RE: Cancellation of Water Permit No. 3766-3 due to abandonment/forfeiture

COMMENTS:

On May 19, 1988, a field inspection of Water Permit Nos. 1480-3 and 3766-3 was conducted for licensing purposes. The field inspection found that Water Permit No. 1480-3 had been developed, and water was being put to beneficial use as specified under the Water Permit (see Water License No. 1480-3). The field inspection also found that a well had been drilled under Water Permit No. 3766-3, however, development under this permit had not occurred. The well was not capable of supplying an adequate water supply so the well was abandoned.

On May 19, 1988, Gordon Bainbridge indicated that Water Permit No. 1480-3 was already licensed by Burton Jones, Division Engineer, during an earlier inspection of Water Permit No. 1480-3. A check of the Division's files indicates that Burton Jones probably did conduct a field inspection of the permit. However, no license was issued for Water Permit No. 1480-3.

On February 20, 1990, I talked with Gordon Bainbridge via telephone concerning Water Permit Nos. 1480-3 and 3766-3. Mr. Bainbridge again indicated that no development had occurred under Water Permit No. 3766-3. I told him the Division had no record of a water license being issued for Water Permit No. 1480-3. I indicated to him that Water Permit No. 3766-3 was subject to cancellation due to forfeiture/abandonment.

Pursuant to SDCL 46-5-36 thru 46-5-37.2, Water Permit No. 3766-3 should be scheduled for cancellation due to abandonment/forfeiture. File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Dear Mr. Bainbridge:

The inspection of your water use system and the inspection of the extent of the application of water to beneficial use, as developed under your Water Permit No. 1480-3 has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the \$50.00 fee from you, we will begin processing your Water License.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until this \$50.00 license fee has been paid. Please contact us if you have any questions.

Dear Mr. Bainbridge:

Enclosed is Water License No. 1480-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 412177 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 1480-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

Dear Mr. Bainbridge:

I am contacting you in regard to ownership of land described in Water Right No. 1480-3. A notation was made on the 2014 irrigation questionnaire submitted by Lewis & Charlene Bainbridge that ownership is being changed over to you.

Enclosed is a partially completed Notice of Transfer of Ownership form for filing an ownership change. Please review the form and make any necessary corrections. Upon completion, please sign the form and return it to our office with a required filing fee of \$50.00. The check or money order for the fee can be made payable to the Water Rights Program.

I have also included a copy of the water right to give you an idea what is authorized for irrigation. You may keep this for your records.

If you have any questions about the water right or completion of the transfer form, please let me know.

Sincerely,

Genny McMath

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
