Dear Mr. Goc:

We have now received your water sample and have completed the analysis. I had earlier received the WI-1 form so I have all the materials necessary to forward your application.

Enclosed you will find the original copy of the report of analysis. This is yours to keep. Also you will find enclosed a copy of extension circular 654 which explains some of the major problems which may occur when poor quality waters are used to irrigate soils. The soils which you have are fairly good and would respond very well to normally decent irrigation water. The water which you have, however, is very high in total salt and low in sodium. The red cross on the outside back cover of extension circular 654 shows how it fits in the nationally used water quality diagram. With the salinity that it has, I would recommend that you think very carefully about developing an irrigation system with this water. The reason is that the **salt** content of the soil will build up in time to the point where this will not produce satisfactory yield of crops unless you take specific measures to leach salt occasionally. This will include especially the filling of the soil profile in the fall of the year and hoping for adequate rainfall in early spring to leach the soils. Under these circumstances I would recommend that you contact the State Conservation Commission and your work unit conservationist and discuss this very carefully. I am, however, forwarding this to the State Conservation Commission for further action.

Sincerely yours,

RE: inspect suspended permit
COMMENTS:

Spoke with Mr. Goe about the status of his permit. He said he wasn't irrigated yet. I asked him if he planned on irrigating this year. He said he was if he needed to. I informed him that he couldn't because his permit was suspended since he didn't return his questionnaire. He told me that he didn't like paperwork and that it's been the same problem clear. The only way he knows what his usage is by calling the electric company. I told him that we needed the information to see how much water is being used in the state.

I also told him that I would be stopping by again some other time to see.

I drove by his land but couldn't see anything that he would use to irrigate with. It looked like he lost a lot of his corn to the heavy rains unless he didn't plant much.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

RE: Status of Water Right No. 2354-3

COMMENTS:

In March, 1993, the Water Management Board SUSPENDED Water Right No. 2354-3 for three irrigation seasons due to non return of the 1992 irrigation questionnaire. At the time the water right was suspended the current owner was Frank Goc.

In January, 1994, the water right was transferred to Curtis Roddewig, Onida, SD. On April 14th, I contacted Mr. Roddewig to find out if he was aware of the suspension and if he intended to irrigate.

He stated he did not realize the water right was suspended and inquired what he could do to be able to irrigate. I told him to write a letter to us stating he now owned the land and wished to irrigate. The matter would then be scheduled for hearing before the Water Management Board. The Board, in all likelihood, would rescind the suspension and reinstate the water right since ownership has changed.

Dear Mr. Hatch,

On January 28, 1994 water right No. 2354-3 was transferred to me. On April 19, 1994 I received a phone call from your office informing me that this water right had been suspended from Mr. Mark Doe when he had the property.

I purchased this parcel of realty in 1993 (Sec 15-112-76, Hughes County) but did not irrigate it due to late possessions and delay in getting legal work finished. However, I did farm it in 1993.

I plan to irrigate this parcel in 1994 and am requesting that the water right be reinstated to me.

Thank you for your attention to this matter.

NOTICE

TO: Curtis Roddewig, RR #1 Box 723, Onida, SD 57564

FROM: John Hatch, Chief Engineer
Water Rights Division
(605) 773-3352 

SUBJECT: Reinstatement of Water Right No. 2354-3

On May 5, 1994, the Water Management Board took action to rescind a motion made at the March 3, 1993 meeting to suspend Water Right No. 2354-3. This action reinstated Water Right No. 2354-3, effective immediately.

Violations of a water right or permit by not returning the annual irrigation questionnaire can result in suspension or cancellation of that right. The Board's action to reinstate Water Right No. 2354-3 was based on the change of ownership that occurred and the fact that you were not the person responsible for the violation.

The 1994 Irrigation questionnaires will be mailed from our office in October, 1994. Irrigators then have until the middle of December to complete and return the forms. Enclosed is a "sample" irrigation questionnaire to give you an idea of the information required and the type of records you should keep during the irrigation season.

If you have any questions concerning the Board's action, please contact us.

CERTIFICATION

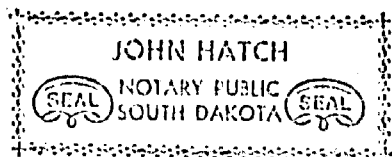

I hereby certify that on May 6, 1994, I have personally deposited with the United States Mail at Pierre, South Dakota, first class postage, prepaid envelopes containing a Notice dated May 6, 1994, along with an Irrigation Questionnaire form, regarding Reinstatement of Water Right No. 2354-3, addressed as stated below:

NOTICE OF ENTRY OF ORDER FOR ONE YEAR SUSPENSION OF WATER RIGHT

TO: Ronald Jones, 5245 W Allens Bridge Rd., Greeneville TN 37743-1820

FROM: Jeanne Goodman, Chief Engineer
Water Rights Program 

SUBJECT: One Year Suspension of Water Right No. 2354-3

On March 6, 2019, the Water Management Board ordered:

Effective April 6, 2019, Water Right No. 2354-3 be suspended for the 2019 irrigation season for failure to submit the 2018 irrigation questionnaire.

If the 2018 irrigation questionnaire is received prior to April 6, 2019, the suspension will not take effect.

Suspension of a water permit or right means water may not be pumped during the 2019 irrigation season. Consistent with the Board's order, you are not permitted to irrigate in 2019 unless the 2018 irrigation questionnaire is submitted by April 6th.

After April 6th, you may petition the Water Management Board to rescind the suspension. You will need to submit the 2018 irrigation questionnaire and a letter to our office requesting time on the agenda for the next Water Management Board meeting scheduled for May 8-9, 2019, in Pierre, SD. The letter should include your reasons for not completing the 2018 irrigation questionnaire. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.

Water Rights Staff will conduct compliance checks of suspended water rights this summer to determine if irrigation is taking place.

Please contact Genny McMath (605) 773-3352, if you have any questions.

Dear Mr. Larson:

The Water Rights Program is in receipt of the 2025 Irrigation Questionnaire you submitted for Water Right No. 2354-3.

Water Right No. 2354-3 authorizes the diversion of 0.74 cfs (335 gpm) from one well for irrigation of 52 acres in the S1/2 NW1/4, Section 15-T112N-R76W.

On this year's questionnaire, you reported that irrigation on the property had been abandoned since 2012.

Pursuant to SDCL 46-5-37, if water appropriated under a permit/water right, is not placed to beneficial use for a period of three or more years (without legal excuse), the unused position of the permit/water right may be subject to cancellation due to abandonment or forfeiture.

Please contact me via email or by calling my direct line (605) 773.8204 to discuss potential cancellation of Water Right No. 2354-3.

RE: Cancellation of Water Right No. 2354-3

COMMENTS:

I received a call from Twyla Reading (daughter) after she received the irrigation questionnaire in the mail, she stated that Dennis had passed away 2 years ago, and she didn't think that they had irrigated for over 3 years. She spoke to Jared Yeager who takes care of that property, he said that they only use the water from the well to give the chickens some water, and a very small personal garden. They would like to cancel this water right due to abandonment.
