STATE OF SOUTH DAKOTA
REISSUED
WATER LICENSE NO. 1523-3

(1) Riverside Colony, 40361 200th St, Huron SD 57350 was issued Water License No. 1523-3, December 10, 1968 for a water right to divert 2.2 cubic feet of water per second (cfs) from groundwater, Beadle County, South Dakota for irrigation purposes. Permit No. 1523-3, with a priority date of February 20, 1968 was issued to the applicant for diversion of water with construction of the described water supply system and for the application to beneficial use of water completed.

On March 21, 2011, the Chief Engineer, on behalf of the Water Management Board issued Water Permit No. 4622A-3. Water Permit No. 4622A-3 severed acreage and diversion authority authorized by Water Permit No. 4622-3 and a portion of Water Right No. 1523-3. Water License No. 1523-3 is being reissued to reflect this change.

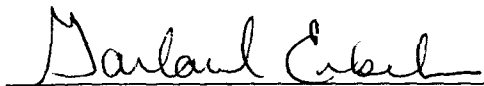

(2) The water supply system has been completed and water applied to beneficial use in accordance with South Dakota State Law. Pursuant to South Dakota Codified Law 46-5-30.1, the holder and/or owner of Reissued Water Right No. 1523-3 is issued a license, bearing a priority date of February 20, 1968 to appropriate 1.71 cubic feet of water per second from groundwater (one well) to irrigate 131 acres.

The diversion point is located: approximate center of the SW ¼ Section 21-T112N-R61W. The acres authorized for irrigation are as follows:

131 acres located in the SW ¼ Section 21-T112N-R61W

(3) This license is subject to South Dakota Water Law, any limitations or conditions listed in Water License No. 1523-3 including the following now applicable qualification:

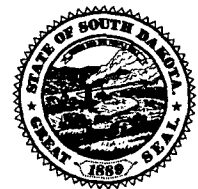

- The well granted under this license is located near domestic wells and other irrigation wells which may obtain water from the same aquifer. If the well covered by this license depletes the domestic supplies or interferes with prior water rights, restrictions, to the extent necessary, or the capacity of the well or periods of operation or other arrangements will be required to protect these water supplies.

Dear Mr. Waldner:

Enclosed is Water Permit No. 4622A-3 and Reissued Water License No. 1523-3. Water Permit No. 4622A-3 authorizes construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit. Reissued Water License No. 1523-3 reflects a reduction in acreage and diversion authority based on approval of Permit No. 4622A-3.

A Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, is enclosed. Please return this completed form after you have finished the system and have put the water to beneficial use. An investigation can then be scheduled so the water license may be issued, thus completing the acquisition of a water right.
