STATE OF SOUTH DAKOTA
REISSUED WATER LICENSE NO. 2546A-3
DIVISION OF NO. 2546-3 INTO 2546A-3 AND 2546B-3

Water Right No. 2546-3 authorized irrigation of 110 acres in portions of the W ½ Section 25 and 30 acres in the NW ¼ NW ¼ Section 36, T98N, R69W. On December 17, 2010, an ownership change was filed for a portion of the land authorized for irrigation under Water Right No. 2546-3. No. 2546-3 is being divided and reissued to reflect separate ownership as follows:

(2) It is certified that the water right holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 0.43 cubic feet of water per second for beneficial use. The location of the diversion point is a point 3300 feet south and 4,620 feet east of the NW corner of Section 36, T98N, R69W (NE ¼ SE ¼).

(3) The water right holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Dear Mr. Standy:

I am writing in follow-up to our phone conversation concerning the amount of water you reported pumping on your 2013 irrigation questionnaires for Water Right Nos. 1560-3 and 2546A-3. Enclosed are copies of the forms for your review.

Water Right Nos. 1560-3 and 2546A-3 are both old enough that they allow a total of 3 acre feet of water per acre per year. On your irrigation questionnaires, you reported substantially more water use. You reported the following information for 2013:

Water Right No.	Acre feet of water allowed based on acres irrigated	Acres reported irrigated in 2013	Reported Water Use in 2013
No. 1560-3	300 acre feet (100 acres x 3 feet)	100	approximately 353 acre feet
No. 2546A-3	90 acre feet (30 acres x 3 feet)	30 acres	approximately 313 acre feet

We realize that in any given year, water use may be more or less depending on climatic conditions. It is very rare that irrigators come close to 36 inches per year. It is not economically feasible for them to do that. I would say most irrigators, in a normal year apply between 8 – 12 inches of water and of course slightly above that if drier conditions exist.

Many times irrigators do not keep track of the days or hours actually pumped and estimate numbers for the questionnaires in an effort to get them completed and back in on time. While we appreciate returning the forms in a timely manner each year, we need the forms to reflect as accurate information as possible. Please review the enclosed questionnaires and keep in mind when returning irrigation questionnaires in successive years that the information you supply is very important and counts as a year of historical record. If it is easier for you to write down how many inches put on each year rather than keeping track of days and hours, that is fine too.

If you have any questions or need assistance in the fall when completing the irrigation questionnaires, please give me a call.

Sincerely,

Genny McMath

NOTICE OF AMENDMENT OF WATER RIGHT

TO: Kory Standy, PO Box 114, Platte SD 57369

FROM: Adam Mathiowetz, PE, Acting Chief Engineer
DANR - Water Rights Program

SUBJECT: Amendment to Water Right Nos. 224-3, 1560-3, and 2546A-3

On March 4, 2026, the South Dakota Water Management Board amended Water Right Nos. 224-3, 1560-3, and 2546A-3 to add the following qualification:

"This Water Right is subject to the Irrigation Water Use Questionnaire being submitted each year."

This action was taken by the Board for failure to return the 2025 irrigation questionnaire. The addition of this qualification means that failure to submit the irrigation questionnaires in the future could result in suspension or cancellation of the Water Rights.

Please contact Amanda Dewell, Water Rights Permitting Administrator, with any questions (605) 773-3352.
