WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 2348-3ERNEST E. ROZELL
(Applicant)P.O. Box 101, ELK POINT
(Post Office Address)SOUTH DAKOTA 57025
(State)

With the following modifications:

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in existing domestic wells or in irrigation wells having prior water rights.

Date of first receipt of application AUGUST 15, 19 75
 Date of return to applicant for correction, amendments or changes required SEPTEMBER 18, 19 75
 Date of receipt of corrected application SEPTEMBER 29, 19 75
 Approved NOVEMBER 13, 19 75, Recorded in Book 14 Page 85

WATER RIGHT PERMIT NO. 2348-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 2348-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is AUGUST 15, 19 75
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before MAY 13, 19 78
3. The whole of said work is to be completed on or before NOVEMBER 13, 19 80
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is NOVEMBER 13, 19 80
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 1.14 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is

actually and beneficially applied for irrigation on or before NOVEMBER 13, 19 80; said water to be used during the following described annual period: JUNE THRU AUGUST

Witness my hand this 17TH day of NOVEMBER, 19 75

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 2348-3.

Water Right Permit No. 2348-3 states that the diversion system is to be constructed by Nov 13, 1980 and that the water is to be put to beneficial use by Nov 13, 1980.

The diversion system was completed on Nov 1, 1975. Applying the water to beneficial use was completed on Nov 1, 1975.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

**REPORT OF EXAMINATION OF WORKS
AND/OR APPLICATION OF WATER TO BENEFICIAL USE**

TO: Water Resources Commission, State Office Building No. 2, Pierre, South Dakota 57501

I have this day made a thorough examination of the water use system constructed by Ernest E. Rozell of P.O. Box 101, Elk Point, S.Dak. 57025 holder of Permit No. 2348-3, bearing date of priority of August 15, 1972 authorizing the diversion of 1.14 cu. ft. per second of the waters of Ground for Irrigation purposes, in Union County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

Meter - General Electric, 50 HP., 1760 RPM
 Ser. # B6J. 226420
 Pump - Western Land Roller, Ser # C75713
Head 8M, 5-100-H.
pumping 650 gpm.

B. Works used to transport water to place of use,

1320 ft 5" dia. Pvc underground pipe.

C. Works used to apply water to beneficial use.

Center Pivot. 3 tower Valley. Made from used equipment.

The system is in the following condition: Good

The point of diversion is located 1480 ft South and 1320 ft East of the NW
Corner of Section 26, T90N R48W

The works are capable of diverting and conveying to the place of use 1.145cu. ft. per second of water which is to be used for Irrigation

Water has been put to beneficial use to the maximum extent as follows: All in Section 26, T90N R48W

S1/4 NW 1/4 - 37.5 Ac.; SE 1/4 NW 1/4 - 37.5 Ac.

comprising a total of 75 acres of land.

Well 100 ft deep pumping 650 gpm.

Dear Mr. Rozell:

Enclosed herewith are, Water License No. 2348-3,
Certificate of Construction, and Receipt No. 46246, in the
amount of \$ 12.00 for the fee which you have paid.

Water License No. 2348-3 is the final water right document
completing your process of obtaining a water right.

As long as you use the water beneficially, as stated in the
Water License, the State Water Laws provide that you have a con-
tinuing right to use the water.

Very truly yours,

JOHN HATCH, Chief Engineer
WATER RIGHTS COMMISSION

JH/gy

encl

NOTE: You pump capacity is 1.45 cfs (651 gpm). Based upon the acreage actually
irrigated you are entitled to divert only 1.07 cfs (480 gpm). Any diversion in
excess of 1.07 cfs would be a violation of your water right.

February 17, 1989

Ernest Rozell, Jr.
RR 1, Box 28A
ElkPoint, SD 57025

Dear Mr. Rozell:

On October 6, 1988, the Water Management Board adopted rules to implement a 1988 law for application of chemicals through irrigation systems. The rules establish equipment standards, performance standards and installation requirements for irrigation systems that apply chemicals (fertilizers, insecticides, or herbicides) with irrigation water.

You have indicated on your 1988 Water Management Board Irrigation Questionnaire that you do apply chemicals with irrigation water. A copy of the new rules for chemigation are enclosed for your information.

The new standards include:

- * a check valve between the irrigation pump and the point of chemical injection;
- * a vacuum relief valve on top of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a low-pressure drain on the bottom of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a chemical injection line check valve between the chemical injection pump and the point at which the chemical is injected into the irrigation line; a second check valve is required if the chemical injection pump is not a positive displacement pump;
- * an interlock system which ensures that the chemical injection pump will stop whenever the irrigation pump stops;
- * an inspection port between the irrigation pump and the check valve on the irrigation line;

Each of these equipment requirements are discussed more thoroughly in Sections 74:02:09:05 through 74:02:09:10 of the enclosed rules. Appendix A contains diagrams of the arrangements of these anti-pollution devices.

The equipment must be installed according to the manufacturer's specifications, calibrated, and maintained in good working condition. All chemical product labels must be followed and warning signs must be posted. These rules also require reporting of all spills, accidents, and system malfunctions. A 24-hour telephone number is provided.

The chemigation rules contain notification and record keeping requirements. Prior to using chemigation, notification must be given to the Chief Engineer on the enclosed Form 1C. Information that must be provided in this notification includes the water permit or right number, the name, address, and telephone number of the water permit or right holder and of the system operator, and the legal description of the lands on which the system is located. A record of the name, quantity, dates and hours of each chemical applied must be provided to the Chief Engineer on Form 2C. A copy of this form is also enclosed for your information. It will be mailed with the annual irrigation questionnaire and must be returned with the questionnaire by the date specified. If you have any questions regarding these rules or need additional copies of the forms, please contact Susan Bowar, Water Rights Engineer (605-773-3352).

Very truly yours,

for

3644-3 and 3674-3

Dear Mr. Rozell:

Thank you for the prompt return of the 2011 irrigation questionnaires. I note from the forms that ownership changes are needed for the above listed water rights.

Enclosed are partially completed Notice of Transfer of Ownership forms for filing the ownership changes. Please review and complete as needed. Upon completion, please sign the forms and return them to our office with a required filing fee of \$50.00 each (total of \$400). The check or money order for the fee can be made payable to the Water Rights Program.

If you have any questions, please contact me.

Sincerely,

Date: _____

I/We request that Water Right No. 2348-3formerly owned by: Ernest E Rozell, Jr

be transferred to: (name & address) _____

Michael & Joanne Rozell
32955 476th Avenue
Elk Point, SD 57025

6808Telephone No. 356 2961

Title to the following described land(s)/property has been transferred as described above:

75 acres - S 1/2 NW 1/4 Section 26, T90N, R49W

I/We understand that the validity of Water Right No. 2348-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is required to cover the filing fees as required under SDCL 46-2-13. This form must be signed by the new owner.

Michael J. Rozell

I/We _____, the new owner, certify that the above information is true and correct.

(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

RE: Ownership changes for Water Right Nos. 2015-3, 2016-3, 2017-3, 2348-3, 2349-3, 2526-3
and 3644-3

Dear Mr. Rozell:

I am writing to acknowledge receipt of the transfer forms and filing fees you submitted for the above listed water rights.

The ownership changes have been completed. The water rights formerly held by Ernest E Rozell are now listed in your names. Enclosed for your records are the receipts for the filing fees you paid.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Genny McMath".
