Dear Mr. Kraher:

Your application No. 251-3 for a permit to appropriate 5.1 cubic feet of water per second from East & West Snatch Creeks near Springfield in Bon Homme County, South Dakota, has been received and examined and is returned

to you herewith for correction amendment or changes as follows:

After examining your application and map, it appears that you have two separate units to be irrigated by sprinklers. In which case two separate applications would need to be submitted. One unit would include the NE 1/4 Sec. 10 and NW 1/4 Sec. 11, T. 93N., R. 59W. and be irrigated from any point between points A and B on East Snatch Creek, as shown on the map. The other unit would include the E 1/4 Sec. 9 and W 1/4 Sec. 10, West Snatch Creek, also shown on the map. Enclosed are the print of your map, an information copy of your application, and two sets of application blanks. The original of your application and map are being retained in our files. A \$5.00 examination fee will be required to be paid for the other application, but the one map may be used for both applications without any corrections or additions. Please return the print of the map and the information copy of the application with the corrected applications.

In accordance with Section 61.0111 of Chapter 430 of the Session Laws of 1955, you will now have sixty days from date of this letter to complete your application and to refile same in this office.

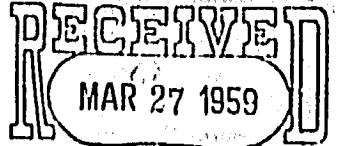

Very respectfully,

Dear Mr. Kreber:

Reference is made to your letter regarding pumping from Lewis & Clark Lake rather than Snatch Creek for irrigating the lands covered by Water Permits Nos. 239-3 and 251-3.

When considering the above applications, it was felt that the water available for these permits was back-up water from the Missouri River. This office has no objection to your proposal, and no further paper work is required on your part.

Should you have further questions, feel free to contact this office.
