Number of permit 724-2

Date of first receipt of application August 11, 1961

Date of return to applicant for correction, amendments or changes required as follows: _____, 19____

Date of receipt of corrected application _____, 19____

Date from which applicant may claim right August 11, 1961

Approved September 13, 1961, Recorded in Book 6 Page 337

This is to certify that we have examined the foregoing application for a permit to appropriate water of the State of South Dakota, and we hereby grant the same as stated herein, subject, however, to the following limitations and conditions:

1st. The equivalent of at least one-fifth of the work above specified is to be completed on or before December 13, 1961

2nd. The whole of said work is to be completed on or before March 13, 1962

3rd. The limit of time for proof of beneficial use of water appropriated in accordance herewith is

September 13, 1964

4th. The water appropriated shall be used for the purpose of municipal use

5th. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

6th. The amount of the appropriation herein granted shall not exceed 1.0 cubic feet per second; neither shall it exceed the capacity of the above described system of diversion works, nor the least amount of water that experience may hereafter indicate as necessary for the ~~production of crops~~ in the exercise of the best husbandry; and further, said appropriation must be limited to not more than one ~~seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually~~

used for municipal purposes

and beneficially ~~applied for irrigation~~ used for municipal purposes on or before September 13, 1964; said water to be used during the following described annual period:

Certificate of Examination of Works

Report of Examining Engineer

To the State Water Resources Commission, Pierre, South Dakota:

Dear Sirs: I hereby certify that in accordance with your letter of authorization dated _____
 1967, I have this day made a thorough examination of the diversion works constructed by _____
The City of Wall, of PENNINGTON
 _____ County, South Dakota, holder of Permit No. 724-2, issued
 upon Application No. 724-2, bearing date of priority of August 11, 1967, authorizing the
 diversion of 1.0 cu. ft. per second of the waters of Ground Water for Municipal
 purposes. I have to report on the condition of the same as follows:

The diversion works comprise: Well 3200' deep with 800' 9" casing, 2400'
7" casing & screen. Pump is Reda Submersible, Serial # 6510888,
Type 585H, Stages 101302B-20890-2, driven by 60 H.P. electric
motor. System includes 6" main from pump to storage tank,
100,000 gal storage tower, and city mains.
 and the system is in the following condition: Excellent

The point of diversion is located in SW 1/4 Section 5, T15, R16E as
noted on application.

The works are capable of diverting and conveying to the place of use 1.0 cu. ft. per second of water,
 which is to be used for Municipal purposes.

The legal subdivisions to be irrigated are: N/A

_____ comprising a total of _____ acres of land.

The domestic use intended comprises N/A

The utilization for power, mining, or other beneficial uses comprises: N/A

DATE: 10/1/60
TIME: 1:34

10/1/60

Mr. Robert A. Miller
Mayor
P.O. Box 400
Phillips, South Dakota 57557

Dear Mr. Miller:

Reference is made to your letter of December 30, 1958, pertaining to the wells and well water rights of the Town of Wall.

The Town of Wall has two water licenses for withdrawal of ground water.

Water license 850-2, having a priority date of October 10, 1950, authorizes the diversion of 1/2 cubic foot per second of water (425 gpm) of the Fall River - Lakota formation from a 3,250 foot well.

Water license 724-2, having a priority date of August 11, 1961, authorizes the diversion of 1 cfs of water of the Fall River - Lakota formation from a 3,250 foot well.

The water licenses for these wells were issued as authorized in SDC 1960, Supp. Sections 61.0119 and 61.0464. The water rights were obtained pursuant to procedures prescribed in SDC 1960, Supp. 61.0463 and 61.0110 through 61.0119.

The Town of Wall has not made application to appropriate water for its contemplated future needs as allowed in SDC 1960, Supp., Section 61.0122 as amended.

The obtaining of a future use water right by the Town of Wall will not improve the water right status of the existing municipal wells. These wells being the only appropriate water rights from the Fall River - Lakota artesian formation in the area, have already been protected to the maximum degree inasmuch as SDC 1960, Supp., Section 61.0109 specifies that, "As between appropriations, the first in time is the first in right".

This does not necessarily mean that other wells cannot be drilled into the same formation as the existing town wells. The only way of increasing the water needs for the town is to drill additional wells in the same formation.
