Mr. Angelo Corio

Dear Mr. Corio:

We have completed the water analysis of the 2 samples submitted here about 2 weeks ago. They have been given laboratory #75-937 (your #1) and #75-936 (your #2). Please note this carefully. These reports of analysis are your copies to keep; we have additional copies. We have plotted the quality of these 2 waters for irrigation uses by the approximate means of the two red crosses on the outside back cover of extension circular 654 enclosed for your use. You will note they are both moderately high in salinity but low in sodium. Thus, these waters will have the possible hazard of causing the build-up of salts in the root zone of the soil. This is particularly true with slowly permeable soils and if you adopt an irrigation practice of adding only enough water to replenish that which is used since the previous rain or irrigation. If you occasionally add additional water to completely fill the root zone to a considerable depth or even cause leaching, especially in the late fall or early spring, you should have no difficulty with salt accumulation on the soil. However, if salt accumulation does occur, as indicated by white crusts on the soil surface or by poor crop performance, get in touch with us immediately for management or leaching techniques to relieve the problem.

A copy of this letter, and of all the other materials are being sent to the State Conservation Commission for their action.

Sincerely yours,

L. O. Fine

Dear Mr. Minor:

Each year, the State of South Dakota sends out Water Management Irrigation Questionnaires to collect information based on annual water use from our state's waters.

This year we received word from one of the irrigators that the property they had previously reported on had been sold to you. For your convenience I have enclosed a partially completed "Transfer of Ownership" form for you to complete and return in the pre-paid envelope.

Please return the form with a check for \$50.00 made payable to "SD Water Rights Program" to cover the transfer fee. If you would prefer to pay by card you may call our Fiscal Office at 605.773.4216. This form will still need to be returned even if you are submitting payment over the phone.

Should you decide you wish to discontinue the irrigation on this piece of land, we would ask that you let us know.

If you have any questions or concerns, please give me a call. My direct number is 605.910.5187

Sincerely,

Amanda Dewell

Dear Mr. Minor:

I have received your "Notice of Transfer of Ownership" form and the required fees. Enclosed is a receipt of payment for your records.

Water Right No. 2447-3 previously owned by Lavonne Corio Baker is now listed under yourself. I have updated your contact information in our system.

As a reminder, so long as you use the water beneficially, as stated in the Water Right, State Water Laws provide that you have a continuing right to use the water. Should the water not be put to beneficial use for a period longer than 3 consecutive years, without legal excuse, the water right will be subject to cancellation.

If you have any questions, please contact me.

Sincerely,

Amanda Dewell

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
