Dear Mr. Putnam:

I am writing to notify you that pursuant to the Notice of Intent to Validate Vested Water Right Claims dated June 20, 1988 that I intend to oppose validation of your water right claim No(s). 711-2 until a field inspection has been completed. The claim has either never been inspected or an inspection was conducted so long ago that a new inspection is needed. An inspection is needed to determine the current state of your vested water right claim.

A staff member from the Division of Water Rights will be contacting you and scheduling an inspection of your water project. If we can answer any questions, please contact us.

Very truly yours,

Dear Mr. Putnam:

Enclosed is a copy of a letter received from the U.S. Department of Interior, Bureau of Reclamation. The Bureau of Reclamation is opposing those vested water right claims in Pennington, Perkins, Butte and Fall River counties which have never been investigated by the Division of Water Rights. Earlier, you received a letter stating that I was opposing your claim until an investigation can be completed.

After the investigation has been completed, you and the Bureau of Reclamation will be notified as to the date, place and time of the hearing on your vested water right claim. At that time all parties of record will have an opportunity to testify on the validation.

If we can answer any questions, please contact us.

Very truly yours,

SUBJECT: Shut Off Order for Junior Water Rights Upstream of
Angostura Irrigation District

Effective May 19, 1989, you are ordered to cease diversions of
water under Water Right Nos. 711-2, 1701-2, 2043-2. The priority
date for your water rights is junior to the April 11, 1941
priority date for Angostura Irrigation District Water Right No.
579-2.

The Angostura Irrigation District's water supply is as follows:
May 2, 1989
24,673 acre feet available for
irrigation at elevation 3173.4 ft. msl

The Irrigation District needs 45,000 acre feet per year for
irrigation.

One fill of Angostura reservoir is authorized per year. The
District has agreed to allow junior priority irrigation upstream,
if the reservoir fills to elevation 3,183.7 ft. msl, 43.5 feet
below full elevation (3187.2 ft msl). If the reservoir fills to
3,183.7 ft. msl, the shutoff order will be rescinded. Any
releases by the District for irrigation will be included in the
3183.7 ft. msl. calculation.

If you have any questions, please contact Jim Winterton (605

SUBJECT: Shut Off Order for Junior Water Rights Upstream of
Angostura Irrigation District

This is a follow-up notice to the May 10, 1990 notice that you received ordering you to cease diversion of water under Water Right Nos. 711-2, 1701-2 and 2043-2. You are reminded that the order is still in effect and will remain in effect until Angostura Reservoir has filled. The May 10, 1989 order stated that the order was effective until the reservoir had reached an elevation of 3183.7 feet above mean sea level (msl). This has been changed and the order will remain in effect until the reservoir has reached the full elevation of 3187.2 msl. On March 6, 1990 the reservoir elevation was 3171.1 msl.

All water rights above Angostura Reservoir will be monitored until the reservoir has filled. I am asking for your cooperation in complying with this order. The Water Management Board can suspend any water right that does not comply. The option also exists in that a water use control area can be established to enforce compliance.

If you have any questions, please contact Del Brosz (605 773-3352).

SUBJECT: Shut Off Order for Junior Water Right Holders Upstream
of the Angostura Irrigation District.

Please be advised that effective immediately no diversions of water will be allowed under your Water Right Nos. 711-2, 2043-2 which are junior in priority to Water Right No. US579-2 held by the US Bureau of Reclamation for the Angostura Irrigation District.

On March 20, 1992 the water elevation in Angostura Reservoir was 4.4 feet and 19,164 acre feet below full. Reservoir storage levels will be closely monitored. If inflows increase such that the reservoir will fill, this shut off order will be rescinded at that time.

All water rights above Angostura Reservoir will be monitored until the reservoir has filled. I am asking for your cooperation in complying with this order.

RE: Vested Right Claim Inspection

COMMENTS: On June 4, 1991, accompanied by Mr. Jerry Ferle, Mr. Putnam's son-in-law, inspected the land claimed under Vested Right Claim No. 711-2. The irrigation system was still in working condition. Approximately 1/3 of the area was under water. The land seemed to be the same land as shown on the map submitted with the original application.

** Recommend validation of Vested Right Claim No. 711-2.

VESTED WATER RIGHT NO. 711-2 FOR IRRIGATION

Date of Receipt of Claim May 12, 1961.

Date of Validation May 6, 1992.

The Water Management Board validated Vested Water Right Claim No. 711-2 for irrigation purposes for Donald Putnam, Box 36, Oelrichs SD 57763 with the following limitations, conditions and qualifications:

1. Vested Water Right No. 711-2 appropriates 0.98 cubic feet of water per second from dry draws located in the SW 1/4 SE 1/4 Section 30 and NE 1/4 NE 1/4 Section 31; to irrigate 68.9 acres located in the N 1/2 NE 1/4 Section 31, S 1/2 SE 1/4, NW 1/4 SE 1/4 Section 30; all in T10S-R8E.
2. The appropriation may not exceed the amount of water needed for beneficial use for irrigation. The appropriation may not exceed 3 acre feet per irrigated acre per year. Water is to be used during the following annual period: January 1 - December 31.
3. The priority date of the Vested Water Right is April 24, 1951.
4. The water use system has been constructed and water has been applied to beneficial use.
5. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

Dear Mr. Putnam:

The Water Management Board has validated the enclosed Vested Water Right No. 711-2. This validation gives legal status to the claim and is the final document for your vested right.

As long as you use the water beneficially, as stated in the validation, State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

SUBJECT: Shutoff Order for Junior Water Right Holders Upstream
of the Angostura Irrigation District.

Effective immediately no diversions of water under your Water Right Nos. 711-2 and 2043-2 are authorized. Your water rights are junior in priority to the US Bureau of Reclamation Water Right No. 579-2 (April 11, 1941 priority date). The Bureau of Reclamation water right for the Angostura Irrigation District allows one annual fill of the reservoir.

The amount of water required for one annual fill of Angostura Reservoir as of January 1, 1993 was 45,402 acre feet. On March 9, 1993 the water elevation in Angostura Reservoir was 10.2 feet and 41,305 acre feet below full. Reservoir storage levels will be closely monitored. If inflows increase and the reservoir will fill, this shutoff order will be rescinded. Any 1993 irrigation releases from the reservoir will be included in the inflow calculations.

All water rights above Angostura Reservoir will be monitored until the reservoir has filled. I am asking for your cooperation in complying with this order.

If you have any questions, please contact Del Brosz or Mark Rath, Division of Water Rights, 523 E Capitol Ave, Pierre, SD 57501. Phone (605) 773-3352.

Subject: Vested Water Right Claims in Western South Dakota (Your Letter
Dated April 20, 1993) (Water Rights)

Dear Mr. Hatch,

We have reviewed the vested water right claims located in Perkins, Pennington, Fall River, and Butte Counties as listed in your letter dated April 20, 1993. We have also discussed these rights with contract water users. We appreciate the assistance of your staff in providing documentation of inspections and validation proceedings for specific claims as we requested.

We are satisfied with all of the actions taken by the board. Our intent in opposing validation of the water rights was to assure that all of the rights were reviewed prior to validation. That review has been completed by your staff. Thank you for notifying us of the board's actions and extending the opportunity to reconsider the actions if it would have been deemed necessary. We understand that future notification will be made in advance of board actions.

If we can be of further assistance, please contact Craig Kjar or me at (605) 456-2695.

Shutoff Order for Water Right Nos. 711-2

To protect the US Bureau of Reclamation's Water Right No. US579-2 for Angostura Reservoir with a senior priority date of April 11, 1941, the Bureau of Reclamation has asked that we issue shutoff orders for junior water right holders. Effective immediately no diversions of water from the Cheyenne River and tributaries by holders of junior water rights upstream of Angostura Dam will be allowed. On April 30, 2004, the water elevation in Angostura Reservoir was 3179.1 feet, a little over 8 feet below the full elevation of 3187.2 feet. Current storage is at 96,912 acre-feet, about 33,850 acre-feet below full and inflows are only about 38 acre-feet per day.

The Angostura Reservoir storage level will be closely monitored and if the Cheyenne River flows upstream of dam increase such that the reservoir will fill, this shutoff order will be rescinded at that time. If conditions do not improve, this order will remain in effect until December 31, 2004.

I am asking for your cooperation in complying with this shutoff order. If you have any questions, please contact Mark Rath or Don Stroup with the Water Rights Program at (605) 773-3352. Thank you.

Subject: Request for Junior Water Rights Shut Off Order - Angostura Reservoir, South Dakota

Dear Mr. Erbele:

We request that the State of South Dakota's Department of Environment and Natural Resources Water Rights Division issue shut off orders to junior water right holders on the Cheyenne River above Angostura Reservoir.

Angostura Reservoir is presently at elevation 3169.90, which is a little over 17 feet down from full (top of conservation or full is at elevation 3187.2). On February 24, 2005, the storage in Angostura Reservoir is about 60,000 acre-feet, which is 63,000 acre-feet from full. If the spring weather continues to be dry, the water right at Angostura will not be satisfied.

If you have questions, please contact Curt Anderson or me at 605-394-9757.

SUBJECT: Shutoff Order for Junior Priority Date Water Rights Upstream of Angostura Dam

Shutoff Order for Water Permit No(s). 711-2

The US Bureau of Reclamation holds Water Right No. US579-2 for Angostura Reservoir with a senior priority date of April 11, 1941. To protect this right, the Water Rights Program is issuing shutoff orders for junior water right holders. Effective immediately no diversions of water from the Cheyenne River or its tributaries, by holders of water rights junior to the priority date of April 11, 1941, upstream of Angostura Dam will be allowed. On June 03, 2026, the water elevation in Angostura Reservoir was 3173.87-feet, 13.3-feet below the fill elevation of 3187.2-feet (top of the conservation pool). Storage was at 71,519.0 acre-feet, which is approximately 51,529 acre-feet below full. At this time, Angostura Reservoir is not expected to fill with the current low inflows.

The Angostura Reservoir storage level will be closely monitored and if the flows in the Cheyenne River and its tributaries upstream of the dam increase such that the reservoir will fill, this shutoff order will be rescinded at that time. If conditions do not improve, this order will remain in effect until the end of the calendar year.

I am asking for your cooperation in complying with this shutoff order. If you have any questions, please contact Nakaila Steen at (605) 394-2229, or myself at (605) 773-3352 with the Water Rights Program. Thank you.

We would appreciate it if you would call Nakaila in our Rapid City office and provide an up-to-date phone number and email for faster communication on this matter. Thank you.
