Mr. Chief Engineer John Hatch.
In 1975 I wrote to your
department to inform you
that Mr. Budena and his
father were in partnership.
At that time I enclosed
the mailing slips of the 2
separate water rights you
showed on your records so
you could send one mailing.
I thought we received 3
separate requests for in-
formation. One for Nick Bullman,
one for Ole Bullman, and one for
Nick Bullman & Son.

I do not know how to
satisfy your requests for

information three years;
I sent it to you (I believe)
on the paper with the partner-
ship mailing address on it.
Two separate requests
for correct rights have
made, one in 1968 on the
name of Nick Buttna
and another in 1976 on
the name of Cleo Buttna.

We have this year decided
the partnership with Cleo Buttna
continuing the farming and
irrigating.

Please advise us of any
change you deem necessary
in our reporting. As I see it,
lets cut down on your and
our paper work. OK?

I'm sorry I do not have on
hand your file numbers.

Thank you
Mrs. Cleo Buttna

I called Mrs. Bultsma concerning her request that the questionnaires be mailed together since they were coming in the same mailbox. Indicated to her that next season the labels for the questionnaire would be made by a computer and could not be listed together since they were not numbered in consecutive order. IN the event that it is noticed that the permits are to be mailed to the same people, while sorting them to be mailed, they will be put into the same envelope. Otherwise, there is no way we can keep them all together.

Dear Mr. Bultsma:

I am writing this letter in regard to your Water Right Nos. 1560-3 and 2546-3. We have received a written complaint from the Hamilton Township Board that overspray from your irrigation system onto the township road is causing maintenance problems for the township. This needs to be prevented. Not only is allowing overspray hazardous to motorists with potential liability for the irrigator, but constitutes a waste of water under state statute.

I am requesting that you prevent the end gun of your irrigation system from spraying on the township road.

If you have any questions, please do not hesitate to contact Del Brosz at (605) 773-3352.

Very truly yours,

I am contacting you in regard to your Water Right Nos. 1560-3 and 2546-3. Both water rights authorize diversion of water from the Missouri River for irrigation purposes. On last year's irrigation questionnaires, you indicated that you are not farming the land and have it rented out.

Prior to mailing out this year's questionnaires, I need to find out the name and mailing address of your renter. The annual irrigation questionnaires can be mailed directly to your renter without changing ownership of the water rights.

Please write or call me with the information and I can update our records. I am enclosing a postage paid envelope for your reply.

Dear Mr. Bultsma:

I am contacting you in regard to your Water Right No. 2546-3. Enclosed is a copy of the water right and a map showing the area that is covered.

Prior to mailing out the annual irrigation questionnaire, I wanted to touch base with you about the water right. Information you provided on the past 3-4 years of questionnaires indicate that the system was no longer dependable and had been abandoned.

Under South Dakota Water Law, water must be placed to beneficial use for the purpose it was appropriated at least once every three years unless legal excuse exists for the years of non-use. Enclosed are excerpts of the SD Water Laws and Water Management Board Rules dealing with these issues.

If you have discontinued irrigation on the land described in Water Right No. 2546-3, the water right will be scheduled for cancellation consideration. Cancellation of the water right would not prohibit you from making an application in the future for a new permit for the same project.

Our records show that you have another water right with land in Section 36, T98N, R69W. The annual irrigation questionnaire for this water right is sent to your renter, Kory Standy. Any action taken on Water Right No. 2546-3 does not pertain to the system operated by Mr. Standy.

Please contact our office to let us know if you have discontinued irrigation under Water Right No. 2546-3 and whether or not you still own the land. You may call the number listed below or if it is easier, you can write your comments on this letter and return it in the enclosed postage paid envelope. Thank you in advance for your help.

Thank you for calling concerning the ownership change needed for Water Right No. 1560-3.

Enclosed is a partially completed Notice of Transfer of Ownership form for filing an ownership change. Please review the form and make any necessary corrections. Upon completion, please sign the form and return it to our office with a required filing fee of \$50.00. The check or money order for the fee can be made payable to the Water Rights Program.

I have included a copy of both Water Right No. 1560-3 and also Water Right No. 2546-3. It is my understanding from our conversation that there may be at least 30 acres still irrigated under No. 2546-3. I will hold up on scheduling No. 2546-3 for cancellation until I hear from you.

If you have any questions, please contact me.

Sincerely,

Dear Mr. Bultsma:

I am writing in regard to Water Right No. 1560-3 listed in the name of Cleo Bultsma. Back in December, 2009 you contacted us and requested a "Notice of Transfer of Ownership" form to change ownership on the water right. To date, we have not received anything back from you.

Enclosed is an additional form in the event you no longer have the one mailed to you in December. Please review the form and make any necessary corrections. Upon completion, please sign the form and return it to our office with a required filing fee of \$50.00. The check or money order for the fee can be made payable to the Water Rights Program.

During our phone conversation, we also discussed Water Right No. 2546-3. The water right authorizes irrigation of portions of the W ½ Section 25 and the NW ¼ NW ¼ Section 36, T98N, R69W. Cleo had written in and told us he had abandoned the use of irrigation under this water right. It is my understanding from our conversation that there may be at least 30 acres still irrigated under No. 2546-3. Have you had an opportunity to review the water right and determine whether a portion of it was still being irrigated or if we should schedule it for cancellation? If a portion is still irrigated, it should be updated by changing ownership and perhaps reissuing the license to reflect what is still being used.

Please contact us regarding both of the water rights as soon as you can.

Sincerely,

Dear Mr. Standy:

Thank you for contacting us regarding the upcoming ownership changes needed for Water Right Nos. 1560-3 and 2546-3. Enclosed are copies of both water rights.

If I am understanding correctly, when the sale is finalized, you will own all of the land described in Water Right No. 1560-3 and a portion of the land in Water Right No. 2546-3. Enclosed are partially completed Notice of Transfer of Ownership forms for filing the ownership changes. The check or money order for the fee can be made payable to the Water Rights Program.

With reference to Water Right No. 2546-3, it will be divided and reissued to reflect separate ownership. The portion no longer irrigated that belongs to Cleo will eventually be scheduled for cancellation consideration.
