

No. 729-2

Water Division No. 2 BATTLE CREEK District
(Blanks to be Filled by the Engineer for the W. R. C.)

VESTED RIGHT **APPLICATION FOR PERMIT**

STATE WATER RESOURCES COMM.
PIERRE, SOUTH DAKOTA

To Appropriate Water within the State of South Dakota

(NOTE—Draw a line through items not applicable.)

- Name of applicant South Dakota Department of Game, Fish and Parks
Postoffice address Pierre, County Big Horn, State South Dakota

- If a corporation
 - Name of same
 - Date and place of incorporation
 - Amount of capital stock
 - Amount paid in
 - Names and addresses of directors

(NOTE—A certified copy of articles of incorporation must accompany the application.)

II. Method of accomplishing the work and financial resources of the applicant:

- Method of accomplishing work (Whether by contract, employment of others, or by direct labor)
- Cash on hand, \$
- Treasury stock, \$
- Bonds to be issued, \$
- Other resources, \$

- Name of diversion work REGION LAKE - Custer County
As required to fill lake to spillway outlet - Approximately
- Amount of water claimed 50 cfs - feet per second
- Source of water supply Colonia Creek
One point in the watershed located in the
- Location of point of diversion SW 1/4 Sec. 25, T. 35, R. 5 E
on _____ bank _____ County.

- Annual period or periods during which water is to be used continuously
- To be used for:

- Irrigation or domestic use: Gravity, overhead sprinkling or combination system?
 - Number of acres to be irrigated _____ acres.

(NOTE—A list of lands to be irrigated, giving each subdivision and fraction with acreage thereof, should be written here, or may be appended as a part of this application. Same must also be shown on accompanying map.)

- Statement as to domestic use (giving location, etc.) NW 1/4 Sec. 25, T. 35, R. 5

II. Stockwatering, mining, milling, power, fish culture, fire protection and public recreation:

- Nature of use Public recreational uses
None any of the above was claimed
- Amount of power to be generated _____ horse power.
Amount claimed for engine cooling _____
- Location of plant
- Method of developing power
- Point where water will be returned to stream

8. Estimated cost of work:

(a) Head Gates, \$-----

(b) Pumping plant, \$-----

(c) Fluming, \$-----

(d) Canal-earth, \$-----

Rock, \$-----

(e) Other structures ----- \$-----

Total, \$3000.00.

9. Description of diversion works:

I. Nature of works: (Reservoir, dam, ditch, flume, pumping plant, etc.)

II. Dimensions of works.

- (a) Dam: Height 25 feet; length at bottom 80 feet; length at top 80 feet; thickness at bottom 11.5 feet; thickness at top 8 feet; slope at front water face 1 1/2:1; slope at back face 1 1/2:1; material used in construction Earth fill
- (b) Reservoir: Capacity when filled 125 acre feet. Surface area at highwater mark 9 acres.

DEPTH AT OUTLET-Feet	SURFACE AREA AT EACH DEPTH AT OUTLET--ACRES	FEET	ACRE-Feet CAPACITY

- (c)* Head gate: Width ----- feet; height ----- feet;
Material -----
- (d) Canal: Total length ----- miles.

LOCATION BELOW HEADGATE	DEPTH	BOTTOM WIDTH	WIDTH AT WATER-LINE	GRADE PER MILE
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet

(Give dimensions where reductions in size are made.)

10. Time required for completion of work completed - not applicable years.11. Time required for complete application of water to the proposed beneficial use completed years.12. Choice of newspaper for publication of notice of intention to appropriate not applicable

This is to certify that we have examined the foregoing application for a permit to appropriate water of the State of South Dakota, and we hereby grant the same as stated herein, subject, however, to the following limitations and conditions:

1st. The equivalent of at least one-fifth of the work above specified is to be completed on or before

2nd. The whole of said work is to be completed on or before

3rd. The limit of time for proof of beneficial use of water appropriated in accordance herewith is

completed

4th. The water appropriated shall be used for the purpose of

public recreation

5th. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

6th. The amount of the appropriation herein granted shall not exceed 30 acre feet annually, nor the least amount of water that experience may hereafter indicate as necessary for the production of crops in the exercise of the best husbandry; and further, said appropriation must be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually

used for public recreation

and beneficially applied for irrigation on or before

June 30, 1965

said water to be used during the following described annual period:

Proof of Application of Water to Beneficial Use**PETITION OF HOLDER**

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. South Dakota Department of Game, Fish and Parks, Pierre, South Dakota

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (If a foreign corporation, give name and postoffice of statutory agent,) your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State date of posting and date of recording notice of appropriation.

Ans.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Galena Creek - One point in the watershed located in the SW 1/4 Sec. 25, T 3, R5

Ques. 5. Describe your works of diversion giving length and height of each dam and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use, and date of completion of same.

Ans. Earth fill dam - approximately 80 feet long and 35 feet highImpoundment of 9 acres at dam site

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have ACTUALLY been irrigated with said water.)

Ans. Fish and wildlife propagation, conservation and recreation

Ques. 7. If for other than irrigation purpose, state how applied, amount of horse power generated, etc.

Ans. Used in place in lake or reservoir

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. As required to fill lake to spillway outlet - approximately 30 acre feet per year

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent, the water diverted under above mentioned permit has been used.

Ans. Been in use ever since 1926 when dam was constructed. Used by the public for the uses specified extent for that amount lost by evaporation and seepage.

Richard Beringson, Secretary
Department of Game, Fish and Parks
Anderson Building
445 E Capitol
Pierre SD 57501

Dear Mr. Beringson:

I am writing to notify you that pursuant to the Notice of Intent to Validate Vested Water Right Claims dated June 20, 1988 that I intend to oppose validation of all Department of Game, Fish and Parks Vested Water Right Claims for lakes for the following reasons:

1. Until the outlet elevation for each lake is surveyed and the outlet elevation is set by the Water Management Board.
2. To allow the Vested Water Right Claim to be amended, if necessary, as follows:
 - a) Include the outlet elevation;
 - b) To correct the amount of water claimed;
 - c) To add the qualification that a vested claim is subject where necessary to installation of a concrete outlet structure to assure retention of the outlet as the established elevation; and
 - d) To add any amendments and qualifications necessary to clarify a Vested Right Claim.

Also, that I intend to oppose validation of all Department of Game, Fish and Parks Vested Water Right Claims for dams to allow the Vested Water Right Claim to be amended, if necessary, as follows:

1. To include the spillway elevation;
2. To correct the amount of water claimed; and
3. To add any amendments and qualifications necessary to clarify a Vested Right Claim.

September 21, 1988

Richard Reringson, Secretary

Page 2

We will be working with your staff on these validations. We have already discussed setting outlet elevations before validating claims for lakes. Although the work necessary to complete the validation process will take several years to complete, the results should be of benefit to the public and to your Department. As the work is completed to validate each claim, the claim will be presented to the Water Management Board for validation.

Please advise if you have any questions.

Very truly yours,

John Hatch

MEMO

To: Individual Files
cc: Garland Erbele, Chief Engineer, Water Rights Program
Gale Selken, PE Water Rights Program
From: Donald E. Stroup, DENR Natural Resources Project Engineer

Subject: License/Vested Right Nos. 726-2, 727-2, 728-2, 729-2 and 734-2

In September 1988 the Chief Engineer, Water Rights Division, notified the Secretary, Department of Game, Fish and Parks (GF&P) of his intent to oppose validation of all GF&P Vested Water Right Claims for lakes and dams for the following reasons:

Lakes:

1. Until the outlet elevation for each lake is surveyed and the outlet elevation is set by the Water Management Board;
2. To allow the Vested Water Right Claim to be amended, if necessary, as follows:
 - a. Include the outlet elevation;
 - b. To correct the amount of water claimed;
 - c. To add the qualification that a vested claim is subject where necessary to installation of a concrete outlet structure to assure retention of the outlet as the established elevation; and
 - d. To add any amendments and qualifications necessary to clarify a Vested Right Claim.

Dams:

1. To include the spillway elevation;
2. To correct the amount of water claimed; and
3. To add any amendments and qualifications necessary to clarify a Vested Right Claim.

In conjunction with the 2001 Staff Inspection Assignments, I examined GF&P License/Vested Water Right Nos. 726-2 Sylvan Lake, 727-2 Bismarck Lake, 728-2 Center Lake, 729-2 Legion Lake, and 734-2 Stockade Lake in Custer State Park for possible validation. These dams have

concrete spillways that can be used as an established, maintainable elevation reference upon completion of a proper survey. Once the outlet elevation is set and the correct amount of water to be claimed for each of these lakes is determined, these claims could be presented to the Water Management Board for validation.

Gale Selken, Water Rights Program, is presently coordinating completion of required surveys with GF&P personnel and will schedule these dams for elevation surveys in the near future.
