WATER RIGHT APPLICATION APPROVAL

The Water Resources Commission hereby approves Water Right Application No. 2047-3
VAL K. BECKMAN 901 RIDGE ROAD, SIOUX FALLS
 (Applicant) (Post Office Address)
SOUTH DAKOTA With the following modifications:
 (State)

The irrigation well approved under this Permit is located near domestic wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in existing domestic wells.

THE CITY OF SIOUX FALLS HAS PRIORITY RIGHTS TO THIS WATER UNDER FUTURE USE WITHDRAWAL PERMITS, AND THIS APPLICATION IS APPROVED SUBJECT TO THESE PRIORITY RIGHTS IF OR WHEN THE CITY DEVELOPS THE RESERVED WATER SUPPLY.

Date of first receipt of application FEBRUARY 13 19 74
 Date of return to applicant for correction, amendments or changes required FEBRUARY 21 19 74
 Date of receipt of corrected application MARCH 18 19 74
 approved MAY 15 19 74 Recorded in Book 12 Page 349

WATER RIGHT PERMIT NO. 2047-3

The Water Resources Commission hereby grants and issues this Water Right Permit 2047-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is FEBRUARY 13 19 74
2. The expenditure of at least one-fifth of the work above specified is to be completed on or before NOVEMBER 15 19 75
3. The whole of said work is to be completed on or before MAY 15 19 77
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MAY 15 19 79
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 4.5 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MAY 15 19 79; said water to be used during the following described annual period: MAY THRU SEPTEMBER

Witness my hand this 16TH day of MAY 19 74

STATE WATER RIGHTS COMM.
PIERRE, SOUTH DAKOTA

Mr. Ed Lacey
Trent, SD 57065

Dear Mr. Lacey:

The water sample received January 31 has been analyzed and a copy of the report is attached. A copy of this letter, the water analysis report, and your WI-1 form are being forwarded today to the State Conservation Commission.

There should be no difficulty with the use of this water on soils which you anticipate to use. The water is in the high salinity range and low in sodium.

I am enclosing a copy of Extension Circular 654 with some useful information about irrigation water. Your water quality is indicated by the red cross on the diagram on the back cover. You can tell something about its probable performance from this chart

Sincerely yours,

John L. Wiersma, Director

COUNTY Minnehaha DATE 2/12/74
OWNER/OPER. Val K. Beckman
PLAN NO. _____ AC. _____ APP. SCALE 1"/MI. PHOTO NO. _____

- An Local alluvial land drainageways - Deep, medium and moderately fine textured, poorly drained immature soils of colluvial alluvial material. They occur in upland drains and swales and are very frequently flooded.
- Lu Luton Clay - Deep, fine textured bottomland soils with slow permeability having occasional to frequent flooding. They occur on the broad flats of the Big Sioux River.
- La Lamoure silty clay loam - Deep, calcareous, moderately fine textured bottomland soils that are somewhat poorly drained, subject to flooding or has a fluctuating water table.
- EGa Egeland loam - Deep, medium textured with sandier subsoils developed in outwash sands. These soils are droughty and subject to wind erosion.
- EgB
EgC2 Slopes 1-9%.
- BVC2 Buse Vienna loams - Complex occurs on sloping, somewhat excessively drained uplands. Is calcareous and its organic matter content is low. Glacial till on rolling and steep uplands. 5-9%.
- VnC2 Vienna silty loam - Deep, medium textured soils with heavier subsoil developed in glacial till. Erosion is a problem on sloping land.
- VnB Slopes 3-9%.

SOIL AND CAPABILITY MAP

PREPARED BY U. S. DEPARTMENT OF AGRICULTURE, SOIL CONSERVATION SERVICE,
 COOPERATING WITH Winnebago SOIL & WATER CONSERVATION DISTRICT
 AND Val K. Hackman PLAN NO. DATE
 OWNER/OPER. Val K. Hackman AC.
 PHOTO APP. SCALE 1"=1 MI. COUNTY

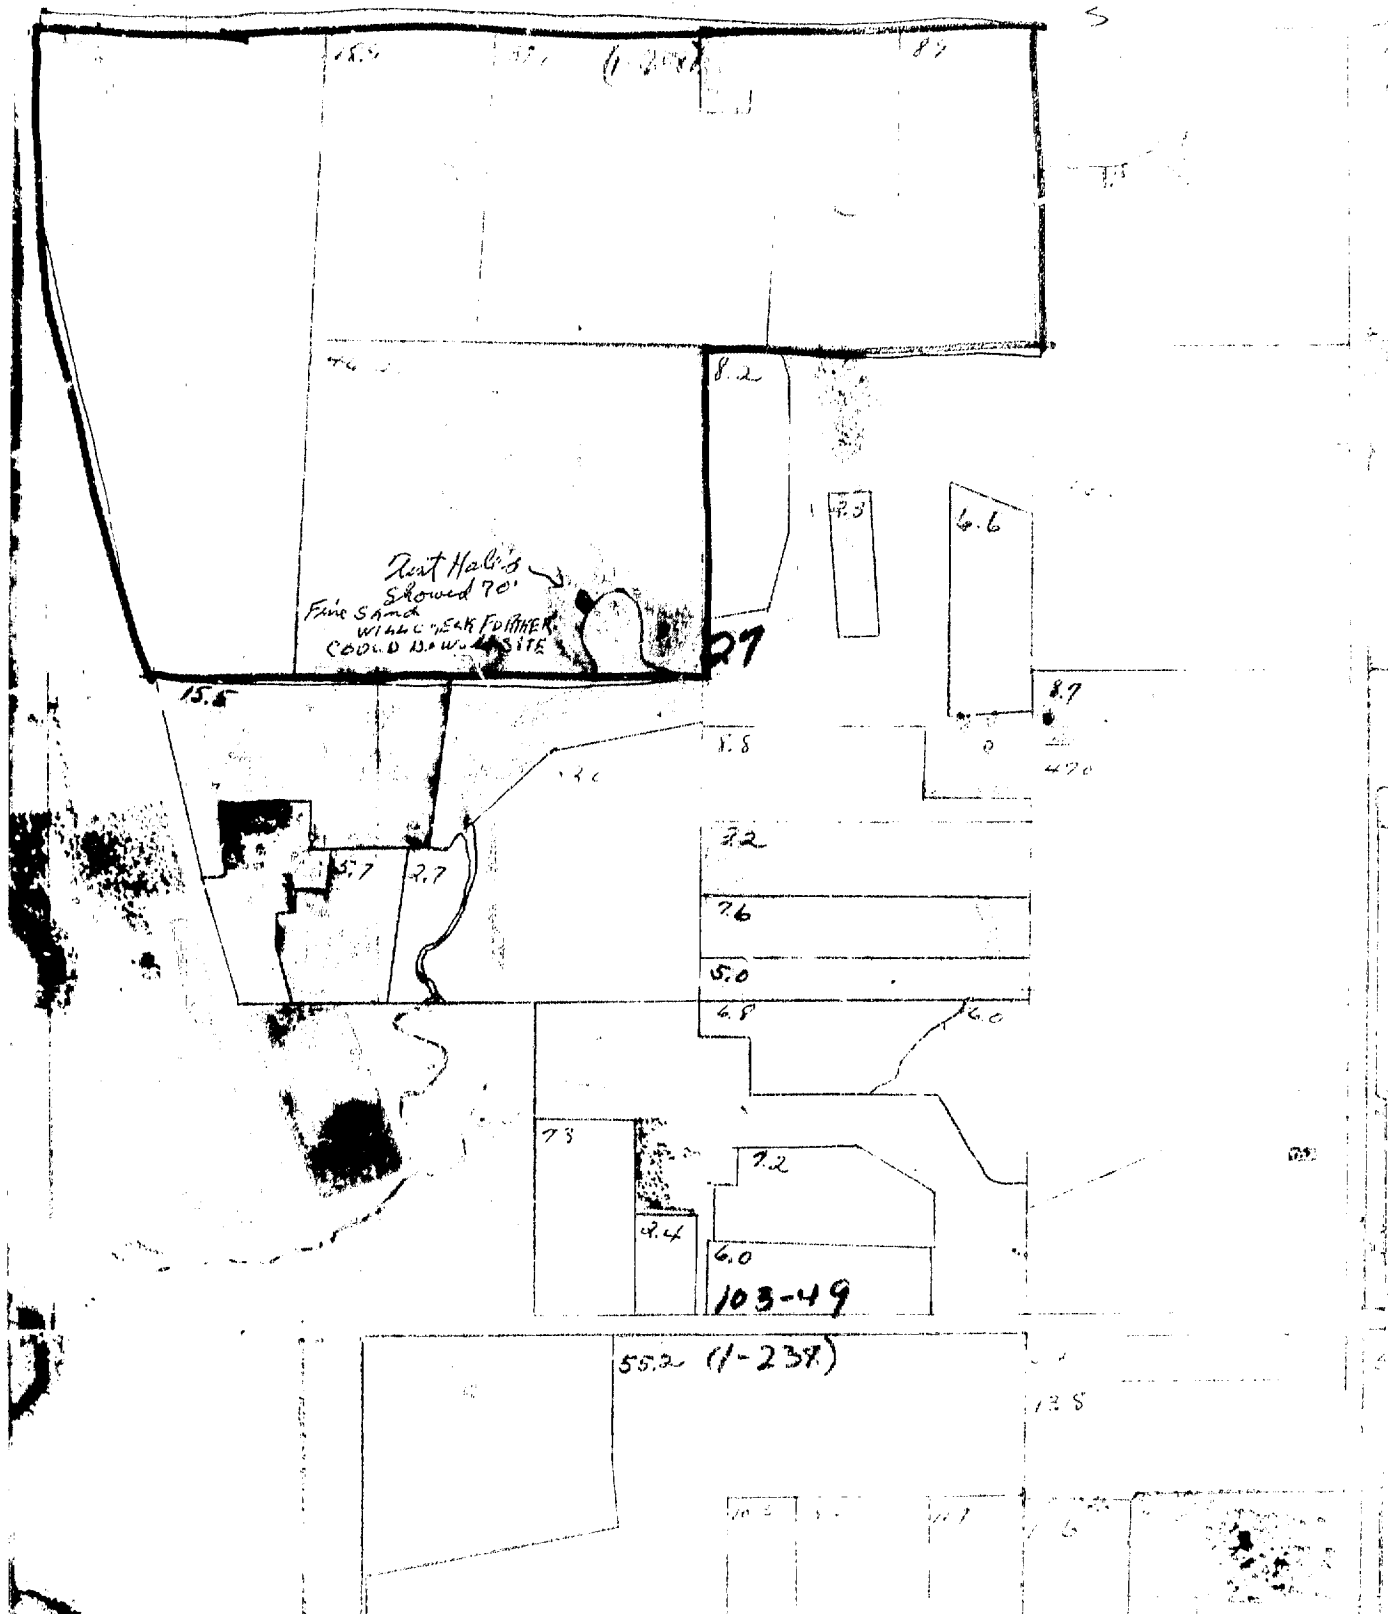

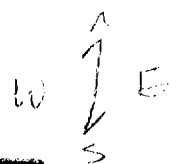

CHECKED BELOW ARE CAPABILITY CLASSES ON YOUR FARM OR RANCH

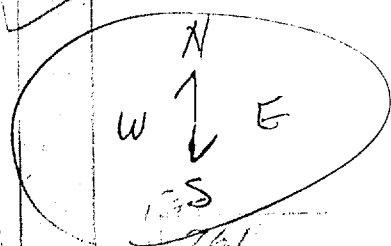

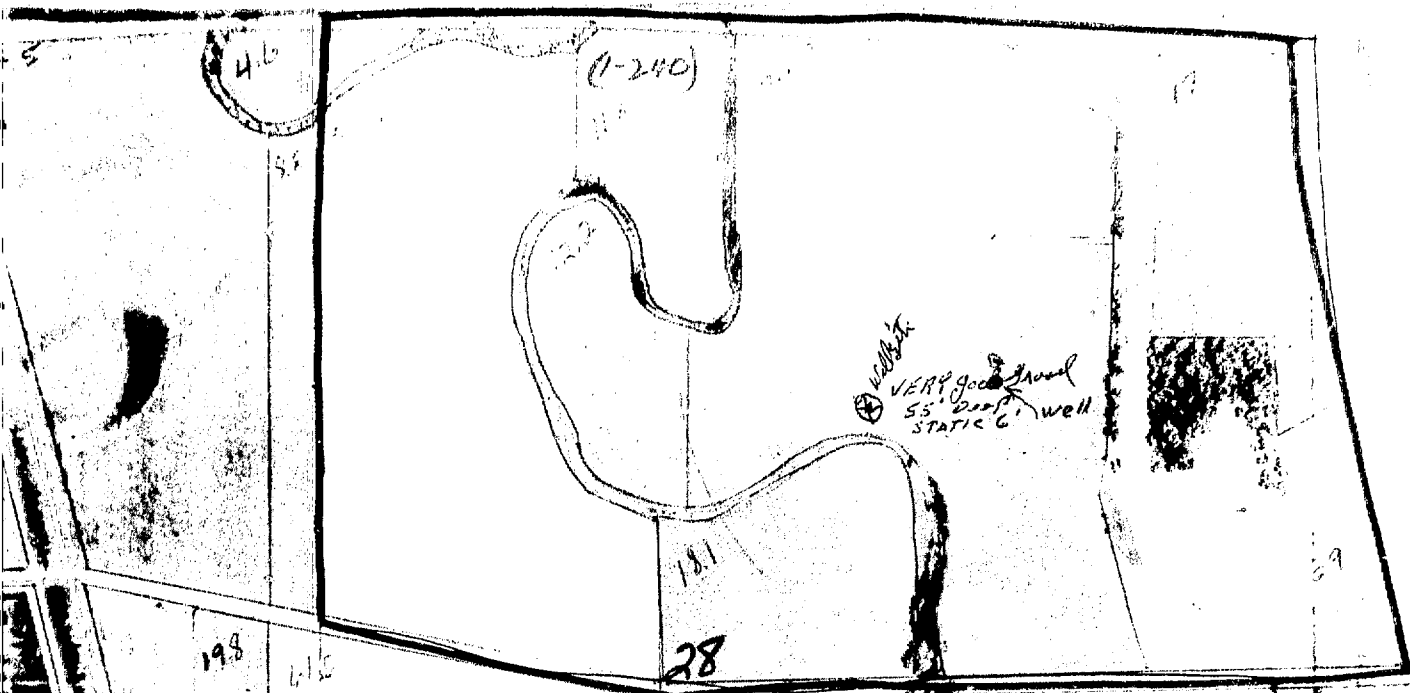

THE LAND CAPABILITY CLASSIFICATION

The capability classification is a practical method of grouping soils for use, treatment, and management. There are eight general classifications (Class I through Class VIII). The erosion hazards and limitations for use increase as the class number increases. In other words, Class I land has few hazards or limitations, whereas Class VIII has many.

- | | |
|---|---|
| <p>Class I</p> <p>Soils in Class I have few or no limitations or hazards that restrict their use. With good management practices these soils can be used safely for cultivated crops, pasture, range, woodland or wildlife.</p> | <p>Class V</p> <p>Soils in Class V have little or no erosion hazard but have other limitations that are normally impractical to remove that limits their use largely to pasture, range, woodland, or wildlife.</p> |
| <p>Class II</p> <p>Soils in Class II have some limitations or hazards that restrict their use. Choice of crop or easily applied conservation practices, or both, are needed where cultivated. Suited for cultivated crops, pasture, range, woodland or wildlife.</p> | <p>Class VI</p> <p>Soils in Class VI have severe limitations that make them generally unsuited for cultivation and limit their use largely to pasture, range, woodland, or wildlife.</p> |
| <p>Class III</p> <p>Soils in Class III have severe limitations or hazards that restrict their use. Choice of crop and intensive conservation practices are needed when cultivated. Suited for cultivated crops, pasture, range, woodland or wildlife.</p> | <p>Class VII</p> <p>Soils in Class VII have very severe limitations that make them unsuited for cultivation and restrict their use largely to grazing, woodland, or wildlife under proper management.</p> |
| <p>Class IV</p> <p>Soils in Class IV have very severe limitations or hazards. Best suited for permanent vegetation. When cultivated require careful selection of crops and very intensive conservation practices.</p> | <p>Class VIII</p> <p>Soils in Class VIII have no agricultural value because of very extreme limitations. They may have value for recreation or wildlife.</p> |

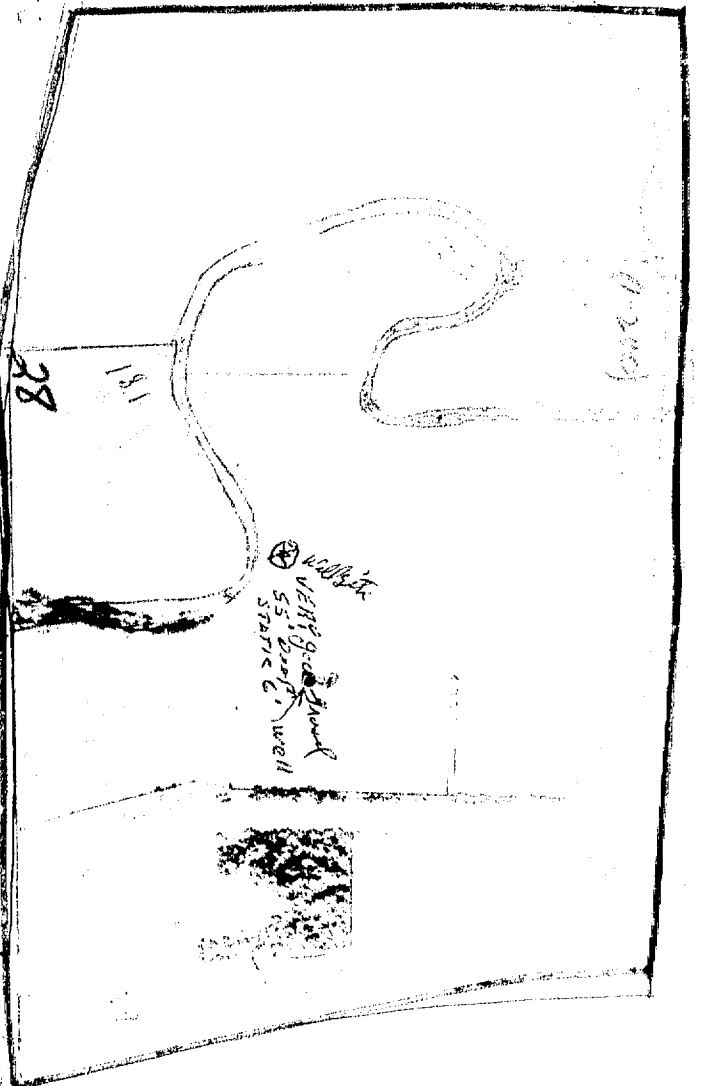

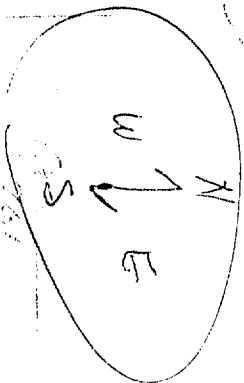

The above capability classes are further divided into sub-classes that show the principal kinds of problems involved. These sub-classes are: erosion as indicated by e, such as IIE; wetness indicated by w, such as Vw; soil limitations (shallowness or droughtiness) indicated by s, such as IVs; and climatic limitations indicated by c, such as IIC.

SUBJECT: Notice of Intent to Appropriate Water --
No. D 2047-3

Dear Mr. Jones:

Your letter of April 10, 1974 addressed to our Water Superintendent Les Hash, has come to my attention. This is in reference to the Notice of Intent to Appropriate Water, filed with the Water Rights Commission by Mrs. Val K. Beckman of Sioux Falls, for 4.5 cubic feet per second of time, from Ground Water for Irrigation purposes in Sections 27 and 28, Township 103 N, Range 49W, Minnehaha County.

After due consideration, we have come to the conclusion we should enter a Protest to the appropriation of this large volume of water within the area of our future use Water Right. We feel this large volume water appropriation, and similar appropriations, could possibly jeopardize the future water supply of the City of Sioux Falls, and wish to go on record as opposing this application.

We extend to you our sincere thanks for calling our attention to this Notice of Intent to Appropriate Water.

Yours very truly,

EARL McCART, COMMISSIONER
City of Sioux Falls,
City Hall, 224 West 9th St.
Sioux Falls, South Dakota 57102

STATE WATER RIGHTS COMM.
PIERRE, SOUTH DAKOTA

EJMc/em

2047-3

May 21, 1974

Mr. Earl McCart, Commissioner
City of Sioux Falls
City Hall
Sioux Falls, South Dakota 57102

Dear Mr. McCart:

Reference is made to your letter of May 6, 1974 expressing the opposition of Sioux Falls to Water Right Application No. 2047-3 of Mrs. Val K. Beckman to divert 4.5 cubic feet per second of ground water within the area under Sioux Falls future use Water Permit No. 448-3.

Records in this office indicate the proposed well location is a number of miles north of the nearest Sioux Falls municipal well. SDCL specifies the Water Rights Commission is to issue temporary permits for surplus water above existing municipal requirements for municipalities having future use permits.

These factors were considered by the Water Rights Commission at its hearing on May 15, 1974 and Water Right Application No. 2047-3 was approved containing the following qualification, "The city of Sioux Falls has priority rights to this water under future use withdrawal permits and this application is approved subject to these prior rights if or when the city develops the reserved water supply."

The Water Rights Commission certainly appreciates your concern but considers its qualified approval of Water Application No. 2047-3 to be mandatory under the water laws of South Dakota.

Sincerely,

Donald Driscoll
Chief Engineer

DD/fb

N Sioux Falls.

Val K. Beckman
Beckman Land and Cattle Co.
Box 1431
301 South Garfield
Sioux Falls, SD 57104

Dear Ms. Beckman:

This office has received a complaint from Dale & Jim Swartz of Baltic, SD concerning water from your irrigation system sprinkling onto 15-18 acres of corn crop. They claim the liquid fertilizer being put through the system appears to be ruining his corn crop. They have tried talking to the managers with no results. The managers were said to have stated that they were not going to babysit their irrigation system. I can not verify this information.

Please check into this problem. Any damage caused by the center pivot system to an ~~adjacent~~ landowner would be your responsibility and you would be responsible for the damage through civil action.

Please advise this office of any questions or comments.

Very truly yours,

JAMES WINTERTON
Water Resources Engineer

PO Box 287
Sioux Falls, SD 57101

Dear Sirs:

On October 6, 1988, the Water Management Board adopted rules to implement a 1988 law for application of chemicals through irrigation systems. The rules establish equipment standards, performance standards and installation requirements for irrigation systems that apply chemicals (fertilizers, insecticides, or herbicides) with irrigation water.

You have indicated on your 1988 Water Management Board Irrigation Questionnaire that you do apply chemicals with irrigation water. A copy of the new rules for chemigation are enclosed for your information.

The new standards include:

- * a check valve between the irrigation pump and the point of chemical injection;
- * a vacuum relief valve on top of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a low-pressure drain on the bottom of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a chemical injection line check valve between the chemical injection pump and the point at which the chemical is injected into the irrigation line; a second check valve is required if the chemical injection pump is not a positive displacement pump;
- * an interlock system which ensures that the chemical injection pump will stop whenever the irrigation pump stops;
- * an inspection port between the irrigation pump and the check valve on the irrigation line;

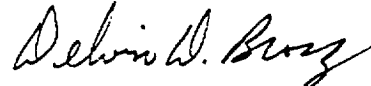

Each of these equipment requirements are discussed more thoroughly in Sections 74:02:09:05 through 74:02:09:10 of the enclosed rules. Appendix A contains diagrams of the arrangements of these anti-pollution devices.

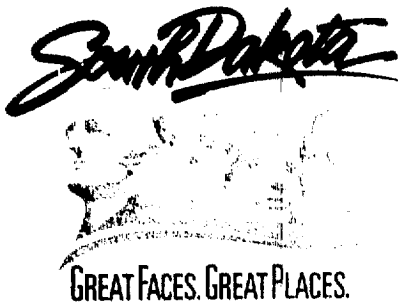

The equipment must be installed according to the manufacturer's specifications, calibrated, and maintained in good working condition. All chemical product labels must be followed and warning signs must be posted. These rules also require reporting of all spills, accidents, and system malfunctions. A 24-hour telephone number is provided.

The chemigation rules contain notification and record keeping requirements. Prior to using chemigation, notification must be given to the Chief Engineer on the enclosed Form 1C. Information that must be provided in this notification includes the water permit or right number, the name, address, and telephone number of the water permit or right holder and of the system operator, and the legal description of the lands on which the system is located. A record of the name, quantity, dates and hours of each chemical applied must be provided to the Chief Engineer on Form 2C. A copy of this form is also enclosed for your information. It will be mailed with the annual irrigation questionnaire and must be returned with the questionnaire by the date specified. If you have any questions regarding these rules or need additional copies of the forms, please contact Susan Bowar, Water Rights Engineer (605-773-3352).

Very truly yours,

NOTICE

RE: Violation of Requirement to Submit 1990 Irrigation Questionnaire

Our records indicate that the 1990 Irrigation Questionnaire has not been submitted for Permit No(s) 2047-3. The request for the Questionnaire was dated October 12, 1990. The Water Management Board has directed that owners of water permits who have not submitted the 1990 Irrigation Questionnaire be given notice of hearing(s) to be held by the Board to determine if any action is to be taken concerning the violation.

The hearings will be held at 9:15 am, February 27, 1991, at the Governor's Inn in the meeting room, 700 West Sioux Avenue, Pierre SD.

The hearing will be conducted pursuant to the provisions of SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26. Following the hearing(s), the Water Management Board can:

1. Amend Permit No(s) 2047-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action;
3. Take no action.

The hearing(s) is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is received in this office before the February 27th hearing date, your name will be deleted from the agenda for the hearing.

Very truly yours,

Ron Duvall, Natural Resources Engineer IV

NOTICE

Re: Failure to Report Chemical Use under Water Permit No(s). 2047-3

Our records indicate that the 1990 chemigation report(s) has not been received for Permits No(s) 2047-3. The request for the chemigation report(s) was dated October 12, 1990. The Water Management Board has directed that owners of water permits who have not submitted the 1990 chemigation report(s) be given notice of violation and of hearing(s) before the Board. The hearing(s) will be held to determine action to be taken by the Board for violation of South Dakota general rule 74:02:09:02(3) requiring chemigation users to report the dates and hours of chemical application.

The hearing(s) will be held at 9:15 am, on February 27, 1991, at the Governor's Inn in the meeting room, 700 West Sioux Avenue, Pierre SD.

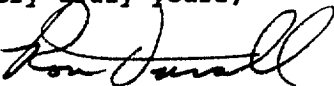

The hearing(s) will be conducted pursuant to SDCL 34A-2A through 34A-2A-5; 46-1-12, 46-1-14, 46-2-11, 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26.

Following the hearing(s) the Water Management Board can:

1. Suspend Permit No(s). 2047-3 until either the 1990 chemigation report(s) is submitted or for a period of up to one year;
2. Postpone any action;
3. Take no action.

The hearing(s) is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

Very truly yours,

Ron Duvall, Natural Resources Engineer IV

RE: Failure to Report Chemical Use under Water Permit No(s) 2047-3

The first notice to file chemigation report(s) for Permit No(s) 2047-3 was dated October 16, 1992. Our records indicate that we have not received the 1992 chemigation report for Permits No(s) 2047-3. The Water Management Board has directed that owners of water permits who have not submitted the 1992 chemigation report(s) be given notice of violation and of hearing before the Board. The hearing held by the Board is to determine what action is to be taken concerning violation of Administrative rule 74:02:09:02(3). This rule requires chemigation users to report the type of chemical applied, the dates, hours and amount of chemical application.

The hearing will be held at 9:30 A.M. on March 3, 1993, at the Floyd Matthew Training Center, Joe Foss Building, 523 E. Capitol, Pierre, SD and will be conducted pursuant to SDCL 34A-2A through 34A-2A-5; 46-1-12, 46-1-14, 46-2-11, 46-2-17. These are contested case hearings pursuant to SDCL 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation or up to three years for the second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s). 2047-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law. Prior to February 22, 1993, contact the Water Rights Division, 523 E. Capitol, Pierre, SD 57501-3181 (605 773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

NOTE: If the chemigation report(s) is(are) received by this office prior to the March 3, 1993 hearing, you will no longer be in violation and your name will be deleted from the Board agenda.

No. 2047-3

Val K. Beckman
c/o Farmers National Co.
PO Box 287
Sioux Falls SD 57101

Dear Ms. Beckman:

Enclosed is a partially completed "Notice of Transfer" form for use in filing an ownership change on Water Permit No. 2047-3. The water permit is currently listed in the name of Val K. Beckman. The irrigation questionnaire indicated that a name/ownership change had been made.

The transfer form should be checked over for accuracy and **signed by the new owner** in the presence of a notary public. Upon completion, return the form to our office with a required filing fee of \$2.50.

South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a water permit or water right to appropriate water to be filed with this office within ninety days.

If you have any questions, please contact me.

Sincerely,

Cheryl F. Frost
Secretary
Water Rights Division

2047-3

NOTICE OF TRANSFER OF OWNERSHIP

To: Chief Engineer
Water Rights Division, DENR
523 E. Capitol
Pierre, SD 57501-3181

No. 2047-3Date: MARCH 8, 1994I\We request that Water Permit No. 2047-3formerly owned by: Val K. Beckman, c/o Farmers Nat'l Co.be transferred to: (name & address) Midway Farms, Inc. 3217 Riversedge Way, Sioux Falls, SD 57105(Telephone No) 332-7788

Title to the following described land(s)/property has been transferred as described above:

427.7 acres - NW 1/4, NW 1/4 NE 1/4 Section 27 & NE 1/4, E 1/2 NW 1/4 Section 28; all in T103N-R49W

I\We understand that the validity of Water Permit No. 2047-3 has not been determined by this transfer action. If I\We have any questions on validity, I\We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file at the Division of Water Rights, as evidence of the change of ownership.

A fee of Two Dollars and Fifty Cents (\$2.50) is attached to cover the filing fees as required under SDCL 46-2-13.

STATE OF SOUTH DAKOTA)

County of Minnehaha)

I\We VAL K. BECKMAN being first duly sworn on my oath depose and say that my relation to the above described undertaking is that of Owner, that I have read the above foregoing statement, and that I know of my own personal knowledge that the information herein stated is true.

Val K Beckman
(Signed)

Subscribed and sworn to before me this 8 day of March, 19 94.

Marcine Bird
(Notary Public)
My Commission expires
Feb. 18, 1996

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Pat Beckman
Beckman Land and Cattle Co.
812 S. Minnesota Ave.
Sioux Falls, SD 57104

Dear Mr. Beckman:

This letter is in regards to Water Permit No. 2047-3. Last April, we drove out and looked at the center pivot system used to irrigate the NE1/4 of Section 28-T103N-R49W. There are a couple of questions I had for you regarding the capacity of the pump you are using on the system and the nitrogen fertilizer you are applying through the center pivot system.

The pump capacity given on the well completion report is 650 gallons per minute (gpm). The Irrigation Questionnaires submitted for the 1990 and 1991 growing seasons (attached to letter) said you were pumping 900 and 950 gpm, respectively. Last April, you were talking of replacing the well with a newer, higher capacity pump. The law limits the amount of water you can pump to 450 gpm for every 70 acres of land irrigated. The center pivot covers approximately 132 acres; therefore, you would be allowed to pump $132 \text{ acres} / 70 \text{ acres} \times 450 \text{ gpm} = 850 \text{ gpm}$. What is the correct capacity of the pump? If you are placing a new pump, let me know and give me the model, make, no. of stages, capacity and pressure of the pump. Remember, the pump is not to exceed 850 gpm. If I don't hear from you, I'll assume the capacity is 650 gpm and write the Water License for Permit No. 2047-3 at that amount.

The 1991 Irrigation Questionnaire indicated that 28% nitrogen was being applied through the system. I did not see any chemigation equipment present near the well or center pivot. Enclosed is a copy of Chapter 74:02:09 (from the Administrative Rules of South Dakota) which describes the chemigation equipment needed when applying fertilizer or chemicals through irrigation systems. Below is a list of items I need describing the chemigation system you are using for nitrogen application:

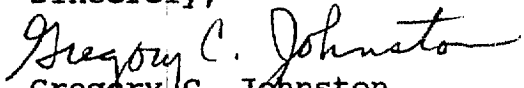

- 1) Is there a main line check valve?
- 2) Is there a low pressure drain?

- 3) What kind of interlock is used (electrical or mechanical)?
- 4) Is there an injection check valve?
- 5) Is the nitrogen discharge at least 20' away from the well head?
- 6) What is the injection pump type?
- 7) Is an injection line check valve or a positive displacement pump used?

Please forward this information to me at your convenience and I will complete the Water License for Permit No. 2047-3.

If you have any questions, please feel free to call me at any time.

Sincerely,

Gregory C. Johnston
Natural Resources Engineer II

Permit No. 2047-3
Big Sioux River - Water District

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Division of Water Rights, DENR, Foss Bldg., Pierre, SD 57501

I have this day made a thorough examination of the water use system constructed by Val Beckman of 812 S. Minnesota Ave., Sioux Falls, SD 57104 holder of Permit No. 2047-3, bearing the priority of February 13, 1974 authorizing the diversion of 4.5 cu. ft. per second of the waters of Big Sioux-Sioux Falls Aquifer for irrigation purposes, in Minnehaha County.

I have to report on the conditions of the same as follows:

- A. Works used to divert the water:
One well - 42' deep with 27' of 14" steel casing and 15' of 14" .080 slot stainless steel screen, Peerless pump, Model No. G1C5045, 8", 3 stages, 650 GPM @ 50 PSI, Westinghouse Motor, Model No. TUDP, 60 HP
- B. Works used to transport water to place of use:
20' of 8" Aluminum pipe
- C. Works used to apply water to beneficial use:
Lockwood nine-tower center pivot system, 1225' long with Rainbird nozzles and end gun, High pressure, 650 GPM

The system is in the following condition good. The point of diversion is located 1357'W and 1390'S of the NE corner of Section 28-T103N-R49W. The works are capable of diverting and conveying to the place of use 1.44 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

All in Section 28-T103N-R49W:

NW1/4 NE1/4 = 31 acres

SW1/4 NE1/4 = 33 acres

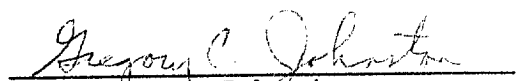

NE1/4 NE1/4 = 30 acres

SE1/4 NE1/4 = 32 acres

comprising a total of 126 acres of land and the license should be issued for 1.44 cfs.

Applicable permit qualifications have been complied with: Yes X No

Exceptions to compliance are: None Date: 4/22/92

Gary Halstead
Farmers Nations, Co.
P.O. Box 287
Sioux Falls, SD 57101

Dear Gary:

I have reviewed with Jim the work order for the repair done on the system south of Baltic. He indicated that they spent 2 hours in the field, plus an hour each way driving. Our policy is to charge for only 1 man while driving and a reduced rate for the second man while in the field. The labor rate this year was \$83.00 per hour and \$58.00 per hour for 2 men.

In this case, they helped Bob install a motor, rephased the motor after installation, repaired a motor lead, replaced fuses and stayed in the field long enough to make sure there weren't any other problems. After talking with Jim, he said I should adjust the labor for the second man in this case because of the work Bob did.

We will adjust the labor to \$140.00, which would make a new total of \$170.56. If I can help you in any other way, please call 800-658-5447.

Thank You,

Tom Pierce

Val Beckman
%Farmers National Company
P.O. Box 287
Sioux Falls, SD 57101

Dear Ms. Beckman:

The inspection of your water use system and the inspection of the extent of application of water to beneficial use, as developed under Water Permit No. 2047-3, has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the \$50.00 fee from you, we will begin processing your Water License.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the \$50.00 license fee has been paid. Please contact us if you have any questions.

Sincerely,

Cheryl F. Frost
Secretary
Water Rights Division
(605) 773-3352

NOTE: On check or money order, please specify your permit number. This will insure proper handling of the fee.

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 2047-3 FOR IRRIGATION

(1) Val Beckman of 812 S Minnesota Ave, Sioux Falls SD 57104 made Application No. 2047-3, February 13, 1974 for a water permit to appropriate 4.5 cubic feet of water per second from groundwater (one well), Minnehaha County, South Dakota for irrigation purposes. Permit No. 2047-3, with a priority date of February 13, 1974 was approved May 15, 1974 and issued to the applicant for diversion of water with construction of the described water supply system completed on or before May 15, 1977 and the application to beneficial use of said water completed on or before May 15, 1979.

On March 14, 1994, Water Permit No. 2047-3 was transferred to Midway Farms, Inc. a family corporation.

(2) It is certified that the applicant has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.44 cubic feet of water per second for beneficial use. The location of the diversion point is 1357 feet W and 1390 feet S of the NE corner of Section 28-T103N-R49W (SW 1/4 NE 1/4).

(3) The applicant has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 28-T103N-R49W	NW 1/4 NE 1/4	31 acres
	SW 1/4 NE 1/4	33 acres
	NE 1/4 NE 1/4	30 acres
	SE 1/4 NE 1/4	32 acres
	Total	126 acres

(4) Pursuant to South Dakota Water Law 46-5-30.1 Midway Farms Inc. c/o Val Beckman of 3217 Riversedge, Sioux Falls SD 57105 the holder and/or owner of Water Permit No. 2047-3 is issued a license to appropriate water, the right to use 1.44 cubic feet of water per second from groundwater (one well) with a priority date of February 13, 1974 from the location specified in (2) of this license. The water to be conducted to and upon lands specified in (3) of this license for the purpose of irrigation. This license is subject to any limitations or qualifications listed in Water Permit No. 2047-3 and subject to South Dakota State Law.

Midway Farms, Inc.
Val Beckman
3217 Riversedge
Sioux Falls, SD 57105

Dear Ms. Beckman:

Enclosed is Water License No. 2047-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 413929 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 2047-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

SD EForm - 0495 V1 NOTICE OF TRANSFER OF OWNERSHIP

To: Chief Engineer
Water Rights Program, DENR
523 E. Capitol
Pierre, SD 57501-3181

Water Right/Permit No. 2047.3

Date: 2/12/2003

I/We request that Water Right/Permit No. 2047.3 formerly owned by:
Val Beckman, Midway Farms Inc., 3217 W Rivers Edge Way, Sioux Falls, SD 57105 be transferred to:

New Owner Name: City of Sioux Falls

Address: 224 W 9th Street

City, State, Zip Sioux Falls SD 57104 Telephone No. (605) 367-7025

Title to the following described land(s)/property has been transferred as described above:

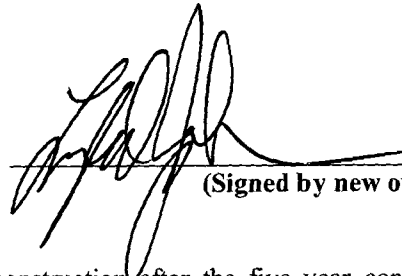

NE 1/4 of Section 28-103-49 Minnehaha county (approx. 178 acres.)

☒ I understand that the validity of Water Right/Permit No. 2047.3 has not been determined by this transfer action. If I have any questions on validity, I understand that only the Water Management Board has the authority to determine if a water right/permit is valid (see note below.)

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Two Dollars and Fifty Cents (\$2.50) is included to cover the filing fee as required by SDCL 46-2-13.

I, City of Sioux Falls SD, the new owner, certify that the above information is true and correct.

(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
