Dear Mr. Kleinsasser:

Thank you taking the time to speak with the Water Rights Program regarding the relocation of acres and diversion points authorized by Water Right Nos. 1876-3 & 3748-3.

I understand that you wish to move the pivot currently located in the SW ¼ Section 11-T115N-R62W, authorized under Water Right No. 1876-3 to the SE ¼ Section 2-T115N-R62W and move the pivot from the SE ¼ Section 20-T115N-R61W, authorized under Water Right No. 3748-3 to the SW ¼ Section 11-T115N-R62W, as well as gain authorization of the second well already developed for irrigation under Water Right No. 1876-3, and a new well to supply the pivot in Section 2- T115N-R62W.

Additionally, in reviewing recent aerial imagery, it was discovered that the northern pivot authorized under Water Right No. 1876-3 has been shifted outside of the legal description originally described in the license.

All of these changes can be addressed by submitting applications to amend the current water rights. For your convenience, I have enclosed two partially completed applications outlining these amendments, with corresponding maps. Please review and complete the applications, outline the areas that will be irrigated on the map, indicate the current and proposed well locations, and return both sets of applications and maps with a check made payable to "SD Water Rights" in the amount of \$600.00 (\$300/amendment).

If you have any questions or concerns when you are reviewing the enclosed applications, please feel free to call either Eric Gronlund or myself.
