APPLICATION FOR PERMIT

To Appropriate Water within the State of South Dakota

(NOTE--Draw a line through items not applicable)

- Name of Applicant Dennis Naramingo
- Postoffice address Springfield, State South Dakota
- If a corporation show date and place of incorporation _____ employment of others _____
- Method of accomplishing work (contract, employment of others, or by direct labor) _____
- Name of diversion work P and N Ranch Irrigation Project No. 1
- Amount of water claimed (cubic feet per second) 1.7
- Source of water supply Missouri River
- Location of point of diversion approx. 1300 ft. SW of the center of section 8-22-61 along the South Dakota side of the Missouri River.
- County Bon Homme
- Annual period or periods during which water is to be used Apr. thru Nov.
- Use to be made of water, (irrigation, industrial, municipal, commercial, recreation, etc.) irrigation
- For irrigation use, Total number of acres to be irrigated 329.5

List below each forty acre subdivision, or lot, or fraction thereof and show number of acres to be irrigated in each.			
Land Description	No. Acres Irr.	Land Description	No. Acres Irr.
NE 1/4 & N 1/2 SW 1/4 sec. 4-22-61	163.0		
NE 1/4 sec. 5-22-61	87.7		
SE 1/4 sec. 5-22-61	78.8		

Attach sheet if more space is needed

- Time required to complete construction of water supply system 5 years. Additional time required to complete application of water to the proposed beneficial use 2 years.
- Choice of newspaper for Notice of Intent to Appropriate Water publication Springfield Times
- Principal Features of the Proposed Water Supply System.
 - Works proposed to divert water from its natural source.
Buried pipeline
 - Works proposed to transport water to place of use.
Buried and surface pipeline.
 - Works proposed to apply water to beneficial use.
Center pivot sprinkler and water gun.

Estimated Total Cost \$ 110,000

Attachments: Attach Form 2A if diversion from a well or dugout, or if storage of water, is proposed. Attach map.
 (See instructions concerning preparation.)

WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 2442-3
DENNIS NAMMINGA SPRINGFIELD
 (Applicant) (Post Office Address)
SOUTH DAKOTA 57062 With the following modifications:
 (State)

Date of first receipt of application DECEMBER 1, 1975
 Date of return to applicant for correction, amendments or changes required —, 19—
 Date of receipt of corrected application —, 19—
 Approved JANUARY 23, 1976, Recorded in Book 14 Page 200

WATER RIGHT PERMIT NO. 2442-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 2442-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is DECEMBER 1, 1975
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before JULY 23, 1978
3. The whole of said work is to be completed on or before JANUARY 23, 1981
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is JANUARY 23, 1983
5. The water appropriated shall be used for the purpose of IRRIGATION
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 4.7 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before JANUARY 23, 1983; said water to be used during the following described annual period: APRIL THRU NOVEMBER

RESOURCE DEVELOPMENT

NOTICE OF PERMIT PENDING

The application of Dennis J. Namminga, Rural Route 1, Box 110, Springfield, South Dakota 57062 for approval of plans and issuance of a permit under authority of the Secretary of the Army is being considered by the District Engineer, U.S. Army Engineer District, Omaha, Nebraska.

The applicant requests permission to construct a permanent water intake structure to provide irrigation water to approximately 600 acres. The work will consist of excavating approximately 500 cubic yards of material, utilizing a dragline and a backhoe, laying approximately 200 linear feet of 22 inch pipe, and constructing three vertical 12 inch standpipes. The pumps will be located on a 20 x 5 foot concrete slab placed on at least two feet of fill. The applicant intends to initially use two electric powered turbine pumps with a capacity of 650 gallons per minute, each. A third pump will be added in the future. The riverbank around the inlet will be riprapped with approximately 15 cubic yards of field stone.

The State of South Dakota has waived its right to certify compliance with applicable water quality standards required under the provisions of Section 401 of the Federal Water Pollution Control Act and Amendments of 1972. Accordingly, certification that the proposed project will not violate applicable water quality standards has been requested from the Regional Administrator, Environmental Protection Agency, Region VIII, Denver, Colorado.

An environmental assessment of the proposed activity has been made and is on file in this office. The assessment indicates that no significant adverse impacts on the human environment will occur. Based on this finding, a preliminary determination has been made that an environmental impact statement will not be required.

In compliance with the National Environmental Policy Act of 1969 and Section 106 of the National Historic Preservation Act of 1966, the National Register of Historic Places and monthly supplements thereto have been consulted and no properties included therein will be affected by this activity. However, presently unknown archeological, scientific, pre-historic, or historic data may be lost or destroyed by work to be accomplished under the requested permit.

The decision whether to issue a permit will be based on an evaluation of the probable impact of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered; among those are conservation, economics, aesthetics, general environmental concerns, historic values, fish and wildlife values, flood damage prevention, land use classification, navigation, recreation, water supply, water quality and in general the needs and welfare of the people. In addition, the evaluation of the impact of the activity on the public interest will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency, under authority of Section 404(b) of the Federal Water Pollution Control Act. No permit will be granted unless its issuance is found to be in the public interest.

Any person who has an interest which may be adversely affected by the issuance of a permit for the work described herein may request a public hearing. The request must be submitted in writing to the District Engineer within 30 days of the date of this public notice and must clearly set forth the interest which may be adversely affected and the manner in which the proposed activity will adversely affect that interest.

Any interested party (particularly officials of any town, city, county, state, federal agency, or local association) is invited to submit to this office written facts, arguments, or objections on or before 13 April 1976.

A permit, if granted, will be under Section 10 of the River and Harbor Act of March 3, 1899 (39 Stat. 1151; 33 USC 403) and under the provisions of Section 404 of the Federal Water Pollution Control Act (86 Stat. 816, PL 92-500).

A drawing showing the location and extent of the work is attached to this notice.

JOE FOSS BUILDINGPost Office Springfield
Date 12-10-76PIERRE, SOUTH DAKOTA 57501
TO: Water Resources Commission
State Office Building No. 2
Pierre, South Dakota 57501

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 2442-3.

Water Right Permit No. 2442-3 states that the diversion system is to be constructed by Jan 23, 1981 and that the water is to be put to beneficial use by July 73, 1978.

The diversion system was completed on June 1, 1976. Applying the water to beneficial use was completed on June 20, 1976.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

Permit No. 2442-3Water Division 3 Missouri River Water DistrictREPORT OF EXAMINATION OF WORKS
AND/OR APPLICATION OF WATER TO BENEFICIAL USE

TO: WATER RIGHTS, WATER MANAGEMENT BOARD / FOSS BLDG., PIERRE, SOUTH DAKOTA 57501

I have this day made a thorough examination of the water use system constructed by Dennis
Namminga of Springfield, South Dakota, 57062 holder
of Permit No. 2442-3, bearing date of priority of December 1, 19 75
authorizing the diversion of 11.7 cu. ft. per second of the waters of Missouri River
for Irrigation purposes, in Ben Hennie County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

- A. Works used to divert the water:
Pumps at River - West Pump - Motor: Westinghouse, style. 650BC78G27
75 HP - 1775 RPM, Ser # 7503,
Pump: Peerless - Ser # G 10 5850. pumping 500 gpm
East Pump - Motor Westinghouse 125 HP, style 680B675G39,
Ser # 7504, Pump: Peerless, Ser # C 10-5449. pumping 500 gpm
(over)
- B. Works used to transport water to place of use,
7600 ft. 12" PVC Pipe
1900 ft. 8" PVC Pipe
2640 ft. 6" Alum Pipe
660 ft. 4" Flexible Huse.
- C. Works used to apply water to beneficial use.
Gifford Hill Center Pivot Model. 064-126-29, Ser # 77944-021976
Rainbow Self Propelled Volume Gun, Ser # 4027. Model C-P550,
with Wilson 200 gun Ser # CC 11078, Nozzle 1.4"

The system is in the following condition: GoodThe point of diversion is located 1050 ft S and 600' W of the center of
Section 8, T92N R61WThe works are capable of diverting and conveying to the place of use 2.89
cu. ft. per second of water which is to be used for IrrigationWater has been put to beneficial use to the maximum extent as follows: The following in Sec. 4

T92N R61W NW 1/4 NW 1/4 - 34 Ac NE 1/4 NW 1/4 - 34 Ac SW 1/4 NW 1/4 - 39 Ac

Dear Mr. Namminga:

I am writing in follow-up to today's phone conversation with Maxine concerning ownership changes to Water Right Nos. 2442-3 and 6448-3. Both water rights are currently listed solely in your name.

Enclosed are partially completed Notice of Transfer of Ownership forms for filing the ownership changes. Upon completion, please sign and return them to our office with a required filing fee of \$50.00 each (total of \$100.00). The check or money order for the fee can be made payable to the Water Rights Program.

If you have any questions, please contact me.

Sincerely,

Dear Mr. Namminga:

Enclosed is Water License No. 7812-3. This is the final water right document completing your process of obtaining a Water Right. Included with your license is a map prepared by the staff engineer who conducted the field investigation.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water.

Sincerely,

Eric Gronlund, Chief Engineer
Water Rights Program
