REPORT ON WATER PERMIT APPLICATION NO. 1440A-3

FARMERS & MERCHANTS BANK

February 28, 1984

Water Permit Application No. 1440A-3 is to change the stated use of Water Right No. 1440-3 from irrigation to domestic (mobile home park) and to change the annual period of use from April 1 thru November 1 to January 1 thru December 31. Water Right No. 1440-3 was licensed June 9, 1972 for 0.27 cubic feet per second from 2 wells located in NE 1/4 NE 1/4, Section 14, T110N, R62W to irrigate 40 acres. The two wells withdraw water from the Warren Aquifer-West James Management Unit which is under artesian conditions throughout its delineated area.

Water Right No. 1440-3 as licensed would allow a maximum annual withdrawal of 120 acre feet from the two wells. If this application is approved and the annual period of use extended the maximum withdrawal would remain 120 acre feet.

Conclusions

1. Water is available as this is simply a change in use of an existing licensed permit.
2. The maximum annual withdrawal allowed would be 120 acre feet.
3. Existing rights will not be adversely affected.

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a water right. A water right may be lost for three reasons:
1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

RE: Licensing of Permit No. 1440A-3

Dear Mr. Thompson:

I am waiting for well information from Huron Drilling Inc. in order to proceed with the licensing of Water Right Permit No. 1440A-3.

I contacted Huron Drilling on December 11, 1991, but have received no information to date. If you could get the well logs from them and forward to me, or get them to send me the well logs themselves, I could finalize my inspection report and proceed with licensing.

Any information on the wells and distribution system would be helpful.

If you have any questions, please feel free to contact me.

Sincerely,

RE: Well Logs

Dear Mr. Osberg:

I have contacted your company requesting well logs on Water Permit Nos. 1440A-3, 2247-3 and 4248-3 and have received no information to date.

The following should give you enough information to check your files.

1440A-3: Jon Thompson, Prairie Villa Mobile Home Park, Huron, SD. Two wells located in NE1/4 NE1/4 Sec. 14, T110N, R62W.

2247-3: Ronald Marone, P.O. Box 33, Cavour, SD. Two wells in NW1/4, 4248-3: NW1/4 and one well in NW1/4 SW1/4 of Sec. 11, T109, R61W.

I would appreciate a response as soon as possible, as I cannot license these permits until receiving the well information.

If you have any questions, please feel free to contact me.

Sincerely,

Dear Mr. Thompson:

The inspection of your water use system and the inspection of the extent of application of water to beneficial use, as developed under Water Permit No. 1440A-3, has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the \$50.00 fee from you, we will begin processing your Water License.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the \$50.00 license fee has been paid. Please contact us if you have any questions.

Sincerely,

Genny McHath
Natural Resources Analyst

NOTE: On check or money order, please specify your permit number. This will insure proper handling of the fee.

Dear Mr. Thompson:

Enclosed is Water License No. 1440A-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 413233 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 1440A-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valued and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
