WATER RIGHT PERMIT NO. 2353-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 2353-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is SEPTEMBER 2 1975
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before MAY 13 1978
3. The whole of said work is to be completed on or before NOVEMBER 13 1980
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is NOVEMBER 13 1983
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 1.09 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water

actually and beneficially applied for irrigation on or before NOVEMBER 13 1983; said water to be used during the following described annual period: APRIL THRU OCTOBER

Dear Sirs:

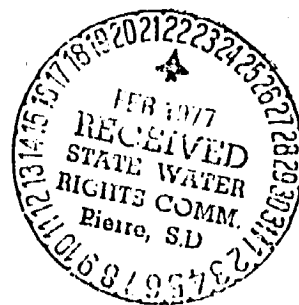

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 2353-3.

Water Right Permit No. 2353-3 states that the diversion system is to be constructed by Nov 13, 1980 and that the water is to be put to beneficial use by Nov 13, 1983.

The diversion system was completed on June 9, 1976. Applying the water to beneficial use was completed on June 12, 1976.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

Dear Mr. Manker:

Enclosed, as requested, is a copy of Water Permit No. 2353-3. The permit is currently listed in the name of Donald Winterfeld.

A partial inspection of the water use system was conducted in 1977 (see 1st page of attachment). Since the inspection was conducted prior to the date specified on the permit for completion of works, a license was not issued. Since a followup inspection has not yet been conducted, the extent of development of the irrigation system has not been determined.

Mr. Winterfeld reported on his 1993 irrigation questionnaire that he did not irrigate due to heavy rainfall, however, he did make a notation that 77 acres could be irrigated in a normal year.

If you have any questions, please contact me.

RE: irrigation questionnaires for 2353-3 (Donald Winterfeld) and 6144-3 (Doug Winterfeld)

COMMENTS:

Doug called in reference to the certified letter he received regarding his 2000 irrigation questionnaire. He thought all information would have been put on his dad's form (#2353-3). He said that they use the same pump site and he thought that by reporting on one, they were reporting for both. I told him that they could do that as long as they made a notation on the form that it included information for both.

Doug indicated that his father should have written down on 2353-3 that they did not irrigate during 2000. I told him that Donald Winterfeld reported irrigation of 75 acres in July and August. Doug indicated that his father was mistaken, they have not irrigated for two years however his dad may have been reporting the figures for the last time they irrigated.

Doug Winterfeld stated that both 2353-3 and 6144-3 need to reflect "No irrigation" took place in 2000.

Dear Mr. Winterfield:

On July 26, 2005 the investigation of your water use system, including the extent of application of water to beneficial use, as developed under Water Permit No. 2353-3, Donald Winterfield, was completed by Lynn Beck, staff engineer with our program. The final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee, we will complete processing your water license. The check or money order for the fee should be made payable to the "Water Rights Program". The license fee for Water Permit No. 6144-3 was submitted at the time the application was received.

Your licensed water right will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of your water use system or payment of the fee, please contact Lynn Beck with our program at (605) 773-3352.

WATER LICENSE NO. 2353-3

(1) Donald Winterfeld, 3480 Eagle Ave, Sioux Center IA 51250 made Application No. 2353-3, September 2, 1975 for a water permit to divert 1.09 cubic feet of water per second from groundwater (one well), Lincoln County, South Dakota for irrigation purposes. Permit No. 2353-3, with a priority date of September 2, 1975 was approved November 13, 1975 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before November 13, 1980 and for the application to beneficial use of water on or before November 13, 1983.

(2) The water supply system has been completed and water applied to beneficial use in accordance with South Dakota State Law. Pursuant to South Dakota Codified Law 46-5-30.1, the holder and/or owner of Water Right No. 2353-3 is issued a license, bearing a priority date of September 2, 1975 to appropriate 0.78 cubic feet of water per second from groundwater (one well) to irrigate 62 acres.

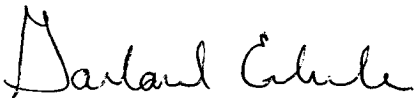

The diversion point is located: 2,240 feet east and 1,340 feet north of the southwest corner Section 24-T96N-R48W (NE ¼ SW ¼). The acres authorized for irrigation are as follows:

Section 24-T96N-R48W	NE ¼ SW ¼	31 acres
	NW ¼ SW ¼	31 acres
Total 62 acres		

Water License No. 6144-3 utilizes the same well to irrigate S ½ NW ¼ Section 24-T96N-R48W.

(3) This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Permit No. 2353-3 including the following now applicable qualification:

- The irrigation well approved under this Permit will be located near domestic wells, municipal and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in existing domestic wells or in wells having prior water rights.

Dear Mr. Winterfeld:

Enclosed are Water License Nos. 2353-3 & 6144-3. These are the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 001980 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program
(605) 773-3352
