WATER RIGHT PERMIT NO. 2667-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 2667-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is MARCH 16, 19 76
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before NOVEMBER 20, 19 78
3. The whole of said work is to be completed on or before MAY 20, 19 81
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MAY 20, 19 84
5. The water appropriated shall be used for the purpose of IRRIGATION
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 2.24 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MAY 20, 19 84; said water to be used during the following described annual period: APRIL thru OCTOBER

Dear Sirs:

By means of a copy of this letter to the State Conservation Commission, I am indicating to them that it is your intention to construct a second well located approximately 300 feet east of the existing irrigation which is under permit #1802-3.

The report of analysis, which I am sending along with this to the State Conservation Commission, is that for water sample #74-931 analysed in this laboratory about a year and a half ago and is explained to me as being the well which will be close to the one you intend to construct.

Inasmuch as the soils which you intend to irrigate are quite sandy, being classified as Fordville and Renshaw, there is anticipated no difficulty whatever as a result of the use of this water on those soils, at least as far as chemical changes in the soil are concerned.

As indicated, the Conservation Commission is getting a copy of this letter and the WI-1 form as well as a copy of the previous water analysis and you will be hearing from them as to their action.

Sincerely yours,

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 2667-3

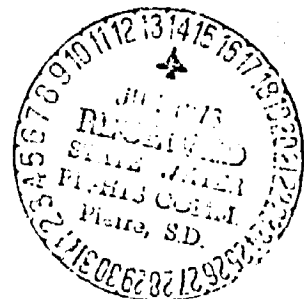

Water Right Permit No. 2667-3 states that the diversion system is to be constructed by MAY 20, 1981 and that the water is to be put to beneficial use by MAY 20, 1984.

The diversion system was completed on JUNE 8, 1976. Applying the water to beneficial use was completed on JUNE 8, 1976.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

Re: Violation of Requirement To Submit 1987 Irrigation
Questionnaire

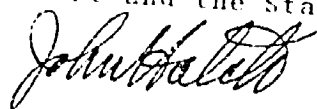

Our records indicate that the 1987 Irrigation Questionnaire has not been submitted for Permit No(s). 2667-3. The request for the Questionnaire was dated October 8, 1987. The Water Management Board has directed that owners of water permits who have not submitted 1987 Irrigation Questionnaires be given notice of hearing(s) to be held by the Board to determine if any action is to be taken concerning the violation.

The hearings will be held at 9:00 am, March 2, 1988 in Room 216, Joe Foss Building, 523 E Capitol, Pierre SD.

The hearing will be conducted pursuant to the provisions of SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26. Following the hearing(s), the Water Management Board can:

1. Amend Permit No(s). 2667-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action;
3. Take no action.

The hearing(s) is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

JOHN HATCH, Chief Engineer
Water Rights Division

Dear Sir:

On October 6, 1988, the Water Management Board adopted rules to implement a 1988 law for application of chemicals through irrigation systems. The rules establish equipment standards, performance standards and installation requirements for irrigation systems that apply chemicals (fertilizers, insecticides, or herbicides) with irrigation water.

You have indicated on your 1988 Water Management Board Irrigation Questionnaire that you do apply chemicals with irrigation water. A copy of the new rules for chemigation are enclosed for your information.

The new standards include:

- * a check valve between the irrigation pump and the point of chemical injection;
- * a vacuum relief valve on top of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a low-pressure drain on the bottom of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a chemical injection line check valve between the chemical injection pump and the point at which the chemical is injected into the irrigation line; a second check valve is required if the chemical injection pump is not a positive displacement pump;
- * an interlock system which ensures that the chemical injection pump will stop whenever the irrigation pump stops;
- * an inspection port between the irrigation pump and the check valve on the irrigation line;

DATE MICROFILMED
CAMERA OPERATOR

Each of these equipment requirements are discussed more thoroughly in Sections 74:02:09:05 through 74:02:09:10 of the enclosed rules. Appendix A contains diagrams of the arrangements of these anti-pollution devices.

The equipment must be installed according to the manufacturer's specifications, calibrated, and maintained in good working condition. All chemical product labels must be followed and warning signs must be posted. These rules also require reporting of all spills, accidents, and system malfunctions. A 24-hour telephone number is provided.

The chemigation rules contain notification and record keeping requirements. Prior to using chemigation, notification must be given to the Chief Engineer on the enclosed Form 1C. Information that must be provided in this notification includes the water permit or right number, the name, address, and telephone number of the water permit or right holder and of the system operator, and the legal description of the lands on which the system is located. A record of the name, quantity, dates and hours of each chemical applied must be provided to the Chief Engineer on Form 2C. A copy of this form is also enclosed for your information. It will be mailed with the annual irrigation questionnaire and must be returned with the questionnaire by the date specified. If you have any questions regarding these rules or need additional copies of the forms, please contact Susan Bowar, Water Rights Engineer (605-773-3352).

RE: Failure to Report Chemical Use under Water Permit No(s) 2667-3

The first notice to file chemigation report(s) for Permit No(s) 2667-3 was dated 10/20/95. Our records indicate that we have not received the 1995 chemigation report for Permits No(s) 2667-3. The Water Management Board has directed that owners of water permits who have not submitted the 1995 chemigation report(s) be given notice of violation and of hearing before the Board. The hearing held by the Board is to determine what action is to be taken concerning violation of administrative rule 74:02:09:02(3). This rule requires chemigation users to report the type of chemical applied, the dates, hours and amount of chemical application.

The hearing will be held at 9:45 A.M. on March 6, 1996, in the Floyd Matthew Training Center, Joe Foss Building, 523 East Capitol, Pierre, SD and will be conducted pursuant to SDCL 34A-2A through 34A-2A-5; 46-1-12, 46-1-14, 46-2-11, 46-2-17. These are contested case hearings pursuant to chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation or up to three years for the second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s). 2667-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the chemigation report(s) is(are) received by this office on/or before March 1, 1996 your name will be deleted from the board agenda.

Would it be possible to obtain any ownership and/or address changes you have for these? I believe the first one is an actual ownership change and the second one may be just an address change.

Thank you in advance for your help. You may fax the information back to me or give me a call at (605) 773-3352.

Dear Mr. & Mrs. Adee:

I am contacting you in regard to ownership of land as described in Water Right No. 2667-3. Scott Ramsdell with INOR Corporation contacted us and indicated the land had been sold. Our understanding is that you now own the land.

I am enclosing a copy of Water Right No. 2667-3 currently listed in the name of INOR Corporation. You will note that the water right authorizes diversion of water from two wells to irrigate 136 acres in the SW ¼ Section 18, T112N, R50W.

Enclosed is a partially completed "Notice of Transfer of Ownership" form for use in filing an ownership change with the water right. Please review the form and complete as needed. The form will need to be signed in the presence of a notary public and return to our office with a required filing fee of \$2.50. The check or money order for the fee can be made payable to the "Water Rights Program".

I am also enclosing a 1999 irrigation questionnaire. Please complete the questionnaire and return it to our office along with the transfer form and filing fee.

If you have any questions when completing the transfer form or the irrigation questionnaire, please get in touch with me. I can be reached at (605) 773-3352 or by writing to the address on the letterhead. If you are connected to the Internet, my email address is genny.mcmath@state.sd.us.

Thank you in advance for your help.

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
