Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, August 10, 1999 made a thorough examination of the water use system constructed by Dean Hansen of 31453 Cut Across Rd., Harrold, SD 57536 holder of Permit No. 2432-3, bearing the priority of October 31, 1975 authorizing the diversion of 13.52 cu. ft. per second of the waters of Missouri River for irrigation purposes, in Hughes County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

Berkley pump model no. T2-38JRBM with a 600 gpm capacity and a 100 hp diesel tractor motor at the Missouri River.

B. Works used to transport water to place of use:

3925' of 8" aluminum pipe and 690' of 8" pvc pipe.

C. Works used to apply water to beneficial use:

8800' of 8" aluminum gated pipe with gate at 30" spacing and a 600 gpm capacity.

The system is in the following condition good. The point of diversion is located 1360' S and 690' W of the center of Section 36, T109N, R76W. The works are capable of diverting and conveying to the place of use 1.33 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

All in Section 36, T109N, R76W:

SW NE 46 acres SW SE 28 acres

SE NE 33 acres SE SE 28 acres

comprising a total of 129 acres of land and the license should be issued for 1.33 cfs.

Applicable permit qualifications have been complied with: yes

Exceptions to compliance are: none

Comments:

Permit No. 3728-3 uses the same diversion point and irrigation system as Permit No. 2432-3 to irrigate 36 acres. Permit No. 3728-3 has a different owner than 2432-3 and will be licensed separately.

For some unknown reason the 200 acres in field 9 were crossed of on the permit application. The advertisement included the E½ of Section 36, T109N, R76W. Dear Mr. Hansen:

Enclosed is Water License No. 2432-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 416366 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 3432-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

No. 2432-3

Date: 2-9-22

I/We request that Water Right No. 2432-3

Title to the following described land(s)/property has been transferred as described above:

129 acres - S 1/2 NE 1/4 and S 1/2 SE 1/4 Section 36, T109N, R76W

I/We understand that the validity of Water Right No. 2432-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
