Dear Mr. Krogh:

I am contacting you in regard to your Water Right No. 2048-3. The water right authorizes irrigation of 120 acres in the S $\frac{1}{2}$ NE $\frac{1}{4}$ and N $\frac{1}{2}$ SE $\frac{1}{4}$ Section 25, T112N, R51W.

In the past few years, I have not mailed you an irrigation questionnaire to report annual water use because your land has been in the Conservation Reserve Program. A notation in your water right says that the land is in CRP through 1992.

In order to update our records in preparation for mailing out the 1999 irrigation questionnaires, I have a few questions I need to ask you.

1. Do you still own the land?
2. Have you re-enrolled the land for another 10 years?
3. If you did not re-enroll in the CRP program, do you intend to irrigate?

Please take a few minutes to either call or write to me with the above information. I would appreciate a response from you no later than August 23th.

Thank you in advance for your help.

Thank you for your letter of August 20th concerning Water Right No. 2048-3.

I will include your letter with Water Right No. 2048-3. Irrigation questionnaires will not be mailed to you until the land comes out of CRP. You indicated you were not sure if it was a 10 year program or not. If the land comes out of CRP prior to 2009 please write or give us a call and I will adjust our records.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Mr. Krogh:

I am contacting you in regard to your Water Right No. 2048-3 (copy enclosed).

Irrigators in South Dakota are required to submit an annual irrigation questionnaire reporting how much water was pumped during the irrigation season. Our records show the land authorized for irrigation under Water Right No. 2048-3 has been in the Conservation Reserve Program through 2017.

The purpose of my letter is to find out the status of irrigation on your property. Please take a few minutes and answer the questions on the attached sheet and return it in the envelope provided. **If you have made a decision not to maintain the water right, let me know that as well.**

Thank you in advance for your help in updating the water right.

Sincerely,

Genny McMath
