TO: Chief Engineer, Division of Water Rights, DENR, Foss Bldg , Pierre, SD 57501

I have this day, December 4, 1995 made a thorough examination of the water use system owned by Wesley Harrison of HC 83, Hermosa, SD 57744 holder of Location Notice No. 1420-2, bearing the priority of December 14, 1949 authorizing storage of 3 acre-ft of the waters of an unnamed dry draw for irrigation and livestock purposes, in Pennington County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

The dam is no longer used for irrigation purposes.

B. Works used to transport water to place of use:

No longer used.

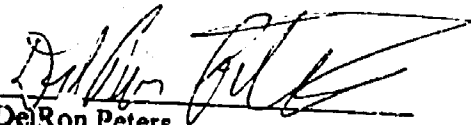

C. Works used to apply water to beneficial use:

The dam is used for stock watering purposes only.

The dam is in the following condition, good. The storage dam is located in the NE 1/4 of the NE 1/4 Sec. 24-T2S-R9E; 790 ft. south and 270 ft west of the NE Corner of Sec. 24-T2S-R9E. The works are not capable of diverting and conveying water. The storage capacity of the dam is approximately 3 acre-feet of water which is to be used for stock watering. Water has been put to beneficial use as stock watering.

In accordance with South Dakota Codified Law (SDCL) 74:02:01:40.01, the license should be issued for 3.0 acre-feet of storage as a stock water domestic use location notice filing.

Subject: Change in use of a irrigation diversion dam for Location Notice No. 1420-2, Wesley Harrison.

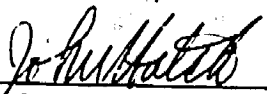

An inspection of Location Notice No. 1420-2 found that the cancellation of the irrigation portion of location notice and retaining the stockwater portion for stockwater only does not impair other water rights or domestic use. SDCL 46-5-31.1 provides that a diversion dam may be utilized for stock watering if permitted irrigation use from a storage dam is abandoned or forfeited without application or publication of a notice of hearing if no diversion is made from the stock dam and does not increase the potential for impairment with existing water rights.

Location Notice No. 1420-2 has a priority date of December 14, 1949 and is located in the NE 1/4 NE 1/4 Section 24 T2S-R9E.

No adverse effects or interference with existing water rights are expected. The change in use of the dam covered by Location Notice No. 1420-2 with a December 14, 1949 priority date can be approved.

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
