NOTICE

Re: Violation of Requirement To Submit 1986 Irrigation
Questionnaire

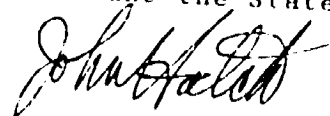

Our records indicate that the 1986 Irrigation Questionnaire has not been submitted for Permit No(s). 1813-3, 1916-3. The request for the Questionnaire was dated November 3, 1986. The Water Management Board has directed that owners of water permits who have not submitted 1986 Irrigation Questionnaires be given notice of hearing(s) to be held by the Board to determine if any action is to be taken concerning the violation.

The hearings will be held at 2:00 pm, May 6, 1987 in Room 216, Joe Foss Building, 523 E Capitol, Pierre SD.

The hearing will be conducted pursuant to the provisions of SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26. Following the hearing(s), the Water Management Board can:

1. Amend Permit No(s). 1813-3, 1916-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action;
3. Take no action.

The hearing(s) is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

After receipt of notice from your office dated March 23, I have looked through quite a bit of old mail and can't find the report you are requesting.

Either it was never received here or
we have since lost it but the Vermillion
River floods have been devastating in my
area and for at least the last two years
no irrigation has been done on my
farms.

This includes both of permits 1813-3 and 1816-3. I do have pivots and pumps yet, so consequently do not want permits renewed.

Dear Mr. Peterson:

Enclosed is a copy of Water Right No. 1916-3 currently listed in the name of Mary Wrigg. Your name has been added to the water right file as that of "renter". This will enable all future irrigation questionnaires to be mailed directly to you.

You indicated during our telephone conversation that you were going to be changing the type of system used to irrigate the land. You may change the type of system as long as you irrigate from the same diversion point and do not exceed the diversion rate or acreage specified in the water right.

If you have any further questions, please contact me.

Dear Mr. Buckneberg:

I am contacting in you in regard to land authorized for irrigation under Water Right No. 1916-3. The water right is currently listed in the name of Mary Wrigg. Stephen Wrigg indicated to us that you rent the land from the "Trust" and operate the irrigation system.

Each year in October, we mail out the annual irrigation questionnaire to irrigators in the state. Your name will be added to the file as the renter and person to contact concerning any irrigation that takes place. Enclosed is a copy of the water right and a sample irrigation questionnaire. The sample form will give you an idea of what type of information to keep track of over the irrigation season. The actual form you will need to complete and return will be sent to you in October.

If I can answer any questions for you, please give me a call.

Dear Mr. Wrigg:

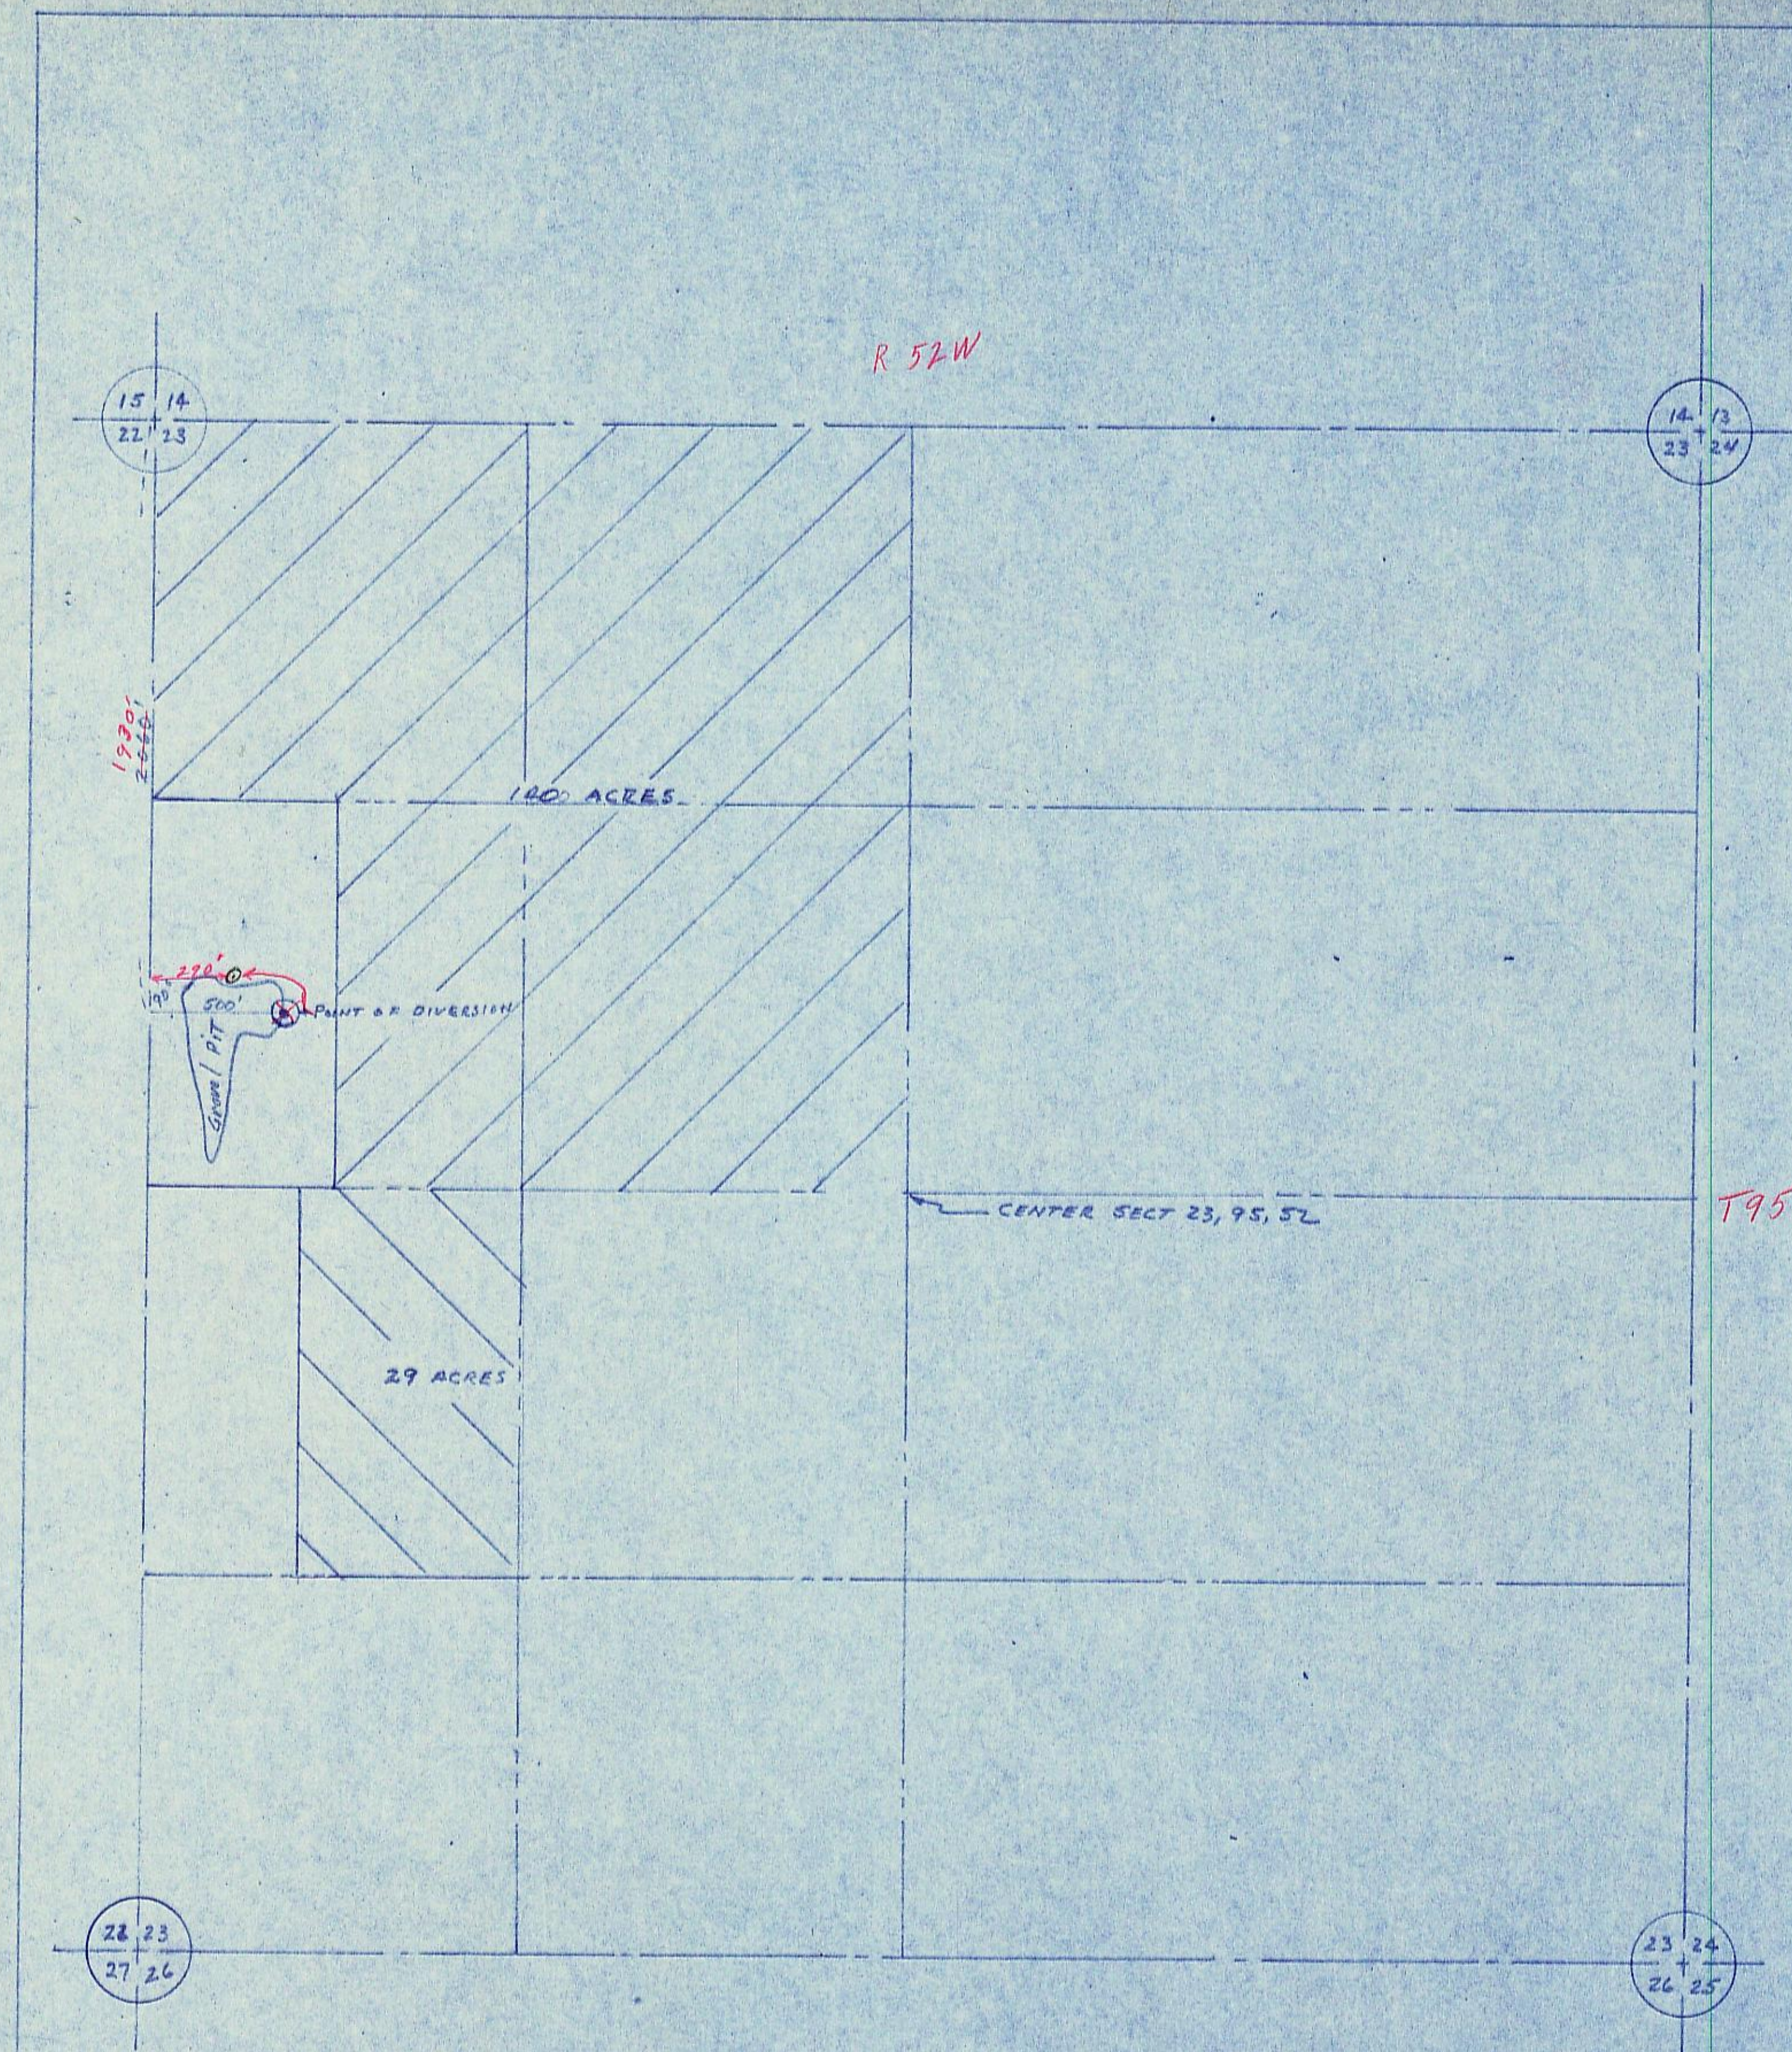

I am contacting you in regard to Water Right No. 1916-3, listed in the name of Mary Wrigg. In early July, I visited with you about ownership of the land and it was my understanding that the land would be in a "Trust". I have not heard from the attorney yet and while it is not a rush item, I wanted to check with you to make sure things were still moving forward.

I will send the annual irrigation questionnaire to Paul Buckneberg for completion. I sent a letter to him on July 10th with a sample irrigation questionnaire and a copy of the water right. We will be sending out the irrigation questionnaires in mid October.

If you have any questions concerning the water right or if you would like me to follow up with the attorney concerning the ownership change for the water right, please let me know.

Dear Mr. Wrigg:

I am contacting you in regard to Water Right No. 1916-3, listed in the name of Mary Wrigg. The water right authorizes irrigation of 169 acres from a gravel pit.

In July 2007, I visited with you about ownership of the land and it was my understanding that the land would be in a "Trust". I wrote again in September 2007 and realized today when reviewing the file that I have not yet heard anything back from you or the attorney.

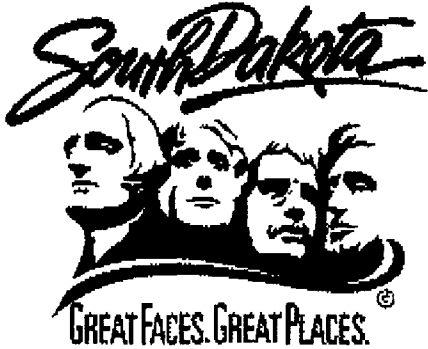

Is the land still in a trust or has it been sold? If you could, please have the attorney follow up on this and get in touch with us regarding the water right.

Thank you in advance for your help.

Dear Ms. Julin and Mr. Wrigg:

I am contacting you both concerning ownership of land described in Water Right No. 1916-3. The water right is currently listed in the name of Mary Wrigg. It is my understanding from visiting with Steve Wrigg that you now own the land.

Water Rights for irrigation go with the land and it is important to keep ownership records current. The transfer of a water right when more than one owner is involved can be done a couple different ways. We can divide and reissue the water right so that each of you has your own water right or both of your names can be listed on the water right as joint owners.

I am enclosing a copy of the water right and map for your review. Also enclosed is a partially completed Notice of Transfer of Ownership form for filing an ownership change. If you want to file separate ownership forms, please list the land you now own on the form. Upon completion, please sign the form and return it to our office with a required filing fee of \$2.50 (each). The check or money order for the fee can be made payable to the Water Rights Program. If you decide to file only one transfer form, include both your names and all of the land on one form and submit only one filing fee.

If you have any questions, please contact me.

Sincerely,

169 acres - NW 1/4 and NW 1/4 SW 1/4 Section 23, T95N, R52W

I/We understand that the validity of Water Right No. 1916-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Ms. Julin and Mr. Wrigg:

I am writing to acknowledge receipt of the ownership change you filed for Water Right No. 1916-3. The transfer has been completed. The water right, formerly held by Mary Wrigg is now listed in your names.

Receipt No. 04118 in the amount of \$2.50 is being forwarded to Jane by copy of this letter.

For informational purposes, the annual irrigation questionnaire for this water right will continue to be directed to Paul Buckneberg until either of you tell us differently. This does not affect ownership of the water right; it merely allows us to send the questionnaire to the person doing the irrigation.

If you have any questions, please contact me.

Sincerely,

RE: aquifer designation

COMMENTS:

Jensen (2025) as part of a review of the Lower Vermillion Missouri aquifer (LVM) determined that Water Right Nos. 973-3, 974-3, 1813-3, 1916-3, 3905-3, 4731-3, 5979-3, 6563-3, 6565-3, 6566-3, 6569-3, 6571-3, 6572-3, 6808-3, 6813-3, 6815A-3, 6817-3, 6818-3, 6819-3, 6821-3, 6822-3, 7001-3, 7003-3, 7383-3, & 7693-3, should have the aquifer reassigned. In reviewing the best information currently available for aquifer and management unit naming

conventions, the best aquifer designation for Water Rights previously listed is the Southern management unit of the Upper Vermillion Missouri aquifer (UVM:S) shown in Figure 1.

This change of aquifer designation, to the Southern management unit of the Upper Vermillion Missouri aquifer, does not represent a physical change in the water source. It is an update to the name of the aquifer materials to reflect the currently best available information for aquifer extents. This update to the aquifer name does not authorize any increase in the amount of water appropriated by Water Right Nos. 973-3, 974-3, 1813-3, 1916-3, 3905-3, 4731-3, 5979-3, 6563-3, 6565-3, 6566-3, 6569-3, 6571-3, 6572-3, 6808-3, 6813-3, 6815A-3, 6817-3, 6818-3, 6819-3, 6821-3, 6822-3, 7001-3, 7003-3, 7383-3, & 7693-3, relocation of existing wells, or completion of additional wells into the aquifer. Going forward, issuance of any pertinent documents will reflect the updated aquifer designation.

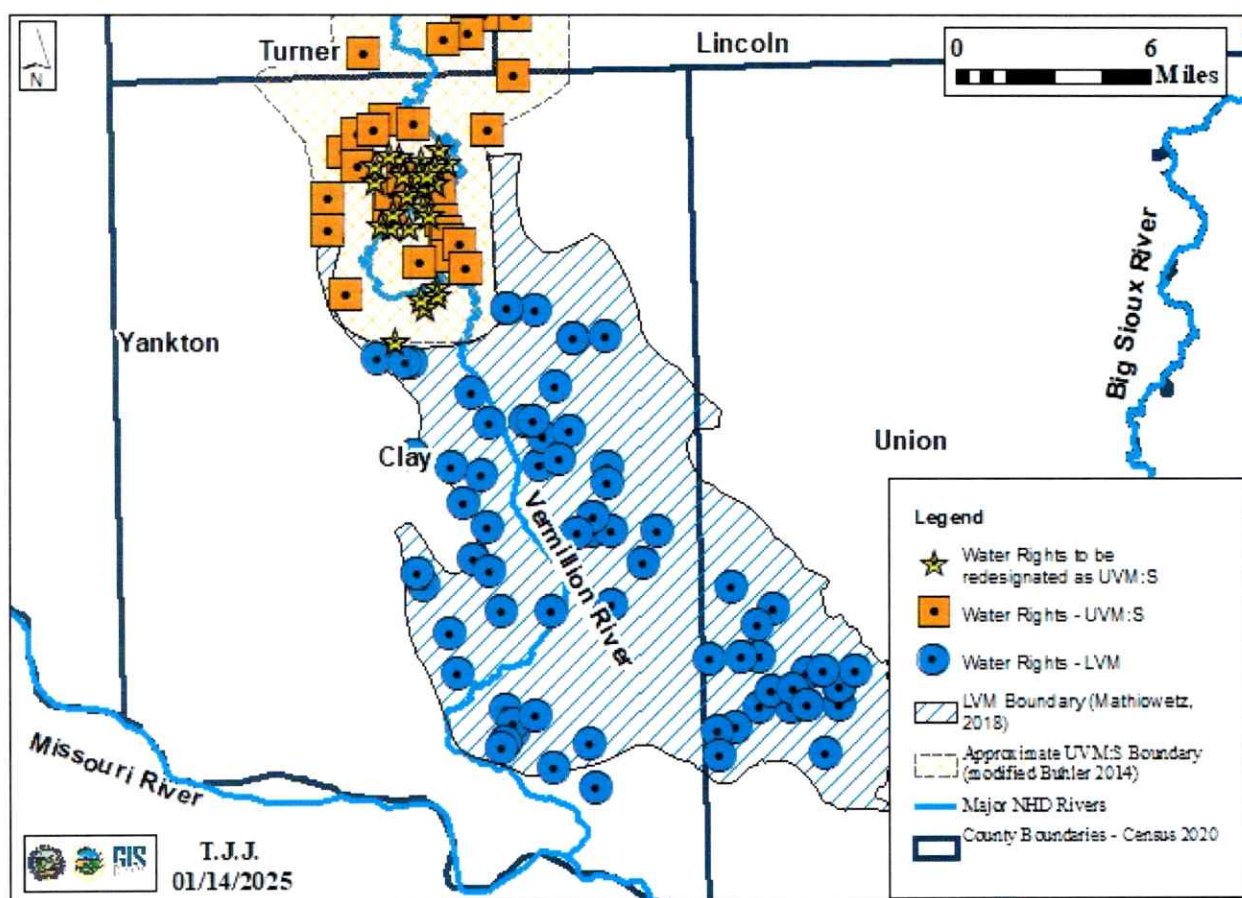

Figure 1. Map of the approximate Upper Vermillion Missouri: South aquifer boundary (Buhler, 2014), map of the approximate Lower Vermillion Missouri aquifer boundary (Mathiowetz, 2018), Water Rights/Permits for Upper Vermillion Missouri: South aquifer, Water Rights/Permits for Lower Vermillion Missouri aquifer, and Water Rights/Permits for Upper Vermillion Missouri: South aquifer previously assigned Lower Vermillion Missouri aquifer.
