Dear Sir:

STATE WATER RIGHTS
PIERRE, SOUTH DAKOTA

I spoke to you by telephone on Friday October 10, 1975 about presentation of an APPLICATION FOR PERMIT to Appropriate Water within the State of South Dakota. I have correspondence from you office that the Water Permit No. 1516-3 which had previously been acquired pertaining to certain lands owned by Frances Dupper, my wife, would terminate for non-use on March 20, 1973. As I recall our conversation on October 10, 1975 you indicated your office records still show a map that was presented to you when the Water Rights were advertised and acquired presumably about March 20, 1968 according to our previous records.

However I am attaching a Xerox map which shows the area that is presently planned for irrigation and in fact a circle system is set up for use next spring but no pump or pipe is yet installed. If you need any further information please advise. There does not seem to be a space for payment of a fee but if a fee is required please advise and ~~xxx~~ payment will be made. If any questions please advise. I have acquired forms from the Corps of Engineers and am also submitting them.

Please find herewith Copy of Affidavit of Publication showing that Frances Dupper has applied for Water Permit and has published NOTICE OF INTENT TO APPROPRIATE WATER No. 2482-3 on certain lands in Walworth County as described therein.

This application is to be heard at your January 22, 1976 hearing at 2:30 P.M. I am assuming that it is not necessary for Frances Dupper to be personally present since to my knowledge there should not be any opposition to this permit to take water from Cahe Reservoir for irrigation.

Thank you for your previous assistance. We will be pleased to hear from you after the hearing and to receive the permit which we need to furnish to the Army Corps of Engineers so they can process their permit or easement to secure the water. I have previously submitted all the other papers to them which to my knowledge they have required.

Very truly yours

The descriptions were correct in the information which your office furnished to them.

Dear Ms. Dupper:

I am contacting you in regard to your Water Right No. 2482-3. The water right authorizes diversion of water from the Missouri River for irrigation purposes.

Our records show that the land described in this water right has been in CRP. The purpose of my letter is to find out whether the land comes out of CRP in 2007 or if it is actually in CRP through 2007 and will be eligible for irrigation in 2008. We have held up mailing irrigation questionnaires to you while the land has been in CRP but will begin sending them to you once irrigation resumes.

Please get in touch with me to discuss the water right and the duration of your enrollment in the CRP Program. You can either call me or if it is easier, you can answer the questions below and return the letter in the enclosed envelope.

- 1) Will the land come out of CRP and be eligible for irrigation in 2007 or 2008? _____
- 2) Will the land be re-enrolled for another term? _____
If yes, what year will it come out: _____
- 3) Do you intend to irrigate once the land comes out of CRP? _____
- 4) Do you still own the land? _____
(If the answer is no, please let us know the name and mailing address of the new owner.)

Thank you in advance for your help in updating your water right.

RE: Water Right No. 2482-3, Frances Dupper

COMMENTS:

Mr. Walth called in response to a letter I had mailed Frances Dupper about land being in CRP and when it would be eligible for irrigation. He indicated to his knowledge the land has never been in CRP unless it was back in the 60's.

He said the land has not been irrigated in the past 3 years due to low water levels at the pump site on the Missouri River. As far as he knew, the land had been irrigated prior to that. I explained that somewhere in the past few years a notation must have been included with the annual irrigation questionnaire concerning the land being in CRP. A review showed the 2005 irrigation questionnaire had a statement about CRP.

He indicated he purchased the land from Frances Dupper on a contract for deed and at the end of this year he will officially own the land.

RECOMMENDED ACTION:

Send a "Notice of Transfer of Ownership" to him and adjust records accordingly to reflect that the land is not in the Conservation Reserve Program.

Dear Mr. Walth:

Thank you for sending in the 2017 irrigation questionnaire for Water Right No. 2482-3. Water Right No. 2482-3 authorizes diversion of water from the Missouri River to irrigate 126 acres located in the W 1/2 SW 1/4 Section 3, SE 1/4 SE 1/4 Section 4, NE 1/4 NE 1/4 Section 9 and NW 1/4 NW 1/4 Section 10; all in T122N-R78W.

On the form, you checked the box "use abandoned". Under South Dakota Water Law, water must be placed to beneficial use for the purpose it was appropriated at least once every three years in order to maintain a water permit. A review of the records shows the land was enrolled in CRP from 2005 to 2014. Prior to 2005, the land has not been irrigated since 2000 and was not irrigated in 2015 and 2016.

If the use has been abandoned and you do not intend to irrigate in the future, the water right could be scheduled for cancellation consideration. Prior to doing that, I wanted to touch base with you to verify your intentions regarding the water right.

Please take a few minutes and give me a call concerning the water right. Thank you in advance for your help.

NOTICE OF CANCELLATION

TO: Allen & Becky Walth, 13640 Walth Bay Rd, Glenham, SD 57631

FROM: Amanda Dewell, Permitting Administrator
SD DANR - Water Rights Program

SUBJECT: Cancellation of Water Right No. 2482-3

Water Right No. 2482-3 authorizes the diversion of 1.8 cubic feet of water per second from the Missouri River for the irrigation of 126 acres located in the W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 3, SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 9, and NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 10; all in T122N-R78W, Walworth County, South Dakota. After receiving a letter, dated January 8, 2026, from the Water Rights Program, you called to discuss the 2025 Irrigation Questionnaire, which reported abandonment of the system. During that conversation you confirmed that the system had broken down and no irrigation had occurred since 2000. The acting Chief Engineer of the Water Rights Program is recommending cancellation of Water Right No. 2482-3 due to abandonment, or forfeiture, or both.

The Water Management Board will consider cancellation of Water Right No. 2482-3 at **9:30 am, Wednesday, October 7, 2026 (Central Time)** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD *(the agenda time is an estimate, and the actual time of hearing may be later).*

The recommendation of the acting Chief Engineer is not final or binding upon the Board. The Board is authorized to 1) cancel, 2) cancel portions of, 3) delay action on, or 4) take no action on Water Right No. 2482-3 based upon facts presented at the public hearing. Our records show you to be the owner of property covered by this water right. If you wish to oppose the cancellation and if you intend to participate in the hearing before the Board and present evidence or cross-examine witnesses according to SDCL 1-26, you must file a written petition with the acting Chief Engineer by September 14, 2026. The petition may be informal, but it must include a statement describing the reasons for your opposition to the cancellation, and your signature and mailing address or your legal counsel if legal counsel is obtained.

The hearing will be conducted pursuant to the provisions of SDCL 46-1-1 thru 46-1-10, 46-1-14 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11, 46-2-17; 46-5-36, 46-5-37, 46-5-37.1; 46-2A-1 thru 46-2A-8; and Board Rules ARSD 74:02:01:36 thru 74:02:01:41. These are contested cases pursuant to procedures contained in SDCL 1-26.

This hearing is an adversarial proceeding. Any party has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.

The time of the hearing will be automatically extended for at least twenty days upon your written request to the acting Chief Engineer after a petition has been filed to oppose the cancellation. If an extension is requested, the hearing on the cancellation will be continued until the next regular Board Meeting. Any request for extension must be filed with the acting Chief Engineer by September 14, 2026.

Prior to September 14, 2026, contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) if assistance is needed with the following: 1) further information on the proposed cancellation; 2) to assure access to the meeting room for the handicapped; or 3) to obtain an interpreter for the hearing impaired.

According to SDCL 1-26-18.3, parties to a contested case may use the Office of Hearing Examiners to conduct a hearing if either a property right is being terminated or the dollar amount in controversy exceeds \$2,500.00. If you choose to use the Office of Hearing Examiners rather than the hearing procedure described above, then you need to notify the acting Chief Engineer (Water Rights Program, 523 E. Capitol Avenue, Pierre SD) by September 14, 2026.
