INVESTIGATION OF WATER RIGHT 365-2

On August 11, 1967 Mr. Gene Brown the owner of the Cedar Creek Ranch was contacted concerning water permit #365-2. He stated that his father had made arrangements with the department of Interior where the Department recognized their water rights on Cedar Creek but let them withdraw water from LaCreek in lieu of withdrawals from Cedar Creek. There has been continuous irrigation since the 1930's and the small power generator was in operation until 4 years ago.

Mr. Brown was advised of the procedure for filing a vested right and given the proper forms. He agreed to furnish a description of the agreement he has with the Interior Department

Conclusion: No further action is planned until the vested right application is received.

Mr. John Umberger, Regional Engineer

Federal Building, Fort Snelling
Twin Cities, Minnesota 55111

Dear Mr. Umberger:

Reference is made to Water Permit No. 265-2, issued to Birthol Brown of Mattin, discussed with Carl Stephen this morning.

Permit No. 265-2 calls for diversion of 4.45 c.f.s. from Cedar Creek for irrigation of 366 acres in portions of Section 25, T36N, R37W, and Section 30, T36N, R36W, and for power generation purposes.

An investigation of this project in August, 1967 indicated the irrigation portion of this Permit was still in use, but that the power generation had been discontinued in about 1963. Too, it was indicated that, through an agreement with the Department of Interior, the Water Mr. Brown used was from La Creek rather than Cedar Creek. A copy of this agreement was to have been furnished to this office, but we have not received it.

As to transfer of this Permit, it can be accomplished by completing the enclosed Form 20 and returning it to this office with a fee of \$1.00.

Should you have further questions, feel free to contact this office.

Sincerely,

BURTON F. JONES

RE: Water License Nos. 1921-2 and 2191-2, LaCreek Wildlife Refuge.

Dear Mr. Godby:

Enclosed are Water License Nos. 1921-2 and 2191-2 and Receipt Nos. 414458 and 414459 for \$50.00 each which was assessed for an investigation and issuance of the licenses. Water License Nos. 1921-2 and 2191-2 are the final documents which completes the process of obtaining a water right.

As long as you use the water beneficially, as stated in the Water Licenses, State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Program
