SUBJECT: Low Water Levels in Angostura Reservoir

The water level in Angostura Reservoir on March 6, 1990 was at 3171.1 feet above mean sea level (msl). This is approximately 16 feet below the full elevation of 3187.2 msl. The present estimates are that the Angostura Irrigation District will be able to deliver less than 50% of full service water to project lands during the 1990 irrigation season. We are contacting you to advise you of the actions we have taken due to the low water situation in Angostura Reservoir. Junior Water Right owners above Angostura have been ordered not to use water until Angostura fills.

Since your Water Location Notice Nos. 460-2 and 591-2 have priority dates that are senior to the April 11, 1941 priority for Angostura Irrigation Water Right No. 579-2, your permits are not directly affected by the Junior Priority Order. However, I am requesting that all Senior Water Right holders comply with any qualifications and limitations as stated on their water right. With the existing low runoff conditions, we expect to monitor all water rights above Angostura Reservoir.

I want to thank all Water Right Holders above Angostura for the cooperation that we have received up to this time. If you have any questions, please contact Del Brosz (605 773-3352).

RE: HU RANCH, INC. (MILLER)

Dear Ms. McMath:

Thank you for your letter dated June 4, 1990 and the enclosed Notice of Transfer of Ownership documents. We have had some confusion over the correct number for the water permit. The purpose for the transfer is to place it within a family farm corporation. In my original letter I requested copies of Water Rights Nos. 591-2 and 1593-2 and Vested Water Right Claim No. 460-2. In the documents mailed to me it appears that Water License No. 460-2 is held by a Willard Bloom of Pennington County and No. 591-2 is held by a company doing business as Estes Water Company. It appears that Water License No. 1593-2 is held by Mason Miller, one of the incorporators of HU Ranch, Inc. Thus, I have prepared a Notice of Transfer of Ownership using that number. I am concerned, however, by a letter received by Mr. Miller dated March 23, 1990, which refers to Water Location Notice Nos. 460-2 and 591-2. I am enclosing a copy of that letter for your reference. The Millers wish to transfer all of their water rights to the corporation as they have deeded all of their land into the corporation.

Any assistance you can give us in making sure we have all of the water rights transferred to the corporation would be appreciated. If we need additional forms signed, please let me know. I still have two blank forms which you mailed to me.

I am also enclosing a transfer fee in the amount of \$2.50 as required.

Thank you very much.

Sincerely,

Dear Ms. Farrell:

Enclosed are the two "Notice of Transfer of Ownership" forms you submitted and a "new" set of forms. We have discontinued using forms you submitted. The new forms contain the same information, however have been modified to include a section on validity of water permits and/or rights.

Please complete the enclosed forms and return them to our office. Additional filing fees will not be necessary. The transfer forms need to be signed in the presence of a notary public by the new owner. In your letter of July 11, 1990, you indicated Mason Miller was one of the incorporators of HU Ranch Inc. His signature on the transfer forms should include this type of notation.

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a water right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
