WATER RIGHT APPLICATION APPROVAL

The Water Resources Commission hereby approves Water Right Application No. 2714-3
VIRGIL PLUCKER HURLEY
 (Applicant) (Post Office Address)
SOUTH DAKOTA 57036 With the following modifications:
 (State)

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in existing domestic wells or in irrigation wells having prior water rights.

Date of first receipt of application APRIL 21 19 76
 Date of return to applicant for correction, amendments or changes required — 19 —
 Date of receipt of corrected application APRIL 30 19 76
 Approved MAY 20 19 76 Recorded in Book 15 Page 158

WATER RIGHT PERMIT NO. 2714-3

The Water Resources Commission hereby grants and issues this Water Right Permit No. 2714-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following Limitations and conditions:

1. The date from which applicant may claim right is APRIL 21 19 76
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before NOVEMBER 20 19 77
3. The whole of said work is to be completed on or before MAY 20 19 79
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MAY 20 19 81
5. The water appropriated shall be used for the purpose of IRRIGATION
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 2.2 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MAY 20 19 81; said water to be used during the following described annual period: APRIL - OCTOBER

Mr. Virgil Plucker
Hurley, SD 57036

Dear Mr. Plucker:

We have received your WI-1 form and are transmitting it, along with a copy of this letter, and of the water analysis to the State Conservation Commission in Pierre for their action.

The original copy of the report of analysis of this water sample is enclosed herewith for your keeping. I am also enclosing a copy of AES publication #13 with the water quality approximately plotted by means of a red cross in the chart on the outside back cover. As you will see, it is in the high salinity, low sodium category. However, it is in the upper edge of the high salinity bracket, and as such has considerable hazard for adding to the total salt of your root zone.

This characteristics means that this water should be used in some very definite management patterns in order to minimize the salt hazard to your land. The water should be used as infrequently as possible and in as large quantities as possible without causing excessive leaching. For your soil, I am unable to say what the water holding capacity is per foot of soil depth, but I would estimate it to be from 1 1/4 inch to 1 1/2 inch. This being the situation, you should apply water each time you irrigate to completely refill the root zone and perhaps a little bit in excess about every third year of irrigation. This would tend to minimize the accumulation of salts in the upper part of the soil and thus deter any tendency to damage plants and your land. I realize that the center pivot system may not be most adaptable to this type of irrigation, but this is what you should strive for.

A copy of the information that you have supplied, plus this letter, as indicated above, are going to the State Conservation Commission for their action.

Sincerely yours,

L. O. Fine

SEE

1633-3 - CONTINUED

Dear Sir,

Henry S. Park.
Aug. 24-71

I would like to know if it is possible to get an irrigation permit and what steps one has to take to get one. As I have land that lies along the Vermillion River located S/E of Parker S-24-T. 99. R. 53 and can one use this permit elsewhere as I have a tract of land across the road.

Thank You
Wesley Shaker

RECEIVED
AUG 24 1971

STATE WATER RESOURCES COMM.
PIERRE, SOUTH DAKOTA

August 26, 1971

Mr. Virgil Plucker
Hurley, South Dakota 57036

Dear Mr. Plucker:

Reference is made to your letter dated August 24, 1971, inquiring if you can obtain an irrigation permit. Your letter states that you have land adjoining the Vermillion River and I assume you are considering the Vermillion River as your proposed source of water.

You may make an application for a water right. This application may include any contiguous land. If there is intervening land ownership between the two parcels of land, two water right applications would be required to irrigate both parcels.

Enclosed are instructions and application forms which can be used in making water right applications. One water right map could be used for two separate parcels of land. Note that advertising of your intent to irrigate and a subsequent public hearing are part of the process of obtaining a water right. The Water Resources Commission cannot determine if your water right application, or applications, can be approved until after the public hearing is held.

As a matter of information to you, the Costain Estate obtained a permit to irrigate 400 acres of land in Section 13, 23 and 24, all in 109N, R53W. This Water Permit No. 1433-3 contained the stipulation that diversion of water could be made only when the Vermillion River in that area had a flow of 10 or more cubic feet per second.

Please feel free to contact this office if we can be of any further assistance.

Sincerely,

BURTON F. JONES
Water Rights Specialist

Permit No. 2714-3Water Division 3 VERMILLION RIVER Water DistrictREPORT OF EXAMINATION OF WORKS
AND/OR APPLICATION OF WATER TO BENEFICIAL USE

TO: WATER RIGHTS, WATER MANAGEMENT BOARD / POSS BLDG., PIERRE, SOUTH DAKOTA 57501

I have this day made a thorough examination of the water use system constructed by VIRGIL
PLUCKER of HURLEY holder
of Permit No. 2714-3 bearing date of priority of APRIL 21, 1976
authorizing the diversion of 2.2 cu. ft. per second of the waters of GROUNDWATER
for IRRIGATION purposes, in TURNER County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

136' DEEP WELL WITH 16" STEEL CASING .. 15' SS SCREEN,
NATIONAL PUMP MODEL N-200 8" # 676-802
POWERED BY 75HP WESTINGHOUSE ELECTRIC MOTOR

B. Works used to transport water to place of use,

1/2 MILE 8" PLASTIC LINE TO CENTER OF PUDT
2400' OF 6" ALUMINUM MAINLINE USED WITH
BIG GUN SYSTEM

C. Works used to apply water to beneficial use.

8 TOWER T & L CENTER PUDT IRRIGATION SYSTEM 850 GPM
HYDROMATIC TRAVELLING GUN SYSTEM WITH
NELSON² 250 GUN - 178 ORIFICE - 650 GPM

The system is in the following condition: GOOD

The point of diversion is located 450' S & 500' W OF THE CENTER
OF SECTION 24, T99N, R53W

The works are capable of diverting and conveying to the place of use 1.88 (850 GPM)

cu. ft. per second of water which is to be used for IRRIGATION

Water has been put to beneficial use to the maximum extent as follows: ALL IN SECTION 24, T99N, R53W

NW ¹ NE ¹	25 AC	NE ¹ SW ¹	40 AC
NE ¹ NE ¹	5 AC	SE ¹ SW ¹	34 AC
SW ¹ NE ¹	36 AC		
SE ¹ NE ¹	23 AC		

comprising a total of 163 acres of land.

Virgil Plucker
P.O. Box 92
Chancellor, SD 57015-0092

Dear Mr. Plucker:

Enclosed is Water License No. 2714A-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 412627 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 2714A-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
