Dear Mr. Beringson:

I am writing to notify you that pursuant to the Notice of Intent to Validate Vested Water Right Claims dated June 20, 1988 that I intend to oppose validation of all Department of Game, Fish and Parks Vested Water Right Claims for lakes for the following reasons:

1. Until the outlet elevation for each lake is surveyed and the outlet elevation is set by the Water Management Board.
2. To allow the Vested Water Right Claim to be amended, if necessary, as follows:
 - a) Include the outlet elevation;
 - b) To correct the amount of water claimed;
 - c) To add the qualification that a vested claim is subject where necessary to installation of a concrete outlet structure to assure retention of the outlet as the established elevation; and
 - d) To add any amendments and qualifications necessary to clarify a Vested Right Claim.

Also, that I intend to oppose validation of all Department of Game, Fish and Parks Vested Water Right Claims for dams to allow the Vested Water Right Claim to be amended, if necessary, as follows:

1. To include the spillway elevation;
2. To correct the amount of water claimed; and
3. To add any amendments and qualifications necessary to clarify a Vested Right Claim.

September 21, 1988
Richard Heringson, Secretary

We will be working with your staff on these validations. We have already discussed setting outlet elevations before validating claims for lakes. Although the work necessary to complete the validation process will take several years to complete, the results should be of benefit to the public and to your Department. As the work is completed to validate each claim, the claim will be presented to the Water Management Board for validation.

Please advise if you have any questions.

Kenneth Lindwurm
603 E 13th St
Gregory SD 57533

Dear Mr. Lindwurm:

I am writing regarding the recognized Vested Water Right No. 619-2 (copy enclosed) for Star Lake. The Department of Game, Fish and Park (GF&P) filed the vested water right claim for Star Lake back in 1961. Recently, GF&P contacted DENR stating their intent to abandon the water right as there is no public access to the lake.

The 2016 plat book for Gregory County indicates that Lindwurm Brothers Inc, owns the property where Star Lake is located and you are listed at the registered agent on the Secretary of State's websites. Attached is a partially completed notice of transfer of ownership to transfer the water right to Lindwurm Brothers. Also enclosed is a self-addressed stamped envelope.

DENR's records indicated the dam breached in either 2007 or 2008. From aerial photography the dam was again impounding water in 2010 indicating that repairs were made. Please let DENR know what construction took place to repair the dam at Star Lake. We'd appreciate a copy of plans and specifications if they were prepared prior to the repair.

Please let me know if you have any questions.

Sincerely,

Eric Gronlund

Subject: Star Lake

I'm sure most of you know what is happening and the history of star lake, but I wanted to send this out to make sure everyone is informed.

- Star Lake is listed on the school and public lands web app as a public body of water.
- In the 1930s star lake was created on section 16 and section 9
- Section 16 was school and public land and section 9 was privately held
- An easement was granted for the dam on section 9 – not more than 3 acres
- The easement for section 9 does not specify public use
- There was no easement for section 16 since it was school and public land at the time
- The majority of the dam was on public land (section 16)
- Section 16 was sold without reservation in the 1940s
- The dam breached in 2008
- We don't know who or when the dam was repaired, but it is currently holding water and providing a quality fishery.
- There is a note attached to the easement document that needs to be interpreted – it states “action by attorney general returned area to landowner. No copy of action available. 1984”
- The last few years, there has been a quality fishery.

- The landowner has blocked the section line and claims he allows people to access the lake by crossing his private property with his permission.
- The landowner also claims the state abandoned the dam when it breached, so it is no longer public

Long story short, we may have an easement for a small part of the dam, which can be publicly accessed by a section line or we may not. I think we should have our attorney look over the documents and advise how to proceed. If we determine that the public no longer has a right to use the dam, I will pursue a fish management agreement with the landowner. If we decide that the easement is still valid, and provides for public use, we can work with the landowner on options for maintaining public access (fences, cattle guards etc.) without the agreement and annual payment.

I have attached all the documents I could get from school and public lands and from the Gregory county courthouse.
