Re: Gray Goose Irrigation District

Dear Mr. Jones:

Enclosed please find Agreement for Delivery of Water with regard to the Gray Goose Irrigation District following up on my earlier correspondence to your office dated October 28, 1981.

It is my understanding that the Ray Kayser secondary irrigation project has been completed and is in operation. All of the irrigation is on land included within the original permit and, therefore, I file this contract for your information as it shows the mechanism whereby water users will receive the water and pay for the costs in relation thereto.

If you have any questions regarding this matter, please feel free to contact me.

Very truly yours,

MAHER, GORS & DEAN

AGREEMENT FOR DELIVERY OF WATER

Agreement made this 31 day of March, 1981, by and between the GRAY GOOSE IRRIGATION DISTRICT of Hughes County, South Dakota, hereinafter referred to as DISTRICT, and LARRY SNYDER and CHARLOTTE SNYDER, LEONARD HUNSLEY, DUANE HUNSLEY, RAY KAYSER and ADELLA KAYSER, MAURICE TRAUTMAN and CAROLYN TRAUTMAN, ELTOR MATTHEIS and VERNIA MATTHEIS, ED NIECE and ROY SNYDER, hereinafter referred to as WATER USERS.

The parties hereto stipulate and agree as follows:

1. The DISTRICT is a political subdivision of the State of South Dakota formed for the purposes of providing irrigation to lands in Hughes County, South Dakota, and duly created pursuant to the provisions of SDCL 46-12.

2. The DISTRICT is the proprietor of a water permit and easements authorizing it to take water from the Oahe Reservoir and distribute same. The DISTRICT is the owner of a system of pumps, water works and pipelines for the purpose of furnishing water for the irrigation of certain lands in the County of Hughes, State of South Dakota, more fully described in the attached and fully incorporated Exhibit A.

3. The WATER USERS are the owners of land in Hughes County, South Dakota, and are all of the electors and property owners in the DISTRICT. The said WATER USERS own land included within the original request for water permit and covenant and agree that the water to be supplied herein will not be used on any lands not included within the DISTRICT'S water right.

4. It is further understood and agreed that the water permit right, easements and delivery system remains the sole and exclusive property of the DISTRICT and that the within agreement is merely a means whereby the DISTRICT may, as limited by the terms of this agreement, provide water to WATER USERS, supplemental or secondary to their primary quarters.

5. Water is presently authorized to WATER USERS as allowed in the permit, per quarter of land for primary use. A base amount of eighteen (18) acre inches per quarter of land, which contains approximately one hundred thirty-five (135) irrigated acres is used for assessment purposes. There is presently one eighty (80) acre irrigated parcel belonging to Larry Snyder which is assessed

eighteen (18) inches per acre as well. The charge for the provision of eighteen (18) inches of water is established annually through assessment procedures of the DISTRICT and both the operations and maintenance cost and bond repayment cost of the DISTRICT are assessed on the lands annually as taxes based on providing the DISTRICT member up to eighteen (18) acre inches of water on each quarter. This agreement is entered into to provide the mechanism for providing supplementary water use, and a charge therefor, on water used over the amount of eighteen (19) acre inches per quarter. It in no manner effects or alters the obligation to pay the full amounts assessed by the DISTRICT and imposed on the land as a tax. Further, in the event less than eighteen (18) inches is used on a quarter, there is no reduction in the amount assessed and owed.

6. Subject to the limitations herein, it is agreed that the WATER USERS will pay for any water over eighteen (18) acre inches according to the formula below described:

$$\frac{\text{Total Power Cost}}{\text{Total Acre Feet Pumped From Main Pump}} = \frac{\text{Cost Per Acre Foot}}{12} = \text{Cost Per Acre Inch For Acre Inches In Excess Of Eighteen}$$

Said formula provides that the charge will be based upon the total acre feet pumped at the main pumping station at Lake Oahe divided into the total power cost incurred by the DISTRICT. This fraction results in a cost per acre foot which is converted to a cost per acre inch by the division into the cost per acre foot of the number of inches in a foot, i.e. 12. This results in the cost per acre inch for water used in excess of eighteen (18) inches per quarter.

7. Each WATER USER'S meter shall be read by the DISTRICT at the end of the irrigation season and the DISTRICT shall calculate a charge according to the above formula by multiplying the cost per acre inch times the number of acre inches in excess of eighteen (18). Each quarter shall stand on its own and be so billed. Said bill shall be payable December 31 and due April 1 of the following year. In the event payment is not made when due, the DISTRICT may at its option refuse to supply water to the WATER USER. The DISTRICT may also at its option proceed with legal remedies. In the event the

DISTRICT is required to commence legal action, it shall be entitled to its court costs, reasonable attorneys fees and interest at twelve percent (12%) per annum from December 31 of the year in which billing was made.

8. The water is to be supplied from the system and water works as now constructed and maintained by the DISTRICT, and all expense in making connections to and with the DISTRICT system and conducting the water to the additional land to be irrigated by the WATER USERS beyond that already in use, including all pipes, pumps and measuring devices or meters, shall be at the sole expense of the WATER USER. The WATER USER shall individually be responsible for the maintenance and upkeep on the pipes, pumps, meters and other equipment installed by WATER USER.

9. The DISTRICT reserves the right and privilege of remodeling, changing and reconstructing the system of its water works at its option.

10. It is also understood and agreed that the DISTRICT assumes no obligation to supply water to the WATER USERS.

11. The water provided shall be used for irrigation or domestic purposes only, and only on the lands described within the attached Exhibit A, which by this reference is fully incorporated herein, and under no circumstances shall any of the water be used on or become appurtenant to any other tract or tracts of land, or be used for mining, milling, power, or other purposes not directly connected with, or incidental to, irrigation and domestic purposes on such land, unless approved by the DISTRICT in writing.

12. The DISTRICT shall be held harmless in full for any loss or damage by reason of any overflow or seepage or breaks in the water works to be constructed by the WATER USERS or any other liability.

13. The DISTRICT assumes no responsibility for, and does not in any manner warrant, the quality or quantity of water supplied. The DISTRICT specifically does not warrant that it shall be able to supply sufficient water in quantity or quality for the WATER USERS purposes. The DISTRICT shall have no liability to WATER USERS.

14. The WATER USERS shall not assign any interest herein to any other party without the written consent of the DISTRICT first had and obtained.

15. This agreement shall at all times be subject to such requirements of the State of South Dakota, Division of Water Rights, and the United States Government.

16. The duration of this agreement shall be perpetual.

IN WITNESS WHEREOF, the parties have executed this agreement the date and year first above written.

N $\frac{1}{4}$, Section 6, Township 111 N, Range 78 W
N $\frac{1}{4}$, Section 25, Township 112 N, Range 79 W

Said land is contained within the Application and Permit legal description and I simply want to confirm with you that as to said real property, the District may deliver water.

The District is in the process of drafting a contract to deliver water, on an as available basis, to Hunsley Brothers, Ray Kayser and possibly Larry Snyder, in the next irrigation season.

I would appreciate your assistance and cooperation in this matter. If there is any advice or recommendations that you could make, it would be appreciated.

Gentlemen:

I am happy to report that I received a call from Burt Jones of the Water Rights Commission yesterday. He and I discussed my letter to the Commission and he advised that they not only have no objection, but they are happy to see the water being put to good use.

Mr. Jones confirmed with me that the land in question is under the prior permit, so I will be working on a contract to provide the services. He indicated he has confirmed that the contract arrangements are between the District members and the landowners of the land being provided water. Each of you should give some thought to a procedure that is fair to all involved on a method to deliver the water and receive payment for same. I think that may take some work, but I believe from all of the work that you have done as a group that you will be able to come to a consensus on something everyone will be able to live with.

Also, I want to take the opportunity by this letter to let you know that I am very proud that we have such a supportive and helpful Water Rights Commission and staff.

Best personal regards,

No. 3423 2dly 1/24, 1/31
Readvertisement of Notice
of Hearing for Water
Permit No. 1988-3 to
Appropriate Water
Notice is given that Gray Goose
Irrigation District, 403 N. Tyler,
Pierre, SD 57501 filed an applica-
tion for a water permit on May 8,
1973. Readvertisement of the hear-
ing published on May 9 and May
16, 1973 in the Daily Capital Jour-
nal is to correct the legal descrip-
tion of the irrigated acreage. Water
Permit No. 1983-3 appropriated
450 cubic feet of water per second
(cfs) from the Missouri River to ir-
rigate 31,559 acres located in
Hughes County. A routine inspec-
tion found that 45.22 cfs and 3167
acres have been developed. The
original notice of hearing omitted
344 acres to be irrigated in the NE
1/4 Section 34; E 1/2, SW 1/4 Sec-

tion 27; all in T112N, R7BW. This
readvertisement does not authorize
any increase in the diversion rate
from the Missouri River.

Pursuant to SDCL 46-2A-2, the
Chief Engineer of the Water Rights
Division recommends (P) APPROVAL
of No. 1988-3 because 1) unappro-
priated water is available, 2) exist-
ing rights will not be unlawfully
impaired, 3) it is a beneficial use of
water and 4) it is in the public inter-
est. This readvertisement will be
considered by the Water Manage-
ment Board at the Howard John-
son's Roosevelt Room, 1-90 at La-
Crosse, Rapid City, SD on March 1,
1989 at 10:00 am. The Chief Engi-
neer's recommendation is not final
or binding upon the Board. The
Board is authorized to 1) approve,
2) approve with qualifications, 3)
defer or 4) deny this readvertise-
ment based on the facts presented
at the public hearing.

Any interested person that in-
tends to participate in the hearing

before the Board by presenting evi-
dence or cross-examining witness-
es according to SDCL 1-26, must
file a written petition with BOTH
the applicant and Chief Engineer
by February 17, 1989. The Chief
Engineer's address is: Water
Rights Division Post Building 623
E. Capitol, Pierre, SD 57501 (605-
773-3352). The petition may be in-
formal, but must include a state-
ment describing the petitioner's in-
terest in the readvertisement, the
petitioner's reasons for opposing or
supporting the readvertisement
and the signature and mailing ad-
dress of the petitioner or legal
counsel if legal counsel is obtained.
The applicant need not file a peti-
tion. Contact the Water Rights Di-
vision to request information on
this readvertisement or to assure
access to the hearing by the handi-
capped.

This hearing is an adversary
proceeding. Any person filing a pe-
tition and/or the applicant have the
right to be represented by a lawyer.
These and other due process rights
will be forfeited if not exercised.
Decision of the Board may be ap-
pealed to the Circuit Court and
State Supreme Court as provided
by law. The time of the hearing will
also be automatically delayed for at
least twenty days upon written re-
quest to the Chief Engineer from
the applicant or a petitioner. The
request for a delay must be re-
ceived by February 17, 1989.

This readvertisement is made
pursuant to SDCL 46-1.1 thru 46-1.
9, 46-1.12 thru 46-1.15, 46-2-3.1, 46-

Report on Water Permit No. 1988-3
Readvertisement of Notice of Hearing
Gray Goose Irrigation District
December 29, 1988

Water Permit No. 1988-3 appropriates 450 cubic feet of water per second from the Missouri River to irrigate 31,559 acres in Hughes County. The point of diversion is located in the NW 1/4 NE 1/4 Section 26, T112N, R80W.

Water Permit No. 1988-3 was filed as an application on May 8, 1973. The priority date for this application, November 7, 1963, was established under Future Use Water Permit No. 1067-3 issued to Oahe Conservancy Sub-District. The Notice of Hearing was published in the Pierre Daily Capitol Journal on May 9, and May 16, 1973.

The purpose of this readvertisement is to include 544 acres omitted in the original Notice of Hearing. The acreage is located in the NE 1/4 Section 34; E 1/2, SW 1/4 Section 27; all in T112N, R79W.

This readvertisement is a result of a normal inspection procedure. The 544 acres were listed in the original application, but were inadvertently omitted from the original Notice of Hearing. The 544 acres have been developed and have been irrigated in recent years. This readvertisement does not authorize any increase in the diversion rate from the Missouri River or in the acreage to be irrigated. It only corrects the legal description of the irrigated acreage.

RE: A Complaint regarding D+D Farms and Grey Goose Irrig. District.

COMMENTS:

On September 12, 1990 a complaint was received regarding water being pumped from the District into D+D Farms' units. Mr. Jim Beasstrom (224-0595) was contacted. Mr. Beasstrom got Mr. Roy Kaiser on the line. Mr. Kaiser stated that water is pumped to one of the lagoons to dilute the material in the lagoon. He said he will then use this on his land as fertilizer.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.
