Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/o: that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 16.32-3

Water Right Permit No. 16.32-3 states that the diversion system is to be constructed by MARCH 17, 1978 and that the water is to be put to beneficial use by MARCH 17, 78, 1978.

The diversion system was completed on 2-25-, 1978. Applying the water to beneficial use was completed on 2-25-, 1978. *System will be installed by spring 1978*

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

Well was dug by Chas Mulling C. Censworth, Inc. (completed) on 2-25-77. I think we got an excellent well. Well test pumped at 1500 GPM. Water level dropped to 75 ft and stayed there during pumping. The system will be completed & operable for the 1978 crop year.

Yours truly,
Clifford H. Hansen

Dear Mr. Wiechmann:

Enclosed is Water License No. 5176-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 414139 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5176-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,
