if you please for extension
of time. Would like if you can give me
two (2) years more to complete same

Yours truly,
Mrs. Effie Soker,

Dear Sir: I am in receipt of your letter ^{of July 27th} with all papers therein and have forwarded the notice to the press for publication, and have noticed a mistake in a part of the location and have corrected it where as it reads, "right bank of said stream in the NW 1/4 of the NW 1/4 of sec. 23 Tows 11 N Rang 3. (is right)" You had it NW 1/4 of the NW 1/4 sec. 24 Tows 11 N Rang 3.

Now if this is not the way it should be please write me at once and I will make it right. I should of asked you first but it takes so long to get an answer for the mails are so slow so I took the privilege and asked you afterwards

RE: 0623-2 - Sam Franzen

COMMENTS:

In reviewing Water Right Filing #0623-2 and Water Right #16-2 and visiting with
Lloyd Soske on 11-17-83, it was determined that No. 0623-2 and No. 16-2 were
identical.

Water right Filing No. 0623-2 was filed by Sam Franzen on January 11, 1906.

Application for Water Right #16-2 was filed with the State Engineer on February
22, 1907. This application was for an appropriation that had already been made
(evidently No. 0632-2). The application was made to bring the appropriation

within the provisions of the Irrigation code of South Dakota. The state engineer
gave Water Right No. 16-2 a priority date of February 22, 1907. Since the
No. 0632-2 and No. 16-2 are identical, Filing No. 0623-2 should be incorporated
into Water Right No. 16-2 and No. 16-2 should have a priority date of January
11, 1906.

The file for Water Right No. 16-2 contains a letter from T. A. Gardner to Lloyd
Soske, dated June 24, 1974, stating that Water License No. 7-2 and 25B-2 would
be transferred to Lloyd Soske without the use of Form 20 or fee. These transfers
were never made.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

RE: Re-inspection of Water Rights 7-2 & 25-28. Incorporating

COMMENTS: LN 403-2 with ~~25-28~~. 25B-2

The County water rights listing for Fall River County lists Water Rights 7-2 and ^{25B-2}~~25-28~~ as abandoned. This is in error and the remark "declared abandoned" should be removed.

The systems were inspected by Tom Gardner in 1972 and by myself on June 12, 1985. The systems are operating as described on the Water licenses.

Location Notice 403-2 is the same as Water Right ^{25B-2}~~25-28~~ and should be incorporated

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Dear Mr. Soske:

Enclosed is your Water License No. 25B-2. The license was reissued to incorporate the applicable portions of Location Notice No. 403-2. Location Notice No. 403-2 was a duplicate filing of Water Right No. 25B-2 and contained the same priority date.

A June 12, 1985 inspection of your water use systems found them to be operating as described in the original license dated January 19, 1914. Other than incorporating LN 403-2 into the reissued license, the data contained in the original license was not changed.

If you have any questions concerning this procedure, please contact our office.

Very truly yours,

FROM: *for Delvin D. Brosz* JOHN HATCH, CHIEF ENGINEER

SUBJECT: Low Water Levels in Angostura Reservoir

The water level in Angostura Reservoir on March 6, 1990 was at 3171.1 feet above mean sea level (msl). This is approximately 16 feet below the full elevation of 3187.2 msl. The present estimates are that the Angostura Irrigation District will be able to deliver less than 50% of full service water to project lands during the 1990 irrigation season. We are contacting you to advise you of the actions we have taken due to the low water situation in Angostura Reservoir. Junior Water Right owners above Angostura have been ordered not to use water until Angostura fills.

Since your Water Right Nos. 7-2, 16-2 and 25B-2 have priority dates that are senior to the April 11, 1941 priority for Angostura Irrigation Water Right No. 579-2, your permits are not directly affected by the Junior Priority Order. However, I am requesting that all Senior Water Right holders comply with any qualifications and limitations as stated on their water right. With the existing low runoff conditions, we expect to monitor all water rights above Angostura Reservoir.

I want to thank all Water Right Holders above Angostura for the cooperation that we have received up to this time. If you have any questions, please contact Del Brosz (605 773-3352).
