Dear Mr. Woertink:

Enclosed are reissued Water License No. 2061A-3 and Water Permit/License No. 6243-3. These are the final water right documents completing your process of obtaining a Water Right.

The applicable portions of 2061A-3, 2888-3 and 3888-3 are incorporated into Water Right No. 6243-3.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 6243-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbele, Chief Engineer
