Report of Examining Engineer

To the State Water Resources Commission, Pierre, South Dakota:

Dear Sirs: I hereby certify that in accordance with your letter of authorization dated _____ 19____, I have this day made a thorough examination of the diversion works constructed by Arthur Reagle of Valentine, Nebraska with works in Todd County, South Dakota, holder of Permit No. 898-2, issued upon Application No. 898-2, bearing date of priority of Dec. 28, 1966, authorizing the diversion of 1.229 cu. ft. per second of the waters of Ground water for irrigation purpose. I have to report on the condition of the same as follows:

The diversion works comprise: 2 wells, #1 158' deep & #2 185' connected with approx. 1/4 mile 6" pipe. Both have 14" alternating cast iron & service casing & 6" drop pipes. Pump #1 is Western Land Roller, Series # C 66624, Hand # 6m-6-125 in driven by 30 HP electric motor. Well #2 has 125' Western Land Roller pump series # 26625, Hand # 6m-8-125 in driven by 40 HP electric motor.
 * and the system is in the following condition: Excellent

The point of diversion is located As shown on map.

The works are capable of diverting and conveying to the place of use 2.0 cu. ft. per second of water which is to be used for Irrigation

The legal sub-divisions to be irrigated are: As shown on map

comprising a total of 125.2 acres of land.
 The domestic use intended comprises None

The utilization for power, mining, or other beneficial uses comprises: None

* Rest of system is Dowd Traveling sprinkler system made by Dowd Manufacturing Co. Columbus, Nebraska. Serial # 270, Model # 8 with 43 sprinkler heads.

Arthur E Reagle
HC 12, Box 10
Valentine, NE 69201

Dear Mr. Reagle:

On October 6, 1988, the Water Management Board adopted rules to implement a 1988 law for application of chemicals through irrigation systems. The rules establish equipment standards, performance standards and installation requirements for irrigation systems that apply chemicals (fertilizers, insecticides, or herbicides) with irrigation water.

You have indicated on your 1988 Water Management Board Irrigation Questionnaire that you do apply chemicals with irrigation water. A copy of the new rules for chemigation are enclosed for your information.

The new standards include:

- * a check valve between the irrigation pump and the point of chemical injection;
- * a vacuum relief valve on top of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a low-pressure drain on the bottom of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a chemical injection line check valve between the chemical injection pump and the point at which the chemical is injected into the irrigation line; a second check valve is required if the chemical injection pump is not a positive displacement pump;
- * an interlock system which ensures that the chemical injection pump will stop whenever the irrigation pump stops;
- * an inspection port between the irrigation pump and the check valve on the irrigation line;

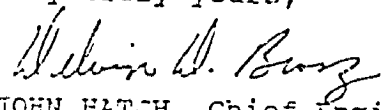

Each of these equipment requirements are discussed more thoroughly in Sections 74:02:09:05 through 74:02:09:10 of the enclosed rules. Appendix A contains diagrams of the arrangements of these anti-pollution devices.

The equipment must be installed according to the manufacturer's specifications, calibrated, and maintained in good working condition. All chemical product labels must be followed and warning signs must be posted. These rules also require reporting of all spills, accidents, and system malfunctions. A 24-hour telephone number is provided.

The chemigation rules contain notification and record keeping requirements. Prior to using chemigation, notification must be given to the Chief Engineer on the enclosed Form 1C. Information that must be provided in this notification includes the water permit or right number, the name, address, and telephone number of the water permit or right holder and of the system operator, and the legal description of the lands on which the system is located. A record of the name, quantity, dates and hours of each chemical applied must be provided to the Chief Engineer on Form 2C. A copy of this form is also enclosed for your information. It will be mailed with the annual irrigation questionnaire and must be returned with the questionnaire by the date specified. If you have any questions regarding these rules or need additional copies of the forms, please contact Susan Bowar, Water Rights Engineer (605-773-3352).

Dear Mr. Reagle:

Enclosed are partially completed "Notice of Transfer" forms for use in filing an ownership change on Water Right Nos. 898-2 and 1330-2. You indicated on the 1991 irrigation questionnaires that the water rights should no longer be listed under Arthur Reagle.

The transfer forms should be checked over for accuracy and signed in the presence of a notary public. Upon completion, return the forms to our office with a required filing fee of \$2.50 each (total of \$5.00).

South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a water permit or water right to appropriate water to be filed with this office within ninety days.

(Notary Public)

My Commission Expires 8/8/98

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a water right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit./right.

SUBJECT: Reporting Requirement for 2000 Irrigation Questionnaires

Our records indicate that the 2000 Irrigation Questionnaire has not been submitted for Permit Nos. 898-2 & 1330-2. The request for the Questionnaire was dated October 20, 2000. The Water Management Board has directed that owners of water permits who have not submitted the 2000 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning this issue.

The hearing will be held at 10:00 am, March 7, 2001, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit Nos. 898-2 & 1330-2 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before March 2, 2001, your name will be deleted from the Board agenda. If you have any questions or need assistance with completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.
