**SOUTH DAKOTA
WATER PERMIT NO. 1724A-3**

Date of first receipt of application April 3, 2012.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 1724A-3 to Camrose Hutterian Brethren, 16950 400th St, Frankfort SD 57440 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 1724A-3 amends Water Right No. 1724-3 by transferring the irrigated acreage and point of diversion to other lands. Water Right No. 1724-3 appropriates 1.78 cubic feet of water per second from one well located in the center of the SE 1/4 Section 17 for irrigation of 128 acres located in the SE 1/4 Section 17; all in T115N-R61W. This permit moves the center pivot approximately 12 miles north with the well to be located in the center of the SW 1/4 Section 19 to irrigate 128 acres located in the SW 1/4 Section 19; all in T117N-R61W. The water source for this irrigation system is the Tulare:East James Aquifer and no increase in the diversion rate or number of acres irrigated is authorized by this permit.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: April 1 – October 31.
3. The date from which applicant may claim right is February 4, 1970.
4. The date of approval of Permit No. 1724A-3 is June 11, 2012.
5. One-fifth of the construction is to be completed on or before December 11, 2014.
6. All construction is to be completed on or before June 11, 2017.
7. Water is to be put to beneficial use on or before June 11, 2021.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

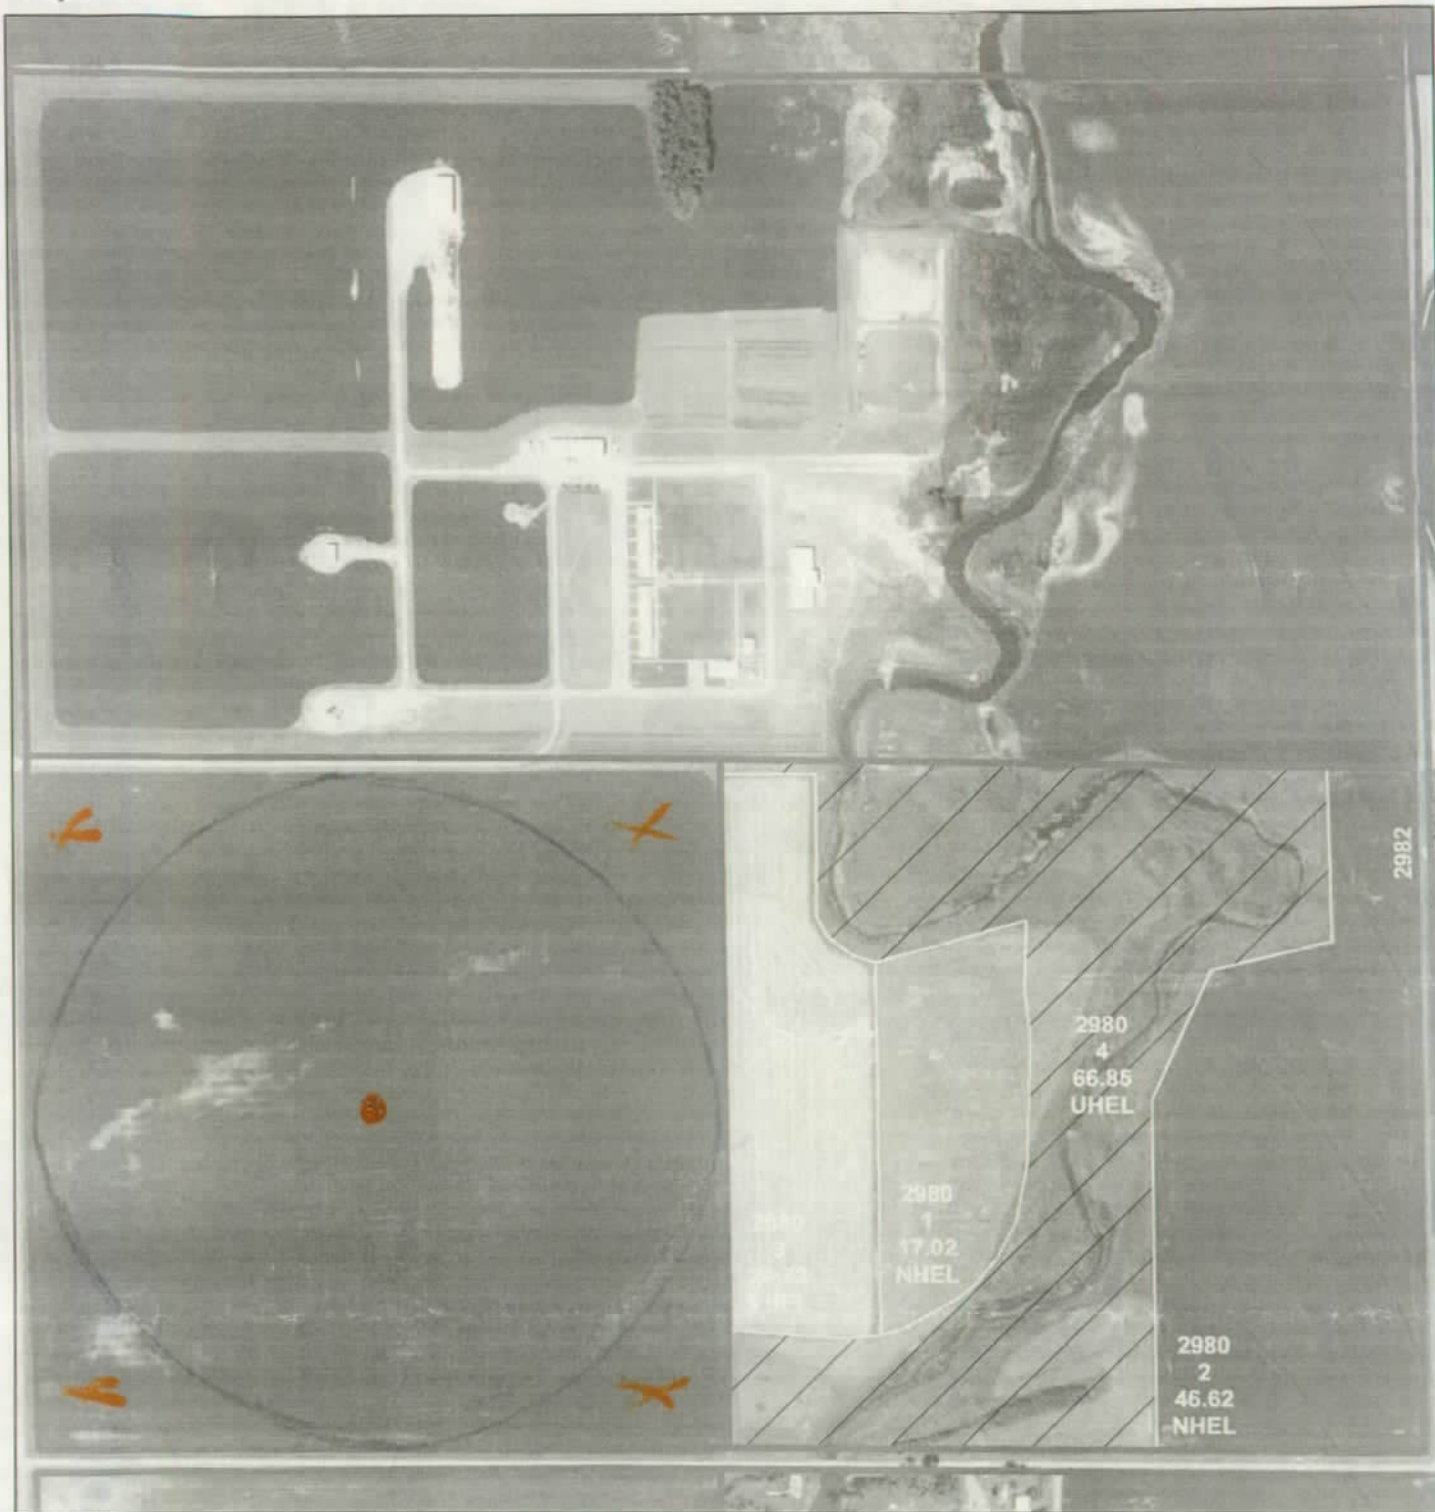

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 1724A-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.
4. The well authorized by Water Right No. 1724-3 located in the center of the SE ¼ Section 17, T115N, R61W may be temporarily abandoned by sealing the top of the casing with a watertight cap pursuant to Water Management Board Rule (ARSD 74:02:04:70.01). If this well is permanently abandoned it shall be plugged in accordance with Water Management Board Rules, Chapter 74:02:04.

RE: Pending application

COMMENTS:

Eric Gronlund called Jerry Kleinsasser and clarified the amount of water claimed and the number of acres which could be transferred to this application for Water Right No. 1724-3.

Mr. Kleinsasser stated the application should be changed to request 1.78 cfs and 128 acres.

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 1724A-3, Camrose Hutterian Brethren**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 1724A-3, Camrose Hutterian Brethren, c/o Jerry Kleinsasser, 16950 400th Street, Frankfort SD 57440.

The Chief Engineer is recommending APPROVAL of Application No. 1724A-3 because 1) the proposed diversion can be developed without unlawful impairment of existing rights, 2) the proposed use is a beneficial use and 3) it is in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 1724A-3-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.
4. The well authorized by Water Right No. 1724-3 located in the center of the SE ¼ Section 17, T115N, R61W may be temporarily abandoned by sealing the top of the casing with a watertight cap pursuant to Water Management Board Rule (ARSD 74:02:04:70.01). If this well is permanently abandoned it shall be plugged in accordance with Water Management Board Rules, Chapter 74:02:04.

See report on application for additional information.

Garland Erbele, Chief Engineer
May 15, 2012

REPORT TO THE CHIEF ENGINEER
ON
WATER PERMIT APPLICATION NO. 1724A-3
CAMROSE HUTTERIAN BRETHREN
MAY 5, 2012

Water Permit Application No. 1724A-3 proposes to amend Water Right No. 1724-3 by transferring both the diversion point and irrigated acreage authorized by the water right to a new location approximately 12 miles to the north. Water Right No. 1724-3 authorizes a maximum diversion rate of 1.78 cubic feet of water per second from one well located in the center of the SE $\frac{1}{4}$ Section 17, T115N-R61W to irrigate 128 acres located in the SE $\frac{1}{4}$ Section 17, T115N-R61W. Water Permit Application No. 1724A-3 proposes to change the diversion point authorized by Water Right No. 1724-3 to the SW $\frac{1}{4}$ Section 19, T117N-R61W. This amendment also proposes to change the acreage authorized for irrigation to 128 acres located in the SW $\frac{1}{4}$ Section 19, T117N-R61W. The water source for this irrigation system is the East James management unit of the Tulare aquifer. Approval of this amendment will not increase the appropriation from this aquifer.

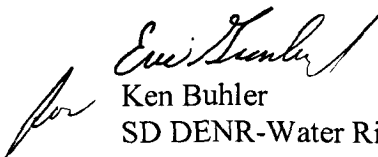

SDCL 46-5-3.4 allows:

“if for any reason it should become impracticable to use all or any part of the water beneficially or economically for irrigation of any land to which the right of its use is appurtenant, all or any part of the right may be severed from the land and simultaneously transferred and become appurtenant to other land without losing priority of right previously established, subject to existing rights, upon approval of an application for an amended permit. No increase in total acres irrigated may be allowed under this section.”

EXISTING WATER RIGHTS:

The existing water rights/permits in the vicinity of the well site proposed by Application No. 1724A-3 are shown in table 1 and in figure 1. Note: both the table and the figure include locations of denied, withdrawn applications along with permits, rights and incorporated permits.

The DENR-Water Rights Program monitors three observation wells in the vicinity of the well site proposed by this application (see figure 1). The hydrographs for the observation wells are shown in figures 2-4. The hydrographs document that drawdown from nearby irrigation wells does not have a significant effect on water levels in the observation wells. Consequently, drawdown from the well site proposed by this application is not expected to cause significant interference in nearby wells and approving this application should not have an adverse effect on existing water rights due to the distances involved.

NOTICE OF APPLICATION NO. 1724A-3

Notice is given that Camrose Hutterian Brethren, c/o Jerry Kleinsasser, 16950 400th St, Frankfort SD 57440 has filed an application which requests to amend Water Right No. 1724-3 by transferring the irrigated acreage and point of diversion to other lands. Water Right No. 1724-3 appropriates 1.78 cubic feet of water per second from one well located in the center of the SE 1/4 Section 17 for irrigation of 128 acres located in the SE 1/4 Section 17; all in T115N-R61W. This application proposes to move the center pivot approximately 12 miles north with the well to be located in the center of the SW 1/4 Section 19 to irrigate 128 acres located in the SW 1/4 Section 19; all in T117N-R61W. The water source for this irrigation system is the Tulare-East James Aquifer and no increase in the diversion rate or number of acres irrigated is authorized by this application.

State Law (SDCL 46-5-34) allows an irrigation water right to be severed from one parcel of land and simultaneously transferred to another parcel if it becomes impracticable to use all or any part of the water beneficially or economically for irrigation on the current land. Mr. Kleinsasser indicates justification for this change is the land is better suited for irrigation.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1724A-3 because 1) existing rights will not be unlawfully impaired, 2) it is a beneficial use of water, and 3) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on this application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the Chief Engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

tion.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by June 11, 2012.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application.

ATTENTION: Legal Public Notice

Enclosed is a Notice on Application No. 1724A-3 to Appropriate Water to be published twice. Please publish the first notice on May 23, 2012 with the second publication 7 days later. The text of the notice can be e-mailed to your paper by contacting Karen Schlaak at (605) 773-3352.

The applicant must verify to you that the notice is to be published, before you make the first publication. **Please BILL the APPLICANT for the cost of publication.** The APPLICANT is Camrose Hutterian Brethren, c/o Jerry Kleinsasser, 16950 400th St. Frankfort SD 57440 (Ph # 605-460-0010).

Please send the Water Rights Program the first publication immediately. The publication is checked for accuracy so any corrections can be made in the second publication. You may use the form below or fax a copy of the first publication. Any fax should be sent to the attention of Karen Schlaak at (605) 773-4068. Publication errors can invalidate the public notice.

After the second publication, **please send us an affidavit or use the enclosed Proof of Publication form.** The applicant pays the cost of publication, but the Water Rights Program records require an affidavit or Proof of Publication. Delays in receiving the affidavit can be costly to the applicant.

Sincerely,

Eric Gronlund
Natural Resources Engineer

Dear Mr. Kleinsasser:

Water Permit Application No. 1724A-3 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice has been sent to the Publisher of the Redfield Press printed at Redfield SD (Ph # 605-472-0822). You will need to contact the newspaper and authorize publication of this notice. For your information, a copy of the notice, the recommendation of the Chief Engineer and report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice and to arrange for payment. Early contact with the paper can eliminate delays. Upon receiving authorization, the publisher has been instructed to publish your notice once each week for two consecutive weeks. The newspaper has also been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the applications.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Instruction to Newspaper - Publish first Notice on May 23, 2012 with the second publication 7 days later. The applicant is responsible for payment. The text of the notice can be e-mailed to your paper by contacting Karen Schlaak at (605) 773-3352 or email: Karen.schlaak@state.sd.us.

NOTICE OF APPLICATION NO. 1724A-3

Notice is given that Camrose Hutterian Brethren, c/o Jerry Kleinsasser, 16950 400th St, Frankfort SD 57440 has filed an application which requests to amend Water Right No. 1724-3 by transferring the irrigated acreage and point of diversion to other lands. Water Right No. 1724-3 appropriates 1.78 cubic feet of water per second from one well located in the center of the SE ¼ Section 17 for irrigation of 128 acres located in the SE ¼ Section 17; all in T115N-R61W. This application proposes to move the center pivot approximately 12 miles north with the well to be located in the center of the SW ¼ Section 19 to irrigate 128 acres located in the SW ¼ Section 19; all in T117N-R61W. The water source for this irrigation system is the Tulare:East James Aquifer and no increase in the diversion rate or number of acres irrigated is authorized by this application.

State Law (SDCL 46-5-34) allows an irrigation water right to be severed from one parcel of land and simultaneously transferred to another parcel if it becomes impracticable to use all or any part of the water beneficially or economically for irrigation on the current land. Mr. Kleinsasser indicates justification for this change is the land is better suited for irrigation.

Dear Mr. Kleinsasser:

Enclosed is Water Permit No. 1724A-3 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, is enclosed. Please return this completed form after you have finished the system and have put the water to beneficial use. An investigation can then be scheduled so the water license may be issued, thus completing the acquisition of a water right.

An informational sheet *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Garland Erbele, Chief Engineer

WATER RIGHTS
PROGRAM

Report of Examination of Works and/or Application of Water to Beneficial Use For Permit No. 1724A-3

I have this day, November 3, 2015, made a thorough examination of the water use system constructed by Camrose Hutterian Brethren, 16950 400th Street, Frankfort, SD 57440 of Permit No. 1724A-3, bearing the priority of February 4, 1970 authorizing the diversion of 1.78 cu. ft. per second from the Tulare:East James aquifer for irrigation purposes, in Spink County.

Inspection contact & relationship **Jerry Kleinsasser**
to permit holder, if applicable:

A. Works used to divert the water:

Well Information:

- 1) Well Drilling Firm: Kaiser Well Drilling
- 2) No. of Wells 1
- 3) Depth(s) 60 feet
- 4) Well log is available Yes If no, explain in comments

Comments:

Casing:

- 1) Diameter 16 inches
- 2) Length 30 feet
- 3) Type _____

Screen:

- 1) Type manufactured plastic
- 2) Length 30 feet
- 3) Static water level 23 feet

Pump:

- 1) Make Grundfos
- 2) Model 800 S 500-2
- 3) Size 50 HP
- 4) Capacity 800 GPM

Motor:

- 1) Make _____
- 2) Model No. _____
- 3) Horsepower rating _____ hp

B. Works used to transport water to place of use:

- 1) Type _____ 2) Size _____ inches 3) Length _____ feet

Comments: **Well is at pivot center**

C. Works used to apply water to beneficial use:

Center pivot:

- 1) Make Valley 8000
2) Overall length approx. 1,325 feet
3) Number of towers 7
4) End gun Yes
5) Capacity 800 GPM

Comments: Pressure was indicated to be 43 psi

Chemigation Equipment:

- 1) Does chemigate Yes
2) Main line check valve Yes
3) Inspection port/air relief Yes
4) Low pressure drain Yes
5) Discharge is 20' from source not connected at time of on-site visit
6) Interlock type electrical
7) Injection pump type piston or other
8) Injection check valve Yes
9) Injection line check valve or positive displacement pump Yes

Comments: **The pivot was winterized and the chemigation pump and tank disconnected.**

D. Compliance with Permit Requirements:

- 1) Permit qualifications being abided by

If no, describe: **see comment section regarding qualification No. 4**

- 2) Irrigation Questionnaires checked to determine if permit owner started irrigation by the end of construction period Yes

List any extended period of nonuse:

- 3) Exceptions to compliance are: **see comment section regarding qualification No. 4**

E. Condition and Location:

1. The system is in good condition with the point(s) of diversion located as follows: 1,380 feet north and 1,325 feet east of SW corner of Section 19, T117N, R61W (NE ¼ SW ¼) Latitude 44.92694 Longitude -98.22237
2. The works are capable of diverting and conveying to the place of use 1.78 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:
All in Section 19, T117N, R61W

NW ¼ SW ¼ - 32 acres	SW ¼ SW ¼ - 32 acres
NE ¼ SW ¼ - 32 acres	SE ¼ SW ¼ - 32 acres

 comprising a total of 128 acres of land and the license should be issued for 1.78 cfs.
3. All structures, wells and lands on map Yes
 If no, describe:

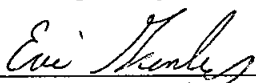

F. Comments or other permit(s) associated with the project:

Provide detailed explanation when multiple permits are involved or any discrepancy between what the permit was issued for and what was developed.

Mr. Kleinsasser stated that Kaiser Well Drilling did not finish the well due to issues with Mr. Kaiser's performance. Stretch's Well Service installed the pump. Stretch's Well Service was contacted and provided pump information.

The transfer of Water Right No. 1724-3 was for only 128 acres. The pivot control box stated in one spot 135.9 acres irrigated at 100% and in another 118 acres. This larger number would be more than authorized. However, it does not account for operation of endgun stops at roads. Mr. Kleinsasser indicated the end gun throw on this machine is relatively small. In preparing the map, the 2014 FSA aerial photo was used which showed the coverage of the irrigation system. Using the "area" function of the area outlined arrived at 128.2 acres. Therefore, it is felt that the system is within the permitted amount.

Qualification No. 4 on the permit states that the well authorized by Water Right No. 1724-3 located in the center of the SE ¼ Section 17, T115N, R61W may be temporarily abandoned by sealing the top of the casing with a watertight cap. The qualification goes on to say that if the well is permanently abandoned it shall be plugged in accordance with Water Management Board Rules, Chapter 74:02:04 (well construction standards). Water Right No. 1724-3 was held by Glendale Colony. It was transferred to Camrose Colony for the purpose of allowing them to sever and transfer to other land. According to the plat book, Glendale Colony owns the SE ¼ of Section 17. Therefore the owner of the original well under No. 1724-3 is Glendale Colony and it is their responsibility regarding the disposition of the original well.

I have completed the construction of the water use system and I have put the water to beneficial use to the maximum extent it is going to be used.

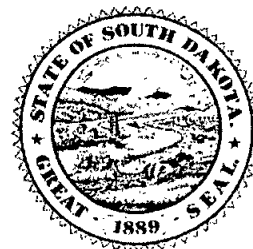

Water Permit No. 1724A-3 states that the water use system is to be constructed by
June 11, 2017, and water is to be put to beneficial use by June 11, 2021
(date) (date)

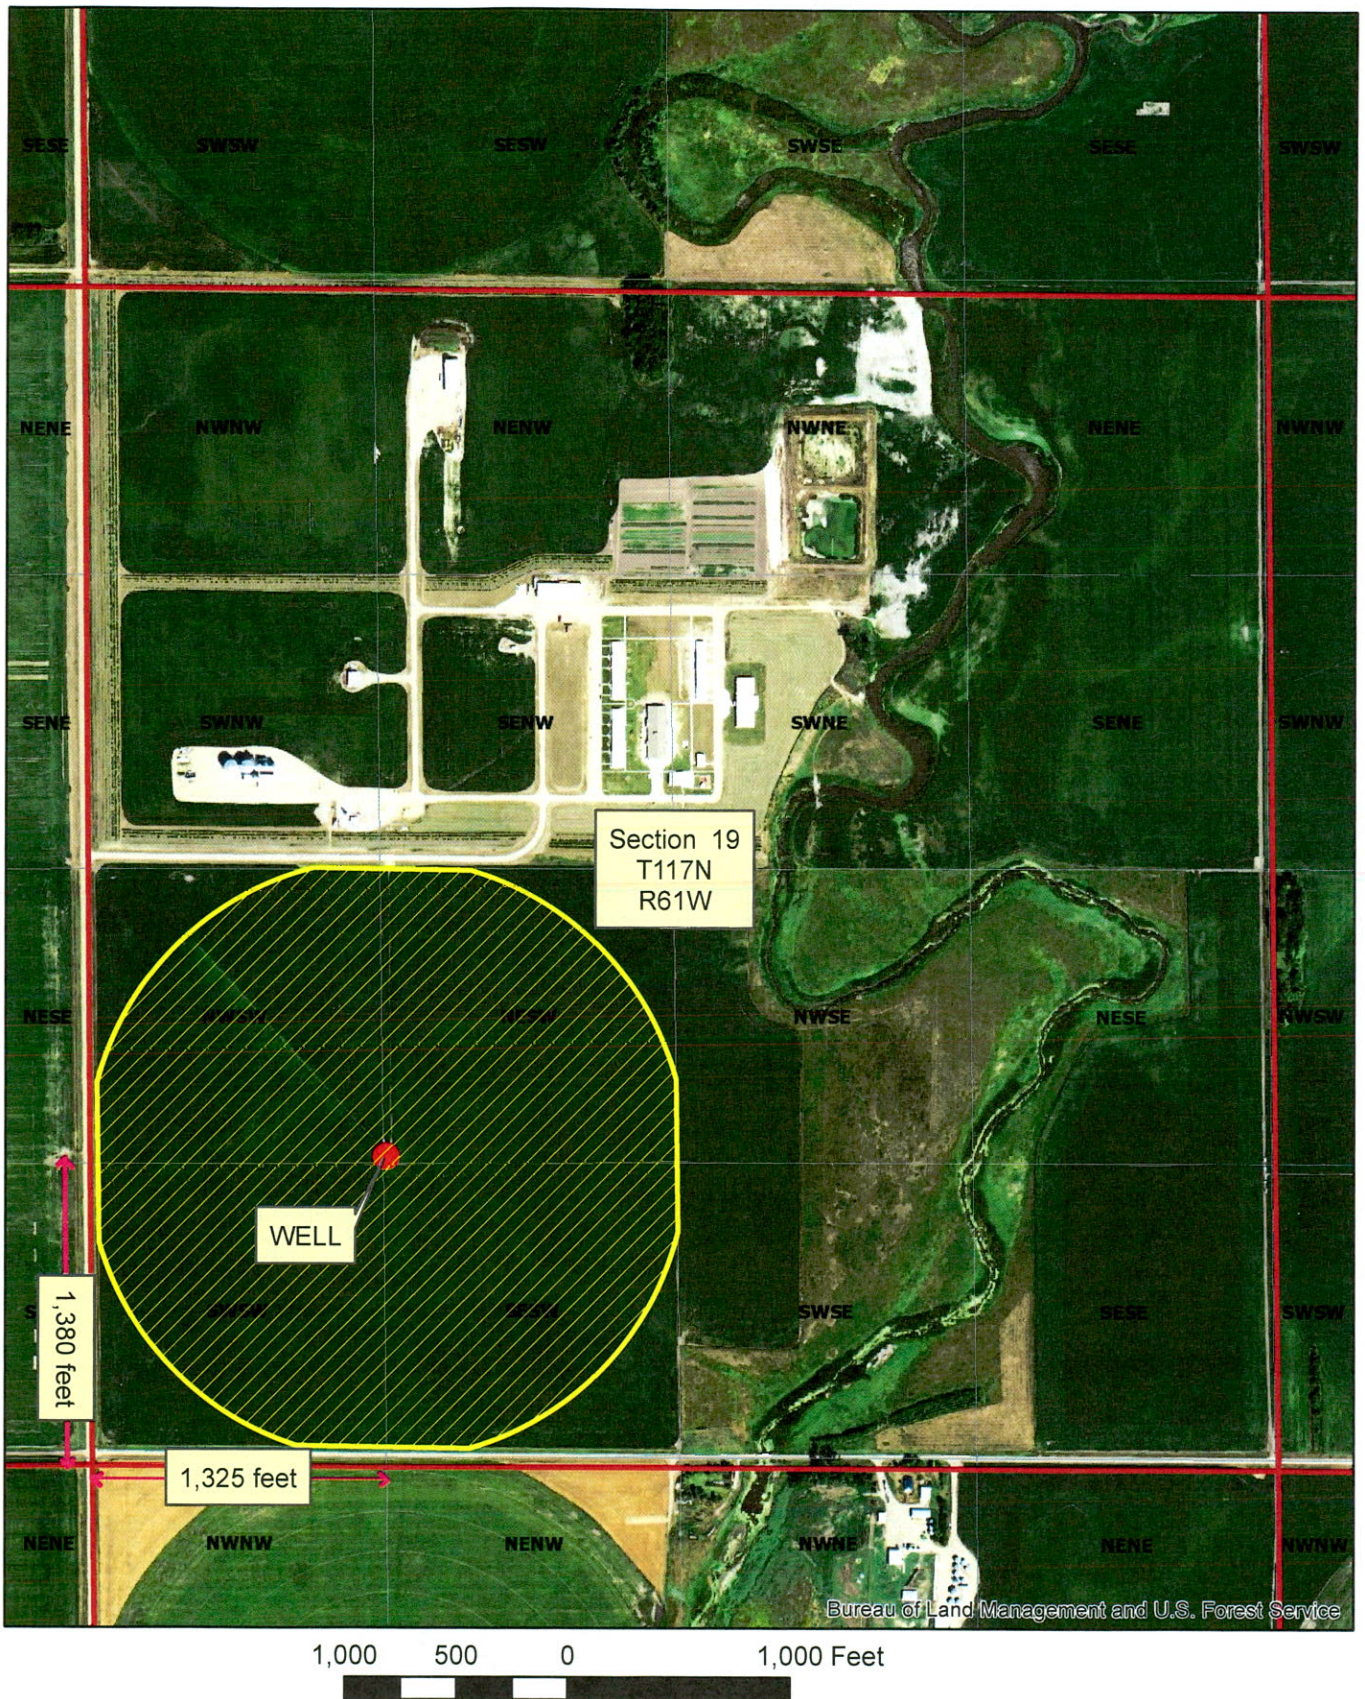

The water use system was completed on Spring 2013
(date)

Applying the water to beneficial use was completed on 2013
(date)

You may schedule an investigation so that the water license may be issued.

Jerry Kleinsasser

Well - 1,380 feet north and 1,325 feet east of Section 19, T117N, R61W

Jerry Kleinsasser
Camrose Hutterian Brethren
16950 400th St
Frankfort SD 57440

Dear Mr. Kleinsasser:

Enclosed is Water License No. 1724A-3. This is the final water right document completing your process of obtaining a Water Right. Included with your license is a map prepared by the staff engineer who conducted the field investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 1724A-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Jeanne Goodman, Chief Engineer
Water Rights Program
(605) 773-3352

Note: The applicable portions of Water Right No. 1724-3 were incorporated into Water License No. 1724A-3

STATE OF SOUTH DAKOTA
WATER LICENSE NO. 1724A-3

(1) Camrose Hutterian Brethren, 16950 400th St, Frankfort SD 57440 made Application No. 1724A-3, April 3, 2012 for a water permit to amend Water Right No. 1724-3 by transferring the irrigated acreage and the point of diversion to other lands. Permit No. 1724A-3 did not authorize an increase in the diversion rate from the Tulare East James Aquifer or number of acres irrigated. The project is located in Spink County, South Dakota. Permit No. 1724A-3, with a priority date of February 4, 1970 (established under Water Right No. 1724-3) was approved June 11, 2012 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before June 11, 2017 and for the application to beneficial use of said water on or before June 11, 2021.

Approval of No 1724A-3 transferred all of the acreage and diversion authority 12 miles north of location authorized under No. 1724-3. The Permit holder submitted a "*Notice of Completion of Works and Application of Water to Beneficial Use*" on November 3, 2015. With the project completed and water placed to beneficial use in 2013, the applicable portions of Water Right No. 1724-3 have been incorporated into Water License No. 1724A-3.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.78 cubic feet of water per second for beneficial use. The location of the diversion point is 1,380 feet north and 1,325 feet east of the SW corner of Section 19, T117N, R61W (near the center of the SW ¼).

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

T117N, R61W Section 19	NW ¼ SW ¼	32 acres
	NE ¼ SW ¼	32 acres
	SW ¼ SW ¼	32 acres
	SE ¼ SW ¼	32 acres
	Total	128 acres

(4) Pursuant to South Dakota Water Law 46-5-30.1 Camrose Hutterian Brethren, 16950 400th St, Frankfort SD 57440 the holder and/or owner of Water Right No. 1724A-3 is issued a license to appropriate water, the right to use 1.78 cubic feet of water per second from ground water, one well (Tulare East James Aquifer) with a priority date of February 4, 1970 from the location specified in (2) of this license for irrigation purposes.

This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Right No. 1724A-3 and subject to the following qualifications:

- The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

continued

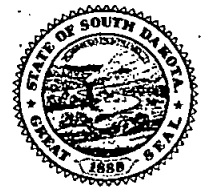

- The well authorized by Permit No. 1724A-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with the Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28. *The well was drilled in July, 2012 by Kaiser Well Drilling. A copy of the well log is on file with the Water Rights Program. The pump was installed by Stretch's Well Service.*
- This Permit is approved subject to the irrigation water use questionnaire being submitted each year.
- The well authorized by Water right No. 1724-3 located in the center of the SE ¼ Section 17, T115N, R61W may be temporarily abandoned by sealing the top of the casing with a watertight cap pursuant to Water Management Board Rules (ARSD 74:02:04:70.01). If this well is permanently abandoned it shall be plugged in accordance with Water Management Board Rules, Chapter 74:02:04.

Stretch's Well Service
PO Box 36
Hitchcock SD 57348-0036

Dear Mr. Rathjen:

Last November, DENR conducted a number of licensing investigation of irrigation systems in Spink and Beadle County. Those on-site visits included irrigation systems completed by Camrose Colony and Michael Watson. In each case, they indicated Stretch's Well Service did work on the well such as installation of the pump. For each system I ask that you look through your records and provide the following information if available. Both wells were completed in the last three years.

Camrose Colony - The well completion report filed for the well supplying this irrigation system was not drilled by Stretch's Well Service. However, Jerry Kleinsasser with Camrose indicated that Stretch's did work on the well and installed the pump. If that is indeed true, I am asking that you provide the following pump information.

The well is located in the approximate center of the SW ¼ Section 19, T117N, R61W

Make Grundfos

Model 800 S 500-2

Horsepower 50 H.P.

Capacity (gpm) 800

(continued)

Michael Watson – I am unable to find that a well completion report was filed for this well. Mr. Watson indicated that Stretch's Well Service constructed this well. Please submit the well completion report and provide the following pump information.

The well is located just northwest of the center of the SE ¼ Section 11, T114N, R63W.

Make Grundfos

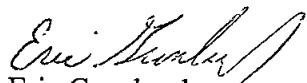

Model 8005-400-2AA

Horsepower 40 HP

Capacity (gpm) 800

Enclosed is a self-addressed stamped envelope to reply or you can simply email the information to eric.gronlund@state.sd.us.
