Dear Ms. King:

I have received your "Notice of Transfer of Ownership" form and the required fees. Enclosed is a receipt of payment for your records and a copy of the original Water Right.

Water Right No. 1295-3 previously owned by Eldon Lindquist is now listed under yourself. I have also updated your contact information in our system.

As a reminder, so long as you use the water beneficially, as stated in the Water Right, State Water Laws provide that you have a continuing right to use the water. Should the water not be put to beneficial use for a period longer than 3 consecutive years, without legal excuse, the Water Right will be subject to cancellation.

If you have any questions, please contact me.

Sincerely,

Amanda Dewell

I/We understand that the validity of Water Right No. 1295-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
