Permit No. LN 311-28

Water District

Report Of Examination Of Works And/Or Application Of Water To Beneficial Use

TO: Chief Engineer, Division of Water Rights, DWRN, Foss Bldg., Pierre, SD 57501

I have this day made a thorough examination of the water use system constructed by USDA - Forest Service of Star Rt. Box 200, Hot Springs, SD 57747 holder of Permit No. LN 311-28 bearing the priority of December 2, 1910 authorizing the diversion of 13 cu. ft. per second of the waters of Little Cottonwood Creek for irrigation purposes in Fall River County.

I have to report on the condition of the same as follows:

A. Works used to divert the water: Dikes constructed across the creek channelB. Works used to transport water to place of use: water is diverted by the dikes into a delivery canal.C. Works used to apply water to beneficial use: The canals contain pipe outlets that release water onto the grassland. The water also flows out the end of the canal onto the field. This is a water spreading system.The system is in the following condition FairThe point of diversion is located Point #1 - N42°W, 3170 ft; Point #2 - N06°E, 2310 ft; Point #3 - S17°W, 2510 ft and Point #4 - S33°E, 2970 ft all from the NE corner of Section 18, T10S, R1E.The works are capable of diverting and conveying to the place of use 15cu. ft. per second of water which is to be used for irrigationWater has been put to beneficial use to the maximum extent as follows. all in T10S, R1ENE & SE, Section 7 - 3 acresSE & SE, " " - 34 acresSW & SW, Section 8 - 25 acrescomprising a total of 62 acres of land and the license should be issued for 0.89 cfsApplicable permit qualifications have been complied with ☒ Yes ☐ No

Exceptions to compliance are:

Dear Sir:

Enclosed is Location Notice Water License No. 311-7B. As long as the water is used beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

NOTICE

TO: USDA Forest Service
HCR 52 BOX 200
HOT SPRINGS, SD 57742

FROM: *for Del Brosz* JOHN HATCH, CHIEF ENGINEER
Water Rights Division
(605)773-3352

SUBJECT: Low Water Levels in Angostura Reservoir

The water level in Angostura Reservoir on March 6, 1990 was at 3171.1 feet above mean sea level (msl). This is approximately 16 feet below the full elevation of 3187.2 msl. The present estimates are that the Angostura Irrigation District will be able to deliver less than 50% of full service water to project lands during the 1990 irrigation season. We are contacting you to advise you of the actions we have taken due to the low water situation in Angostura Reservoir. Junior Water Right owners above Angostura have been ordered not to use water until Angostura fills.

Since your Water Right No. 1975-2 and Location Notice No. 311-2B have priority dates that are senior to the April 11, 1941 priority for Angostura Irrigation Water Right No. 579-2, your permit is not directly affected by the Junior Priority Order. However, I am requesting that all Senior Water Right holders comply with any qualifications and limitations as stated on their water rights. With the existing low runoff conditions, we expect to monitor all water rights above Angostura Reservoir.

I want to thank all Water Right Holders above Angostura for the cooperation that we have received up to this time. If you have any questions, please contact Del Brosz (605 773-3352).
