Enclosed are the partially completed application forms for obtaining a Water Permit to irrigate the E1/2 NE1/4 Section 8, T98N R53W, Turner County. As I indicated to you over the telephone, a water permit does not exist for these lands. If you wish to continue to irrigate these lands, please fill out the application forms following the instruction sheet and return the application to this office. As required by statute, a \$225 fee must accompany the application.

We also talked about whether the well (Vested Water Right No. 157-3) in the NE1/4 SE1/4 Section 5, T98N R53W has been used to irrigate land in the W1/2 NE1/4 Section 8, T98N R53W. Water Right No. 157-3 does allow irrigation of the E1/2 SE1/4 Section 5 and the W1/2 NE1/4 Section 8, T98N R53W.

Please let me know how long it has been since the W1/2 NE1/4 Section 8 has been irrigated from the well in the NE1/4 SE1/4 Section 5. It is important to know the history of water use because the lands in question may have been forfeited due to nonuse.

Any information you could give me concerning of the irrigation wells located in the SW1/4 Section 4, NE1/4 SE1/4 Section 5, and the W1/2 NE1/4 Section 8, T98N R53W would be appreciated. If you know who drilled the wells, well depth, casing size, screen type and length, or where well logs might be obtained, please forward that information to me. This information would be used while validating your vested water rights and issuing water licenses to you.

If you have any questions, please feel free to give me a call.

The Water Management Board has directed that owners of water permits who have not submitted the 1992 Irrigation Questionnaire be given notice of permit violation and a hearing to be held by the Board. The hearing held by the Board will determine the action to be taken for violation of Water Permit No(s) 156-3, 157-3, 164-3 & 1878-3 qualification:

According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law. Prior to February 22, 1993, contact the Water Rights Division, 523 E Capitol, Pierre SD 57501-3181 (605 773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Dear Mr. Flyger:

I am writing in response to your recent letter regarding ownership of various water rights/permits listed in Marene Flyger and Flyger Life Estate. Enclosed are partially completed "Notice of Transfer of Ownership" forms for use in filing transfers on Vested Right Claim Nos. 156-3 and 157-3, Water Right No. 180-3 and Water Permit No. 1878-3.

Please review the forms for accuracy and make any necessary corrections. Upon completion, please sign the forms in the presence of a notary public and return them to our office with a required filing fee of \$2.50 each (total of \$10.00).

You indicated on your questionnaires that No. 165-3 and 1584-3 should be left as "Curt Adrian, Mgr". Mr. Adrian receives the questionnaires as "manager" and not that of owner. On the "1994" questionnaires, Mr. Adrian stated he no longer farmed the land. Water Right Nos. 165-3 and 1584-3, both listed in the name of Merle Flyger, cover irrigation of land in the NE 1/4 Section 12, T98N, R53W. I will contact Merle Flyger concerning the status of these.

If you have any questions concerning completion of the transfer forms, please contact me.

Sincerely,

Dear Mr. Flyger:

A review of your water rights indicates that Vested Right Claim Nos. 156-3 and 157-3 have not been validated by the Water Management Board. It appears that these claims were investigated in September, 1992 by Greg Johnston, staff engineer. Due to an error on our part, the validation of the claims did not occur at that time. Therefore, we are scheduling the validation for the September, 1999 Water Management Board meeting. As stated in the Notice, the Water Rights staff is recommending that the claims be validated based on the results of the staff investigation.

Claim No. 156-3 is for irrigation of the SW ¼ Section 4-T98N-R53W. Claim No. 157-3 is for irrigation of the E ½ SE ¼ Section 5-T98N-R53W. After the claims have been validated, the water licenses will be reissued. The water license for Water Right No. 291-3 for irrigation of the W ½ NE ¼ Section 8-T98N-R53W will also be reissued (this right does not need to be validated).

Mr. Flyger, I realize the validation process may be confusing. If you have any questions, please contact Karen Schlaak (605) 773-3352.

NOTICE

TO: Craig Flyger
27964 454th Ave
Parker SD 57053

FROM: John Hatch, Chief Engineer
Water Rights Program
605 773-3352

SUBJECT: Hearing to Consider Validation of Recognized Vested Right Claim Nos. 156-3 & 157-3

A Notice of Intent to validate Claim Nos. 156-3 & 157-3 was published on June 23 & 30, 1988 in the New Era. The Water Rights Program opposed the validations for purposes of completing an on-site investigation of the claims. The investigation of Claim No. 156-3 & 157-3 was completed on September 9, 1992, by Greg Johnston, staff engineer.

The investigation of No. 156-3 found that the number of acres being irrigated has been reduced from 160 acres to 115 acres. The diversion rate is to be reduced, accordingly, from 2.28 cubic feet of water per second (cfs) to 1.64 cfs. This reduced diversion rate is based on the statutory application rate of 1 cfs per 70 acres ($115 \text{ acres}/70 = 1.64 \text{ cfs}$).

The investigation of No. 157-3 found that the number of acres being irrigated has been reduced from 160 acres to 54 acres. The diversion rate is to be reduced, accordingly, from 2.28 cubic feet of water per second (cfs) to 0.77 cfs. This reduced diversion rate is based on the statutory application rate of 1 cfs per 70 acres ($54 \text{ acres}/70 = 0.77 \text{ cfs}$).

The Water Management Board will consider validation of Claim Nos. 156-1 & 157-3 at 1:30 pm, September 29, 1999, in the Floyd Matthews Training Center, Joe Foss Building, 523 E Capitol, Pierre SD. The agenda time is an estimate. The actual time of the hearing may be later than 1:30 pm due to prior agenda items.

Pursuant to the findings of the on-site investigation, validation of No. 156-3 is recommended for a diversion rate of 1.64 cfs from groundwater to irrigate 115 acres with a priority date of June 1, 1955. Validation of No. 157-3 is recommended for a diversion rate of 0.77 cfs from groundwater to irrigate 54 acres with a priority date of June 1, 1955. Following the hearing, the Board is authorized to 1) validate the claims as recommended, 2) validate the claims as licensed prior to the on-site investigation, 3) validate the claims based on evidence presented at the public hearing, or 4) defer validation of the claims. Applicable provisions of the published notice of intent to validate Claim Nos. 156-3 & 157-3 will still apply at this hearing. A copy of the June 23 & 30, 1988, publication is available upon request.

This hearing is an adversary proceeding. You have the right to be represented by a lawyer. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. Contact Karen Schlaak by September 17, 1999 at the above Water Rights Program address to assure access to the hearing by the handicapped or to obtain an interpreter for the hearing impaired.

ADDRESS: COUNTY: Turner

DATE: September 15, 1999 TELEPHONE:

RE: Validation of Recognized Vested Water Right Nos. 156-3 and 157-3

COMMENTS:

These two recognized vested water rights are scheduled for validation before the Water Management Board on September 29, 1999. These rights have a priority date of June 1, 1955 for irrigation. The applications were filed on April 13, 1956.

It appears that in 1956 these two claims were accepted as recognized vested water rights filings with the Water Rights. Upon review of SDCL 46-1-9 the water would have needed to be engaged in construction of works on or before March 2, 1955 to be eligible for vested status. It should not be possible for a vested water right to have a June 1, 1955 priority. In fact, the applications when filed should have been treated as new applications and public noticed. This was not done.

We surmise that the reason the applications were filed as recognized vested rights is due to the fact that SDCL 46-1-9 was enacted by the Legislature in the 1955 winter session of the Legislature. Often laws then do not become effective until July 1 of that year. Since this system was developed in the interim between the end of the legislative session and July 1st of that year, the applications were treated as recognized vested water rights and ultimately licensed. When in reality the riparian owner would have to have been engaged in the construction of works on March 2, 1955 for them to have been eligible for vested status. It is possible that the riparian owner was engaged in construction of works prior to March 2, 1955 but there is nothing in the file that reflects construction had begun by then.

However, the fact remains that Nos. 156-3 and 157-3 were filed as recognized vested water rights and the Chief Engineer J. W. Grimes issued a water license on May 24, 1956. SDCL 46-5-4.1 stated that any license issued prior to January 1, 1983, by the chief engineer of the water management board is hereby cured, legalized and validated as fully as if the license had been issued in full compliance with all existing provisions of this title. For this reason, Nos. 156-3 and 157-3 were treated as recognized vested water rights and in accordance with SDCL 46-2A-16 thru 17 were advertised and brought before the Board for validation.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Dear Mr. Flyger:

I am writing to acknowledge receipt of your 2002 irrigation questionnaires. You may disregard the January 17, 2003, "Notice" concerning reporting requirements for Water Right Nos. 156-3, 157-3, 164-3, 180-3 and 291-3.

The information was received (from Paul Petersen) prior to the Water Management Board meeting and your name has been deleted from the agenda.

It is our understanding that Paul has rented the land described in your water rights. Future irrigation questionnaires will be directed to his attention until we are told otherwise. This does not alter ownership of the water rights; it merely allows us to send the forms to the person responsible for the irrigation of the land.

If you have any questions, please contact me.

Dear Mr. Flyger:

I am writing in regard to the above listed water rights held by Craig Flyger. Craig indicated that Paul Petersen no longer rents his land and that I should be sending correspondence to you.

For informational purposes, I have included a copy of Water Right Nos. 156-3, 157-3, 180-3 & 291-3 for your records to show you what is covered under each one. Also included are the 2018 irrigation questionnaires for Nos. 180-3 and 291-3 submitted by Mr. Petersen. This will give you an idea of how to fill out the forms and what type of information to keep track of during the irrigation season.

The irrigation questionnaires are typically mailed out in mid to late October and are due back the first week in December. The forms for 2019 will be sent directly to you. If you have any questions when completing them, please do not hesitate to call me.
