Conversation or File Documentation

NAME OF PERSON OR FILE: Albert C. Putnam, et alADDRESS: _____ COUNTY Custer & Fall RiverDATE: June 27, 1984 TELEPHONE _____RE: Water Right Filing 0351-2 & Water Rights 288-2 thru 292-2

COMMENTS:

I discussed this filing with Lloyd Putnam on June 21, 1984. Mr. Putnam is the present owner of the land associated with this filing and Water Rights 288-2 thru 292-2.

Filing 0351-2 seems to cover the same lands as Water Rights 289-2, 290-2, 291-2, & 292-2. 288-2 does not seem to be included in filing 0351-2.

Water Rights 288-2 thru 292-2 all have a priority date of Feb. 10, 1902. The filing ⁰³⁵¹⁻² was posted on June 1, 1984 and recorded on June 18, 1984.

Mr. Putnam stated that the lands have essentially been irrigated since 1902.

I would recommend that Water Rights 289-2, 290-2, 291-2, & 292-2 be relicensed with a priority date of 1902. Water Right 288-2 should remain as is.

289-2 thru 292-2 could possibly be combined into one water right.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Dear Mr. Putnam:

On December 17, 1984, Water Right No. 289-2 was transferred from George Putnam to your name. Enclosed is your receipt No. 49856 in the amount of \$2.50 which you paid for the transfer. Also enclosed are re-issued Water License Nos. 289-2, 290-2, 291-2 and 292-2.

Through investigation and discussion with you and Mr. Delvin Brosz of this office, it was determined that the lands covered under the above listed water rights have been irrigated since 1904. Water Right Filing No. 0351-2 was posted June 1, 1904 and authorized irrigation of the land covered under Water Right Nos. 289-2, 290-2, 291-2 and 292-2. Therefore, water licenses for the above water rights have been re-issued to incorporate Water Right Filing No. 0351-2 and to reflect a priority date of June 1, 1904.

If you have any questions, please contact our office.

Very truly yours,

NOTICE

TO: Lloyd Putnam
HCR 59 BOX 22
EDGEMONT, SD 57735

FROM: *for Delwin D. Brosz*
JOHN HATCH, CHIEF ENGINEER
Water Rights Division

SUBJECT: Low Water Levels in Angostura Reservoir

The water level in Angostura Reservoir on March 6, 1990 was at 3171.1 feet above mean sea level (msl). This is approximately 16 feet below the full elevation of 3187.2 msl. The present estimates are that the Angostura Irrigation District will be able to deliver less than 50% of full service water to project lands during the 1990 irrigation season. We are contacting you to advise you of the actions we have taken due to the low water situation in Angostura Reservoir. Junior Water Right owners above Angostura have been ordered not to use water until Angostura fills.

Since your Water Rights (listed above) have priority dates that are senior to the April 11, 1941 priority for Angostura Irrigation Water Right No. 579-2, your permits are not directly affected by the Junior Priority Order. However, I am requesting that all Senior Water Right holders comply with any qualifications and limitations as stated on their water right. With the existing low runoff conditions, we expect to monitor all water rights above Angostura Reservoir.

I want to thank all Water Right Holders above Angostura for the cooperation that we have received up to this time. If you have any questions, please contact Del Brosz (605 773-3352).

NOTE:

Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
