COMMENTS:

On June 21, 1989, I made an investigation of Vested Right Claim No. 537-2. I talked to Mr. Lehr over the telephone. He said his daughter Karen Rittberger (833-6721) now lives on the ranch. The project was also covered under Water Permit No. 65-2. LeRoy Mernaugh inspected the project in 1980. Water Permit No. 65-2 was cancelled and Vested Right Claim No. 537-2 should have been validated for 26 Acres at that time. My investigation revealed that the project was still irrigating 26 Acres in the NE 1/4 of Sec. 8-T6S-R 8E, not the 39.2 Acres described on the original application.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

NOTICE

TO: Myron Lehr
HCR 1, Box 97

FROM: John Hatch, Chief Engineer
for Water Rights Division
605 773-3352

SUBJECT: Hearing to Consider Validation of Recognized Vested Right Claim No. 537-2,
Myron Lehr

A Notice of Intent to validate Claim No. 537-2 was published on June 22 and 29, 1988 in the Custer County Chronical. The Water Rights Division opposed validation of No. 537-2 for purposes of completing an on-site inspection of the claim. The inspection of Claim No. 537-2 was completed on June 21, 1989, by Tim Schaal staff engineer. The inspection found that the number of acres being irrigated had been reduced from 39.2 acres to 26 acres. The diversion rate is to be reduced, accordingly, from 0.56 cubic feet of water per second (cfs) to 0.37 cfs. This reduced diversion rate is based on the statutory application rate of 1 cfs per 70 acres (26 acres/70 = 0.37 cfs).

The Water Management Board will consider validation of Claim No. 537-2 at 9:30 am, May 6, 1992, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre SD. The agenda time is an estimate. The actual time of the hearing may be later than 9:30 am due to prior agenda items.

Pursuant to the findings of the on-site inspection, validation of Claim No. 537-2 is recommended for a diversion rate of 0.37 cfs from a dry draw to irrigate 26 acres. Following the hearing, the Board is authorized to 1) validate the claim as recommended for 537-2, 2) validate the claim as licensed prior to the on-site inspection, 3) validate the claim based on evidence presented at the public hearing, or 4) defer validation of the claim. Applicable provisions of the published notice of intent to validate Claim No. 537-2 will still apply at this hearing. A copy of the June 22 and 29, 1988, publication is available upon request.

This hearing is an adversary proceeding. You have the right to be represented by a lawyer. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.
