WATER RIGHT PERMIT NO. 2079-3

The Water ^{Rights} Commission hereby grants and issues this Water Right Permit No. 2079-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is JANUARY 28 19 75
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before SEPTEMBER 20 19 76
3. The whole of said work is to be completed on or before MARCH 20 19 78
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MARCH 20 19 81
5. The water appropriated shall be used for the purpose of IRRIGATION
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 2.64 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purpose, appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MARCH 20 19 81 said water to be used during the following described annual period: MAY THRU SEPTEMBER

Dear Mr. Madsen:

We have received your completed W-1 form. A copy of the water analysis, the W-1, and a copy of this letter are today going to the State Conservation Commission for action on your water permit.

The water is moderately high in total salinity but has a low sodium hazard and with the soils which are indicated to be irrigated by this water there should be little or no problem from the water quality standpoint. However, you should be cautioned to be careful not to over irrigate or to raise the water table because the black silty clay loam is not a well drained soil and, thus, you could have water table problems and possibly rising salinity by careless irrigation on that land.

I am enclosing a copy of Extension Circular 654 which gives some guidelines on irrigation, water quality, and soil problems. Your water quality is indicated by the encircled red cross on the back cover. Please read this circular carefully and contact us or the extension irrigation specialist at South Dakota State University if you have further questions or if problems develop.

Sincerely,

Attention: Mr. Wilke

Dear Mr. Wilke:

I am contacting you in regard to ownership of Water Permit No. 2079-3. Arnold Madsen, Sioux City, Iowa has notified our office that he sold his land in Union County to you. If you intend to irrigate this land, the water permit should be transferred.

Enclosed is a partially completed "Notice of Transfer" for use in filing an ownership change on Water Permit No. 2079-3. Please check over the form and sign in the presence of a notary public. Upon completion of the form, return it to our office with a required filing fee of \$2.50.

South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a Water Permit or Water Right to appropriate water to be filed with this office within ninety days.

Also enclosed is the 1989 irrigation questionnaire pertaining to this water permit. Please complete the form and return it to our office before December 15, 1989.

If you do not intend to irrigate this land, please indicate this when returning the irrigation questionnaire. If you have any questions, please contact me.

Dakota Dunes, SD 57049

Dear Mr. Block:

On November 14, 1989 notice was sent to you concerning the transfer of Water Permit No. 2079-3 in the name of Arnold W Madsen. To date, we have not heard from you on this matter.

Water Permit No. 5438-3, approved on May 23, 1990, amends Water Permit No. 2079-3 by changing the location of the irrigated acreage, adding a diversion point and increasing the diversion rate from the new well. Although Permit No. 5438-3 is listed in the name of Dakota Dunes Golf Course, Permit No. 2079-3 still needs to be transferred.

A transfer form was previously sent to you. Enclosed is an additional form. Please sign, have notarized and return the form to this office with the required filing fee of \$2.50. The permit can then be transferred to your name. It is very important that ownership records be kept current. South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a Water Permit or Water Right to appropriate water to be filed with this office within ninety days.

If you have any questions, please contact Genny McMath, (605) 773-3352.

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

RE: Failure to Report Chemical Use under Water Permit No(s) 2079-3

The first notice to file chemigation report(s) for Permit No(s) 2079-3 was dated October 16, 1992. Our records indicate that we have not received the 1992 chemigation report for Permits No(s) 2079-3. The Water Management Board has directed that owners of water permits who have not submitted the 1992 chemigation report(s) be given notice of violation and of hearing before the Board. The hearing held by the Board is to determine what action is to be taken concerning violation of Administrative rule 74:02:09:02(3). This rule requires chemigation users to report the type of chemical applied, the dates, hours and amount of chemical application.

The hearing will be held at 9:30 A.M. on March 3, 1993, at the Floyd Matthew Training Center, Joe Foss Building, 523 E. Capitol, Pierre, SD and will be conducted pursuant to SDCL 34A-2A through 34A-2A-5; 46-1-12, 46-1-14, 46-2-11, 46-2-17. These are contested case hearings pursuant to SDCL 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation or up to three years for the second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s). 2079-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law. Prior to February 22, 1993, contact the Water Rights Division, 523 E. Capitol, Pierre, SD 57501-3181 (605 773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

NOTE: If the chemigation report(s) is(are) received by this office prior to the March 3, 1993 hearing, you will no longer be in violation and your name will be deleted from the Board agenda.

Dear Mr. Hausman:

Enclosed is Water License No. 5786-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 414060 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5786-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
