Mr. Burton F. Jones

Water Rights Commission
Pierre, SD 57501

Dear Mr. Jones:

The Area Director, Bureau of Indian Affairs, has advised that on May 20, 1976, a Hearing will be held at 1 p.m. by the Water Rights Commission at their office at Pierre, South Dakota, on the application of Jerold Hirsch, Pierre, South Dakota, for a permit to appropriate for beneficial use 5.28 cubic feet of water per second of time from the Missouri River through the Hirsch Irrigation Project # 4, the point of diversion being in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 23, T. 103 N., R. 75 W., for the purpose of irrigation.

This letter will serve as our written objection to such application for a permit to appropriate ground water from within the boundaries of the Crow Creek Reservation. The issuance of such permit would be contrary to established law, which declares that the State lacks jurisdiction with respect to the adjudication of the waters of, or the lands within the exterior boundaries of an Indian Reservation. See 25 U.S.C.A. Sec. 381; Winters v. United States, 207 U.S. 564; 28 S. Ct. 207; United States v. Powers, 94 F. 2d 783; United States v. McIntire, 101 F. 2d 650; and United States v. Alexander, 131 F. 2d 359.

In filing this objection to the issuance of such proposed permit and in writing this letter to you, we do not waive our right to challenge the State's jurisdiction by legal action or otherwise and merely intend to call attention to the State to the fact that the State lacks jurisdiction in this matter.

Very truly yours,

Dear Mr. Hirsch:

Enclosed herewith is your Water Right Permit No. 2705-3 as approved by the Water Rights Commission, authorizing you to construct your water diversion system and apply the water to beneficial use, not exceeding the limits as specified in said Water Right Permit No. 2705-3.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Water Rights Commission when you have completed the system and/or have put the water to beneficial use. The Commission can then schedule an inspection so that your Certificate of Construction and/or your Water License may be issued to you, thus completing your acquisition of a Water Right.

P.S. This is to inform you that the office of the Solicitor, United States Department of Interior in a letter dated May 19, 1976 contends that the State of South Dakota lacks jurisdiction with respect to the issuance of permits to use waters within the exterior boundaries of an Indian Reservation.

NOTICE OF PERMIT PENDING

The application of Ronnie Reimer, Pukwana, South Dakota 57370 for approval of plans and issuance of a permit under authority of the Secretary of the Army is being considered by the District Engineer, U.S. Army Engineer District, Omaha, Nebraska.

The applicant requests permission to place a permanent water intake structure in the Missouri River at mile 947.20 (Lake Francis Case) in Section 5, Township 102 North, Range 71 West, Brule County, South Dakota. The proposed activity would consist of some minor site grading and sloping of the bank to install two 15 horsepower skid mounted submergible pumps that will pump directly into two 150 horsepower electric booster pumps. The booster pumps will be permanently mounted on a 10-foot by 20-foot concrete base and connected to a 12 3/4-inch buried discharge line. The water will be pumped approximately 3 1/2 miles to the applicant's property as shown on the attached location map.

A preliminary determination has been made that neither singularly nor cumulatively would this project have a significant effect on the quality of the human environment within the meaning of the National Environmental Policy Act and, therefore, an Environmental Impact Statement will not be required.

In compliance with the National Environmental Policy Act of 1969 and Section 106 of the National Historic Preservation Act of 1966, the National Register of Historic Places and monthly supplements thereto have been consulted and no properties included therein will be affected by this activity. However, presently unknown archeological, scientific, prehistoric, or historic data may be lost or destroyed by work to be accomplished under the requested permit.

The decision whether to issue a permit will be based on an evaluation of the probable impact of the proposed activity on the public interest. The decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered; among those are conservation, economics, aesthetics, general environmental concerns, historic values, fish and wildlife values, flood damage

prevention, land use classification, navigation, recreation, water supply, water quality, and in general the needs and welfare of the people. No permit will be granted unless its issuance is found to be in the public interest.

Any person who may have an interest in the proposed work described herein may request a public hearing. The request must be submitted in writing to the District Engineer within 30 days of the date of this public notice. The request must state the specific reasons for holding the public hearing.

Any interested party (particularly officials of any town, city, county, state, federal agency, or local association whose interests may be affected by the proposed work) is invited to submit to this office written facts, arguments, or objections on or before 15 November 1976. Any agency or individual having an objection to the work should specifically identify it as an objection with clear and specific reasons.

A permit, if granted, will be under Section 10 of the River and Harbor Act of 3 March 1899 (30 Stat. 1151; 33 USC 403).

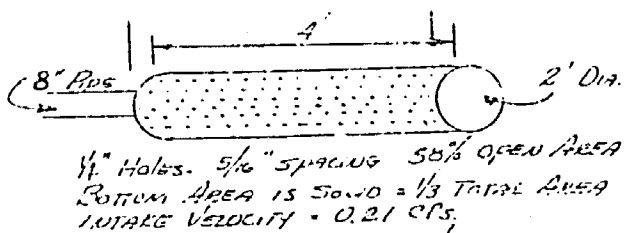

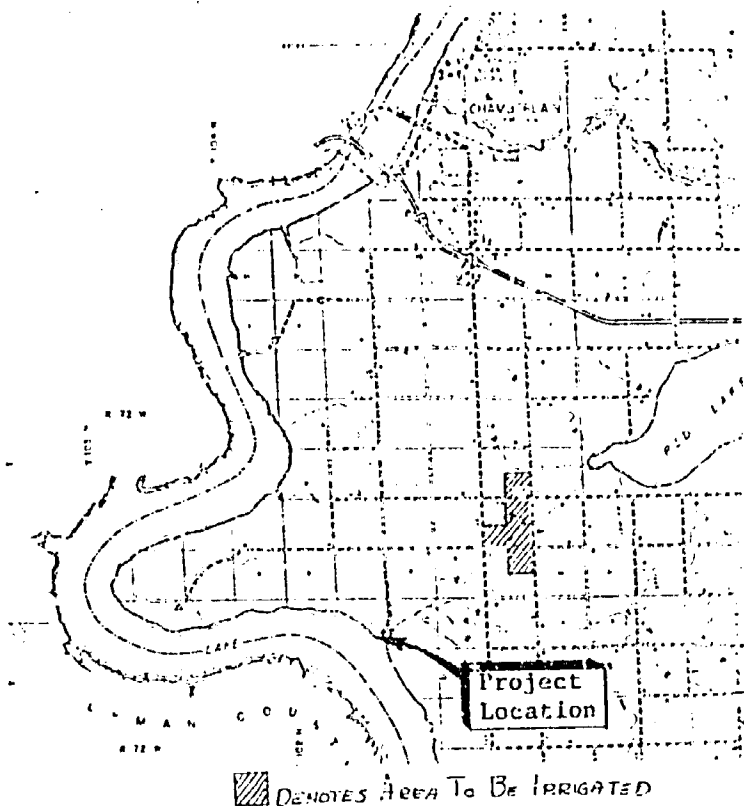

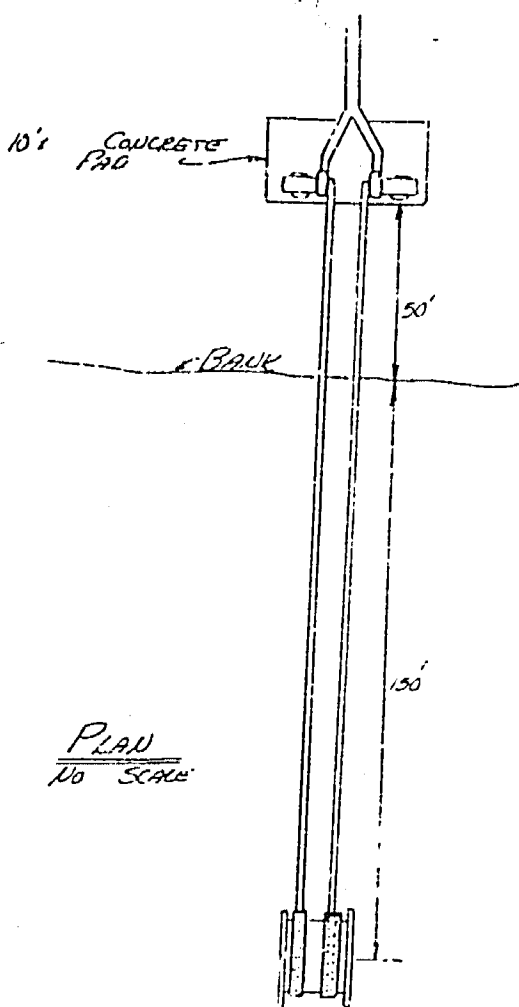

A drawing showing the location and extent of the work is attached to this notice.

Dear Mr. Gravatt:

This letter is in regard to Water Right Nos. 1002-3, 1107-3 and Permit No. 2705-3 listed in the name of Jerold Hirsch, Pierre SD. According to the Hughes County Register of Deeds Office, the land is now owned by the Crow Creek Tribe.

The following is a description of what each water right authorizes:

Water Right No. 1002-3 - 3.16 cfs from the Missouri River to irrigate 221.6 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ Section 15, T108N, R75W.

Water Right No. 1107-3 - 2.50 cfs from the Missouri River to irrigate 176 acres in the NW $\frac{1}{4}$, and N $\frac{1}{2}$ SW $\frac{1}{4}$ Section 23, T108N, R75W.

Water Permit No. 2705-3 - 5.28 cfs from the Missouri River to irrigate 370 acres in the SW $\frac{1}{4}$, Section 10, and the N $\frac{1}{2}$ Section 15, T108N, R75W.

In order to keep our records up to date, it will be necessary to have the Water Rights transferred to the new owner. Enclosed please find a partially completed transfer for each of the Water Rights. Please have them checked over, have signed, dated and notarized before returning them to this office with a \$2.50 filing fee for each (total of \$7.50).

If the systems have a specific operator who can be contacted for the yearly irrigation questionnaire, please include the name(s) along with the transfer forms.
