RE: Land under VR No. 187-3

COMMENTS:

When I inspected the land covered under Permit No. 187-3 (SE1/4 Section 25-T98N-R53W in Turner County, SD), I discovered that Mr. Schneiderman only owned 50 acres located in the NE1/4 SE1/4 and the SE1/4 SE1/4 Section 25-T98N-R53W (see License Map). He has irrigated those acres for a number of years with two 2-tower center pivot systems which can be moved to three different pads. The remaining 110 acres in the SE1/4 of Section 25-T98N-R53W are now owned by Lyle Hummel of RR2, Box 22, Hurley, SD 57036. His telephone number is 238-5712. According to Mr. Schneiderman, the other 110 acres in the SE1/4 of Section 25 have not been irrigated. I will write the License for the Vested Right claim for 42 of the 50 acres covered in Section 25.

In addition, the Water License for 187-3 states that the point of diversion is located 160' east of the center of the SE1/4 of Section 25-T98N-R53W. According to Mr. Schneiderman, a replacement well was drilled in 1970 by Rock Valley Drilling. He believes the well is approximately 40 to 44' deep. There is no well completion report available. The replacement well is located 1287'N and 878'W of the SE corner of Section 25, or approximately 285' east of the original well location.

605 773-3352**SUBJECT:** Hearing to Consider Validation of Recognized Vested Right Claim Nos. 166-3
and 187-3

A Notice of Intent to validate Claim Nos. 166-3 and 187-3 was published on June 23 and 30, 1988 in the The New Era, Parker SD. The Water Rights Division opposed validation of Nos. 166-3 and 187-3 for purpose of completing an on-site inspection of the claims. The inspection of the claims was completed on September 9, 1992, by Greg Johnston, staff engineer. The inspection found that the number of acres being irrigated on No. 166-3 reduced from 160 acres to 132 acres. The diversion rate is to be reduced, accordingly, from 2.28 cubic feet of water per second (cfs) to 1.88 cfs. The number of acres being irrigated on No. 187-3 was reduced from 160 acres to 42 acres. The diversion rate is to be reduced, accordingly, from 2.28 cfs to 0.60 cfs. The reduced diversion rate is based on the statutory application rate of 1 cfs per 70 acres (132 acres/70 = 1.88 cfs and 42 acres/70 = 0.60 cfs).

The Water Management Board will consider validation of Claim Nos. 166-3 and 187-3 at 10:00 am, May 5, 1993, in the Floyd Matthews Training Center, Joe Foss Building, 523 E Capitol, Pierre SD. The agenda time is an estimate. The actual time of the hearing may be later than 10:00 am due to prior agenda items. Prior to April 23, 1993 contact the Water Right Division, 523 E Capitol, Pierre SD 57501-3181 (605 773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Pursuant to the findings of the on-site inspections, the chief engineer is recommending validation of No. 166-3 for a diversion rate of 1.89 cfs from groundwater to irrigate 132 acres and No. 187-3 for a diversion rate of 0.60 cfs from groundwater to irrigate 42 acres. Following the hearing, the Board is authorized to 1) validate the claims as recommended by the chief engineer, 2) validate the claims as licensed prior to the on-site inspection, 3) validate the claims based on evidence presented at the public hearing, or 4) defer validation of the claims. Applicable provisions of the published notice of intent to validate Claim Nos. 166-3 and 187-3 will still apply at this hearing. A copy of the June 23 and 30, 1988, publication is available upon request.

(1) Claude and Lucille Sherard, of Hurley SD made Application No. 187-3, for validation of vested right claim to appropriate 2.28 cubic feet of water per second from groundwater, Turner County, South Dakota for irrigation purposes. Vested Water Right No. 187-3 was validated May 5, 1993 with a priority date of June 1, 1955. Construction of described water supply system and application to beneficial use has been completed and complies with applicable provisions of South Dakota State Law.

Vested Water Right No. 187-3 was transferred February 8, 1973 to Russell Schneiderman.

The original water license issued on June 21, 1956 described irrigation of 160 acres in the SE 1/4 Section 25-T98N-R53W. A field inspection conducted of the water use system found a total of 42 acres still being irrigated. Based upon the inspection and subsequent validation of the vested right claim, the license is being reissued to the extent of what is actually being irrigated.

(2) The vested right owner is entitled to divert 0.60 cubic feet of water per second for beneficial use. The location of the diversion point is: E 1/2 SE 1/4 Section 25-T98N-R53W (878'W and 1287'N of the SE corner of Section 25).

The location of the irrigated acreage is:

T98N-R53W	Section 25	NE 1/4 SE 1/4	21 acres
		SE 1/4 SE 1/4	21 acres
		Total	42 acres

(3) Pursuant to South Dakota Water Law 46-5-30.1 Russell Schneiderman of Rt 2, Box 48, Lennox SD 57039 the holder and/or owner of Vested Water Right No. 187-3 is issued a license to appropriate 0.60 cubic feet of water per second from groundwater (one well) with a priority date of June 1, 1955 from the location specified in (2) of this license. The water is used for the purpose of irrigation. This license is subject to any limitations or qualifications listed in Vested Water Right No. 187-3 and subject to South Dakota State Law.

Mr. Schneiderman called in reference to my letter regarding filing of ownership changes for Vested Water Right Nos. 166-3 and 187-3 and Water Right No. 2690-3.

He indicated his father is deceased and the land is now in a trust. He has the option to purchase the property and for now, would like the water rights left as they are until a decision is made on ownership.

He requested that for the time being just send all correspondence, including the annual irrigation questionnaires, to his attention.
