Remarks by the Applicant:

We are now having to haul water to our reservoir which was formerly (since 1926) supplied by our Spring which has gone dry. This creates a great hardship as we have three houses, ours, our son's who works for us and Tenant House for hired help and all of our livestock. We try to keep this 15,000 gal. reservoir full as a fire protection as we have a great many buildings. When this project is completed we will have our two systems connected so that in case one goes down, we will still be able to supply water to our Misega Lodge, etc.

Dear Mr. Jones:

Enclosed you will find our proof of publication for Application on Permit No. 732-2.

As stated in our application, we are at present hauling water for our operations at Ranch and it works a great hardship upon Mr. Sanders.

If and when our application is accepted, we will try to get the well and pipeline completed, and for the time being will use a pressure tank to put the water up our old line (to our 15,000 gal buried reservoir) but since this line is 3300 feet long, it will be much cheaper to put a reservoir

near the ranch buildings, which we hope to do later. As stated in our application which granted us permit No. 655-2 the original well is dry after supplying water for ranch since 1882 and Lodge since 1929 so it has really caused us a lot of expense and grief.

We will certainly appreciate an early consideration of this Application.

We thank you for past attentions.

Yours sincerely

Dear Mr. Jones:

At long last, we have finally gotten the plat which is required for Water application and so are forwarding the same for your consideration.

As you will note, we are having to haul water now which is almost a daily job for Mr. Sanders as we do need the fire protection badly at the Ranch so we will deeply appreciate and early consideration of this application.

We thank you for former attention. We have winterized the system here at Lodge and everything is working very well. Buried a 10,000 gal reservoir and 650 feet of pipe (five feet) which took some doing in these hills but it is working perfectly.

Yours truly,

Dear Mr. Jones:

When we made application for our water permit which would take care of ranch, the development was contingent upon us being able to sell our Lodge at Hsaga. We were not financially able to do the second well until we disposed of some property.

Since we have had no sale we have not gotten the job done but we have a very good prospect on the Lodge, now, and we will develop the other site just as soon as we can, we think by Fall at least.

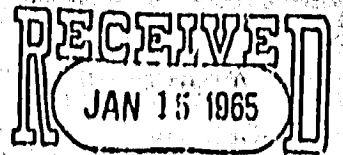

I was not sure whether there was a time limit or not but if so, may we please have an extension on our second application 655-2 I believe.

We thank you for this consideration.

Dear Sirs:

I hereby request that an extension of time from January 10, 1964
to January 10 th, 1965 be granted me for the completion of works to be done under Permit No.
732-2 and that the time for proof of beneficial use of water be extended to that date

Said works are located in N. E. of N. W. 1/4 Sec. 9, T. 1 N., R. 8 E., Pennington County and are described
as follows:

Location of headworks: In the N. E. of N. W. 1/4 of the 1/4
of Section 9 Township 1 N. Range 6 E. B1M
E. B.H.M.

The water is to be used for the purpose of Ranch Activities and our buildings

The extension of time for the completion of these works is requested for the following reasons:

We have been waiting for the sale of other property in order to finance
this project and are just getting the transaction wound up.
