Dear Ms. Brill:

Thank you for returning your 1998 irrigation questionnaire and for your note explaining the reason for the delay.

Your questionnaire arrived a few days late but not late enough to cause any action to occur. I put an early return date on the questionnaires to allow time to gather all the forms and review the information submitted by the irrigators. Those questionnaires not received by the end of January usually get notification that they will be scheduled for hearing.

Rhea, thank you for taking the time to write to us and I hope I have eased your concerns. On a more personal note, I hope you are feeling better and I wish you a very Merry Christmas.

Dear Mr. Larabee:

Thank you for calling about your mother's water right. Enclosed as we discussed, is a copy of Water Right No. 375-2. I have included the past three year's irrigation questionnaires, the summary chart showing a history of irrigation use and a "Notice of Transfer of Ownership" form.

The chart will only show you whether the land was irrigated or not. It does not show the number of acres irrigated or the amount of water used. I noticed on the questionnaires that I enclosed that Mrs. Brill was irrigating only 5 acres. This does raise some concern. In order to maintain a water right, water needs to be put to beneficial use for the purpose it was appropriated at least once every three years. The water right authorizes irrigation of 22 acres, however if Mrs. Brill was continually irrigating only 5 of those acres, the remainder may be subject to cancellation consideration for abandonment and/or forfeiture, unless she rotated the area within the 22 acres every few years.

I am enclosing excerpts of our Water Laws and Water Management Board Rules dealing with the issue of abandonment and/or forfeiture. The Water Management Board is the entity who determines if a water permit or right has been maintained and has legal standing. Prior to selling the land or even if you choose to keep the land, you may wish to request the Board to make a determination as to the status of the water right.

If you have any questions concerning the water right, please get in touch with me.

NOTICE OF ONE YEAR SUSPENSION OF WATER RIGHT

TO: John Larabee, LSW of South Dakota LLC, 42557 295th St, Scotland SD 57059

FROM: Garland Erbele Chief Engineer
Water Rights Program *Garland Erbele*

SUBJECT: One Year Suspension of Water Right No. 375-2

On March 2, 2006, the Water Management Board ordered:

That effective April 3, 2006, Water Right No. 375-2 be suspended for the 2006 irrigation season for failure to submit the 2005 irrigation questionnaire.

If the 2005 irrigation questionnaire is received prior to April 3, 2006 the suspension will not take effect.

Suspension of a water permit or right means water may not be pumped during the 2006 irrigation season. Consistent with the Board's order, you are not permitted to irrigate in 2006 unless the irrigation questionnaire is submitted by April 3rd.

After April 3rd, you may petition the Water Management Board to rescind the suspension. You will need to submit the 2005 irrigation questionnaire and a letter to our office requesting time on the agenda for the Water Management Board meeting scheduled for May 3, 2006 in Pierre, SD. The letter should include your reasons for not completing the 2005 irrigation questionnaire. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.

Water Rights Staff will conduct compliance checks of suspended water rights this summer to determine if irrigation is taking place.

Please contact Genny McMath (605) 773-3352, if you have any questions.

Dear Sir:

I am writing to acknowledge receipt of your 2007 irrigation questionnaire. You may disregard the January 18, 2008, "Notice" concerning reporting requirements for Water Right No. 375-2. The information was received in our office prior to the Water Management Board meeting and your name has been deleted from the agenda.

You indicated on the questionnaire that no irrigation system was constructed. Under South Dakota Water Law, water must be placed to beneficial use at least once every three years in order to maintain the water right. This three-year period may be waived if legal excuse exists for not irrigating. Legal excuse as defined in Water Management Board Rules includes, but is not limited to, the following: 1) unavailability of water to satisfy a permit or right; 2) legal proceedings which prevent the use of water; or 3) water use under existing climatic conditions would result in a waste of water. In order to rely on legal excuse for the years of non-use, an irrigation system would have to be present to use if conditions warranted irrigation.

Water rights for irrigation can not be held for future use. If you do not have a system and do not wish to maintain the water right, the water right may be subject to cancellation for abandonment and/or forfeiture.

Please contact our office concerning your intent towards the water right.

Sincerely,

Genny McMath

Dear Mr. May:

I am writing in follow-up to our phone conversation today concerning water use under Water Right No. 375-2.

It is my understanding that you have not irrigated the last couple years due to lack of water. Unavailability of water to satisfy a water permit or right is legal excuse for not irrigating. In order to rely on legal excuse for the years of non-use, an irrigation system would have to be present to use if conditions warranted irrigation.

Enclosed as we discussed is a copy of the water right which will outline what is authorized for irrigation. If you have any questions, please contact me.
