Dear Mr. Schmidtlein:

This letter is in reference to the telephone conversation May 27, 1977 with Gale Selken in regard to the dam located in Section 15, T1S, R16E.

Upon receiving a complaint from a downstream water right owner, an investigation was made. The location of the dam is such that water is stored in the channel and eventually when the dam is full the water is diverted to another channel.

According to our files the Forest Service does not have a water right for the dam. Water rights downstream have priority and the rights must be satisfied prior to storage of water by the Forest Service.

The dam must either be removed or a bypass structure must be placed through the dam.

Very truly yours,

Dated April 20, 1993) (Water Rights)

Dear Mr. Hatch,

We have reviewed the vested water right claims located in Perkins, Pennington, Fall River, and Butte Counties as listed in your letter dated April 20, 1993. We have also discussed these rights with contract water users. We appreciate the assistance of your staff in providing documentation of inspections and validation proceedings for specific claims as we requested.

We are satisfied with all of the actions taken by the board. Our intent in opposing validation of the water rights was to assure that all of the rights were reviewed prior to validation. That review has been completed by your staff. Thank you for notifying us of the board's actions and extending the opportunity to reconsider the actions if it would have been deemed necessary. We understand that future notification will be made in advance of board actions.

If we can be of further assistance, please contact Craig Kjar or me at (605) 456-2695.

Dear Mrs. Ruland:

Enclosed, as we discussed, are copies of Vested Water Right Nos. 460-2 and 461-2. Jim Bloom submitted a "Notice of Transfer of Ownership" for a portion of the land described in Vested Water Right No. 460-2. It is my understanding from visiting with him that the remaining land under No. 460-2 and all of the land under No. 461-2, is now owned by you.

I have included partially completed "Notice of Transfer of Ownership" forms for use in filing an ownership change. The legal descriptions on the forms match the land described in the vested rights (please see the highlighted areas for specific breakdown on ownership). If I have made an error, please make the correction and adjust the transfer form.

Please complete the area on the forms titled "*be transferred to (name & address)*". Upon completion, please sign the forms in the presence of a notary public and return them to our office with a required filing fee of \$2.50 each (total of \$5.00).

With regard to Vested Water Right No. 460-2, once we receive your transfer form, the water right will be divided and reissued as 460A-2 and 460B-2 to reflect separate ownership. Vested Water Right No. 461-2 will be transferred in its entirety to you.

If I can answer any questions for you concerning either the vested rights or with filing the ownership changes, please give me a call
